My Lords, and Gentlemen,
I rejoice that I am enabled, on again meeting you in Parliament, to congratulate you on the improved condition of the Country.
Increased activity pervades almost every branch of Manufacture; Trade and Commerce have been extended at home and abroad; and among all classes of My people there is generally prevalent a spirit of loyalty and cheerful obedience to Law.
I continue to receive from all Foreign Powers and States assurances of their friendly disposition.
I have had much satisfaction in receiving at My Court the Sovereigns who in the course of the last year visited this Country.
The journey of the Emperor of Russia, undertaken at a great sacrifice of private convenience, was a proof of the friendship of his Imperial Majesty most acceptable to My feelings.
The opportunity of personal intercourse thus afforded to Me may, I hope, be the means of still further improving those amicable relations which have long existed between Great Britain and Russia.
The visit of the King of the French was rendered especially welcome to Me, inasmuch as it had been preceded by discussions which might have impaired the good understanding happily established between the two Countries.
I regard the maintenance of this good understanding as essential to the best interests of both; and I rejoice to witness that the sentiments so cordially expressed by all classes of My subjects on the occasion of his Majesty's visit were entirely in union with My own.

Gentlemen of the House of Commons,
The Estimates for the ensuing year have been prepared, and will forthwith be laid before you.
The progress of Steam Navigation, and the demands for protection to the extended commerce of the Country, will occasion an increase in the Estimates connected with the Naval Service.

My Lords and Gentlemen,
I have observed, with sincere satisfaction, that the improvement which is manifest in other parts of the Country has extended to Ireland.
The political agitation and excitement, which I have had heretofore occasion to lament, appear to have gradually abated, and, as a natural result, private capital has been more freely applied to useful public enterprises, undertaken through the friendly co-operation of individuals interested in the welfare of Ireland.
I have carried into effect, in the spirit in which it was conceived, the Act for the more effectual Application of Charitable Donations and Bequests.
I recommend to your favourable consideration the policy of improving and extending the opportuni-" ties for Academical Education in Ireland.
The Report of the Commission appointed to inquire into the law and practice in respect to the oc-" cupation of land is nearly prepared, and shall be communicated to you immediately after its pre-sentation.
The state of the law in regard to the privileges of the Bank of Ireland, and to other banking establish-" ments in that country, and in Scotland, will no doubt occupy your attention.
The health of the inhabitants of large towns and populous districts in this part of the United King-" dom has been the subject of recent inquiry before a Com-" mission, the Report of which shall be imme-diately laid before you.
It will be highly gratifying to Me, if the informa-
" tion and suggestions contained in that Report shall enable you to devise the means of promoting the health and comfort of the poorer classes of My sub-" jects.
I congratulate you on the success of the measures which, three years since, were adopted by Parlia-
" ment for the purpose of supplying the deficiency in the Public Revenue, and arresting the accumula-
" tion of Debt in the time of Peace.
The Act which was passed at that time for im-
" posing a tax upon income will shortly expire.
It will be for you, in your wisdom, to determine whether it may not be expedient to continue its operation for a further period, and thus to obtain the means of adequately providing for the public service, and at the same time of making a reduction in other taxation.
Whatever may be the result of your deliberations in this respect, I feel assured that it will be your determination to maintain an amount of revenue amply sufficient to meet the necessary expenditure of the country, and firmly to uphold that public credit which is indispensable to the national welfare.
The prospect of continued peace, and the general state of domestic prosperity and tranquillity, afford a favourable opportunity for the consideration of the important matters to which I have directed your attention; and I commit them to your deliberations, with the earnest prayer that you may be enabled, under the superintending care and protection of Divine Providence, to strengthen the feelings of mutual confidence and good-will between different classes of My subjects, and to improve the condi-
" tion of My people.

Resolved, That an humble Address be presented to Her Majesty, to express to Her Majesty our humble thanks for Her Majesty's most gracious Speech from the Throne:
That we learn with the greatest pleasure from Her Majesty the improved condition of the Country, that increased activity pervades almost every branch of Manufacture, that Trade and Commerce have been extended at home and abroad, and that amongst all classes of Her Majesty's subjects there is generally preserved a spirit of loyalty and cheerful obedience to the Law:

That we rejoice to learn that Her Majesty continues to receive from all Princes and States assurance of a friendly disposition;

That we participate in the satisfaction expressed by Her Majesty, in having received at Her Court the Sovereigns who, in the course of the last year, visited this Country:

That we are happy with Her Majesty in considering that the Journey of the Emperor of Russia, undertaken at a great sacrifice of private convenience, was a proof of the friendship of his Imperial Majesty, which must have been most acceptable to Her Majesty's feelings:

That, in common with Her Majesty, we hope that the opportunity of personal intercourse thus afforded to Her Majesty may be the means of still further improving those amicable relations which have subsisted between Great Britain and Russia:

That we participate in the feelings which Her Majesty has expressed in respect to the visit of the King of the French, which was rendered especially welcome, inasmuch as it had been preceded by discussions which might have impaired the good understanding happily established between the two Countries:

That we humbly concur with Her Majesty in regarding the maintenance of this good understanding as essential to the best interests of both; and we rejoice in the reflection that the sentiments of all classes of Her Majesty's subjects, on the occasion of his Majesty's visit, were entirely in unison with those of Her Majesty:

That we humbly thank Her Majesty for the information that the Estimates for the ensuing year have been prepared, and that they will be forthwith laid before us:

That we express our acknowledgments to Her Majesty, for the progress of Steam Navigation, and the demands for protection to the extended Commerce of the Country, will occasion an increase in the Estimates connected with the Naval Service:

That we learn with the greatest pleasure from Her Majesty that the improvement which is manifest in other parts of the Country has extended to Ireland, that the political agitation and excitement which Her Majesty had heretofore occasion to lament appear to have gradually abated, and that, as a natural result, private capital has been more freely applied to useful public enterprises, under-taken through the friendly co-operation of individuals interested in the welfare of Ireland:

That we humbly thank Her Majesty for informing us that Her Majesty has carried into effect, in the spirit in which it was conceived, the Act for the more effectual Application of Charitable Donations and Bequests:

That we assure Her Majesty that we shall be prepared to take into our consideration the policy of improving and extending opportunities for Academic Education in Ireland:

That we thank Her Majesty for acquainting us that the Report of the Commission appointed to inquire into the Law of Practice with respect to the Occupation of Land is nearly prepared, and will be communicated to us immediately after its presentation:

That we assure Her Majesty, that we shall be prepared to direct our attention to the state of the Law in regard to the privileges of the Bank of Ireland, and to other Banking Establishments in that Country and in Scotland:

To thank Her Majesty for informing us that the health of the inhabitants of large towns and populous districts in this part of the United Kingdom has been the subject of recent inquiry before a Commission, and that their Report will be immediately laid before us:

To express our acknowledgments to Her Majesty, for Her Majesty's gracious intimation that it would be highly gratifying to Her Majesty, if the information and suggestions contained in that Report shall enable us to devise the means of promoting the health and comfort of the poorer classes of Her Majesty's subjects:

Humbly to thank Her Majesty, for informing us of the success of the measures which, three years since, were adopted by Parliament for the purpose of supplying the deficiency in the Public Revenue, and arresting the accumulation of Debt in time of Peace:

To thank Her Majesty, for calling our attention to the circumstance, that the Act which was passed at that time for imposing a Tax upon Income will shortly expire:

To assure Her Majesty, that we shall be ready to consider whether it may not be expedient to continue its operation for a further period; and thus to obtain the means of adequately providing for the Public Service, and at the same time of making a reduction in other taxation:

That, whatever may be the result of our deliberations in this respect, Her Majesty may rely that it will be our determination to maintain an amount of Revenue amply sufficient to meet the necessary expenditure of the Country, and firmly to uphold that public credit which is indispensable to the national welfare:

That we entirely participate in the opinion expressed by Her Majesty, that the prospect of continued peace, and the general state of domestic prosperity and tranquillity, afford a favourable opportunity for the consideration of the important matters to which Her Majesty has directed our attention; and we unite with Her Majesty in the earnest prayer that we may be enabled, under the superintending care and protection of Divine Providence, to strengthen the feelings of mutual confidence and good-will between different classes of Her Majesty's subjects, and to improve the condition of Her Majesty's people.

having or claiming to have votes at such election,

Somes, and to forbear to give them in favour of
the Petitioner; that the said Joseph Somes, by the
said corrupt and illegal practices, was and is wholly
disabled and incapacitated and ineligible to serve
in this present Parliament for the said Borough
of Dartmouth, and the Return of the said Joseph
Somes was and is wholly null and void; that exten-
sive and systematic bribery and corruption were
practised and carried on at the said election by di-
vers persons, being friends, supporters and partizans
of the said Joseph Somes, in the election
of the said Joseph Somes; and that the said
election and return of the said Joseph Somes were
procured by means of such bribery and corruption;
that, by reason of the last-mentioned practices, the
said election and return of the said Joseph Somes
was and is wholly null and void; that, before and
after the issue of the writ for holding the said
election, the said Joseph Somes, by himself, his
agents, friends and others, was guilty of bribery
and corruption, and did, by gifts, rewards and
promises, corrupt and procure, and attempt to
corrupt and procure, divers persons having or
claiming to have votes to be electors of the said
Borough, to induce them to give their votes at
such election, or to refuse and forbear to give
their votes, at the said election; that the said
Joseph Somes, his agents and others, after the
issue of the writ for the said election, and at
and during the election, did give, present and
allow to divers persons having and claiming votes
in such election, money, meat, drink, presents,
rewards and entertainments, and for such persons,
in order to be elected and for being elected a Mem-
ber to serve in this present Parliament for the said
Borough; that the said Joseph Somes, by himself,
his agents and others, before and during the time
of the said election, did procure certain
bodies of men by violence and menaces to coerce
the electors of the said borough, and create a
disturbance at the said election, in interference of
the freedom of election, and to the prejudice of the
Petitioner and the electors desiring to support the
Petitioner; that a majority of persons legally en-
titled to vote at the said election polled and ten-
dered their votes in favour of the Petitioner, but the
dates of several persons having a right to vote, and
which were tendered on behalf of the Petitioner,
were rejected, and the votes of many persons who
were not qualified or entitled to vote were improperly
and illegally placed upon the poll in favour of the said
Joseph Somes; that many persons tendered their
votes for the Petitioner at the said election whose
names were omitted from the Register in force at
the said election, in consequence of the decision of
the Barrister who revised the lists from which
such Register was formed, but the votes of such
persons were not reckoned upon the poll for the
Petitioner; that many persons also tendered their
votes for the Petitioner who were duly registered,
but whose votes were not received at the said elec-
tion; and many others duly tendered their votes
for the Petitioner whose votes were improperly
and illegally rejected; that many persons were ad-
mitted to vote for the said Joseph Somes who at
the time of their voting had ceased to be qualified
or had become disqualified from voting at the said
Election, and whose names ought therefore not to
be struck off the poll; that many persons were ad-
mited to vote for the said Joseph Somes, whose
names appeared upon the Register of Voters for
the said Borough, who were occupiers of houses,
warehouses, counting-houses, shops and other buildings,
or of such houses, warehouses, counting-houses, shops
and other buildings, together with land in the said
Borough, but who at the time of their voting had
the same qualifications for which their
names were originally inserted in the said Register,
as much as since the time of their respective re-
registrations, and previous to the time of their voting,
they had ceased to occupy the whole or part of the
premises for which they had been registered, and
did not, at the time of their voting, continue to
occupy the same, or had ceased to occupy some part
thereof, so that the residue was not of the
yearly value required by law, or had ceased to be,
or had not paid their rates in respect of such
premises; that many persons were admitted to vote
for the said Joseph Somes as owners and occupiers
of certain premises within the said Borough, some
of whom were not entitled to vote, inasmuch as
before and at the time of their registration the premises
in right of which they voted were not respected
of the clear yearly value of ten pounds, and others
of the said voters were not themselves the legal and
actual owners or occupiers of the same, or were not
duly rated, or had not paid their rates in respect
thereof, but the said voters were nevertheless improper-
lly inserted or retained in the Register, in con-
sequence of the decision of the Barrister revising
the same; that the names of many persons appear on
the poll in favour of the said Joseph Somes who did not,
in point of fact, vote for him, but were personated
and fraudulently represented by the persons who had
themselves no titles to vote, but who fraudulently
voted, and were improperly admitted to vote in the
names and character of the said first-mentioned voters;
that many persons were admitted to vote at the said
election for the said Joseph Somes who were not entitled
to vote at the said election, inasmuch as at the said
election, or previous to the said
election, they had ceased to be resident within
the said Borough, or within seven statute miles
thereof, or within seven statute miles of the
place where the poll for the said Borough was taken,
for six months or more prior to the election; that
many persons were admitted to vote at the said election
for the said Joseph Somes who were disabled and
disqualified therefrom by the receipt of alms or
parochial relief, some within twelve months before
their registration, others within twelve months
of the said election, and others before the time of
their registry and the said election; that many
persons were admitted to vote at the said election
for the said Joseph Somes who were disqualified and
disabled from voting, inasmuch as, since the time
of their registration and previous to the time of their
voting, they had become bankrupts or insolvents,
and had thereby lost their qualification and right
to vote; that many persons were admitted to vote
at the said election for the said Joseph Somes who
had bribed or treated others, or who were bribed
or treated, at or before the said election, in order
to induce them to give their votes thereat, and
many others were so admitted to vote for the
Petitioner who were employed as agents, or in some other capacity, for the
purposes of the said election, and who were by law
illegal to vote; that certain persons were
admitted to vote at the said election for the said Joseph Somes who
had polled and gave their votes at the said election after the hour of four o'clock
in the afternoon, at which hour the poll ought by
law to have been closed; that divers persons were
admitted to vote for the said Joseph Somes who
were
from various other causes besides those above specified, were not qualified or entitled or were disqualified from voting at the said Election, and whose names should be removed from the poll accordingly; and praying that the House will take the premises into their consideration, and that the Election and Return of the said Joseph Somes may be declared null and void, that the Petitioner may be declared duly elected a Member to serve in this present Parliament for the Borough of Dartmouth, and that such other relief may be granted to the Petitioner in the premises as to the House may seem meet.

A Railway from or from near Hungerford Bridge to join the South Eastern, Canterbury, Ramsgate and Margate Railway, near Chitham, in the county of Kent, with a Branch to Faversham Creek; 2. A Railway from and out of the last-mentioned intended Railway to join the South Eastern Railway at Tunbridge and Paddock Wood, with a Branch to Stone, near Dorsetford; 3. A Railway from the South Eastern Railway at Tunbridge, to Tunbridge Wells; 4. An Extension of the Maidstone Branch of the South Eastern Railway to or near to Rochester; 5. A Railway from Ashford to Maidstone; 6. A Branch Railway from the South Eastern, Canterbury, Ramsgate and Margate Railway to Deal, and an alteration of the said Railway, and extension thereof, at Margate, and also the pursue, by the South Eastern Railway Company, of the Canterbury and Whitstable Railway; 7. The widening and extending the 3.5 miles of Groom's Hill, of the London and Greenwich Railway; that Notices were published, and Plans and Sections deposited, in reference to each of the said projects separately, with the original intention of submitting them to the consideration of Parliament by means of separate Bills, but the whole of the said measures having been submitted together to the consideration of the Board of Trade, and dealt with and reported upon by them, it is considered by the Petitioners to be the most proper course to submit such measures simultaneously to the Legislature in one Bill, and a Petition has accordingly been presented to the House for leave to introduce the same; that the Petitioners now regret to find that the forms of the House have not been correctly complied with, inasmuch as the several Railways included in the Bill sought to be introduced by them were intended to be made in different counties, whereas the notices in reference to each of the said measures, although separately relating to different counties, have not been published in all the said counties through which the same collectively would pass; that such notices were correctly published in reference to each of the said Railways separately had the same been introduced in the form of separate Bills as originally intended; and the Petitioners were therefore induced to hope that, inasmuch as by including them in one Bill, they did not alter the character of the several undertakings therein contained as regards public or private interests, but merely presented them in a less expensive form to themselves, and in a manner more consistent with the report of the Board of Trade than if separate Bills were introduced, the Standing Orders of the House would have admitted of such one Bill being introduced; that the Petitioners are now most desirous, in order to comply correctly with the forms of the House, to withdraw the said Petition so presented by them, and to present Petitions for seven separate Bills, comprising precisely the same objects as those introduced into the one Bill which they have sought to introduce as aforesaid; and praying that they may have leave to withdraw the Petition so presented by them, and to present Petitions to the House for leave to introduce seven separate Bills, with reference to the several objects comprised in such one Bill.

A Petition of the London and Croydon Railway Company, was presented, and read; setting forth, that a Report of the Railway Department of the Board of Trade, on the Kentish and South Eastern Railway Schemes, was lately presented to the House; that the following schemes were, amongst others, comprised in the said Report: No. 140, Hungerford Bridge to Tunbridge and Paddock Wood, promoted by the South Eastern Railway Company; No. 140, London to Ashford, promoted by the Petitioners; that the said two schemes were competing schemes, in so far as both had one principal object in common, viz., the shortening and improving the present line of communication to Dover and the Continent, by cutting off the angle of the South Eastern Line at Reigate; that such Report was, as the Petitioners understand from the Fifth Report of the Select Committee of the House on Railways, intended to afford to Parliament additional aid in the elucidation of the facts; that the facts determined the superiority of one Railway project over another involve numerous details, the examination of which before a Committee of the House, though efficient, is necessarily tedious and costly; and it was consequently intended, as the Petitioners believe, that the Railway Department should apply themselves mainly to the consideration of such details, and not to general comparisons between the prominent advantages and disadvantages of rival projects, which might be easily and best accomplished by the investigation of such a Committee; that nevertheless the Railway Department of the Board of Trade, as the Petitioners allege, confined themselves mainly in such Report to judgments and deductions drawn from general principles, the consideration of which is proper to the Legislature, and have neglected to afford to Parliament the necessary aid in the elucidation of those facts which were within the reach, and within the competence of the said department; that in those instances where the Railway Department have discussed facts affecting the main schemes, they have omitted notice of many of such facts essential to a right judgment of those schemes, and have inaccurately stated others upon which the said Department has based their judgment; that amongst other instances of such omissions and inaccurate statements, in relation to the said schemes, the Petitioners beg leave to call the attention of the House to the following; that it is stated in the said Report, that the scheme No. 140 involves heavier works and longer tunnels than does the scheme No. 221, whereas in fact the works on the said scheme No. 140, independent of its only tunnel, are by far the lighter of the two, as will be seen by reference to the deposited sections, and as the Petitioners are prepared to prove; that although the scheme No. 221, as submitted to the Board of Trade, comprised a branch of four and a half miles in length to Bromley, yet no mention of such branch is made in the said Report, nor is the same shown on the map deposited to accompany the said Report; that although it is stated in the said Report in reference to the said scheme No. 221, that by the construction of 33½ miles only of new Railway the distance to Dover would be shortened, yet no mention is made of the fact that the said scheme No. 140 would not only improve the through communication to Dover, to at least as great an extent as the scheme No. 221, but would also (which the said scheme No. 221 does not) afford Railway accommodation to Bromley, shorten the distance from London to Maidstone by 20 miles as compared to the existing lines of Railway, and by 10 miles as compared to the scheme No. 221, and connect Maidstone with Ashford by a direct Railway communication; that, although the Board of Trade in their Report on the schemes for extending Railway communication between London and York state it to be "highly desirable" that Cambridge, as the most important town between London and York on the eastern side of the kingdom, should be placed upon the main line of communication, and urge that circumstance upon the consideration of Parliament as a prominent reason why one of the several competing schemes should be preferred; yet in the said Report on the Kentish Lines no mention is made of the fact that a line of communication, which would from its population, market, and as the county and assize town, is by so much the most important place in central Kent, would by the said scheme No. 140 be placed upon the main line of communication, whilst by the scheme No. 221 that town would only be approached by a branch Railway; that although therefore the Croydon Company's scheme No. 140 would be the Report states, by the construction of 48 miles of new Railway from Sydenham to Ashford, only reduce the distance to Dover by the same amount as the South Eastern Company's Scheme by the construction of 33½ miles of new Railway," yet it would also afford the great local advantage; before referred to, which the South Eastern Company's scheme would not, and which could not be afforded without the construction of the larger number of new miles of Railway contemplated; no mention, however, is made in the said Report of this great additional advantage, but the incorrect inference is raised and left, that the Croydon Company's scheme proposes to effect in 33½ miles of new Railway what the said scheme No. 221 would do in 48 miles of Railway that, and that only, which the South Eastern Company's scheme proposes to effect by 33½ miles of new Railway; that, although by the scheme No. 221 it is proposed to cross upwards of twenty-five public highways, and amongst them, four streets in the densely-peopled town of Deptford, on a level, whilst, by the scheme No. 140 it is not proposed to cross a single public highway on a level, points heretofore considered by the House of the greatest moment as regards the public safety, yet no mention thereof is made in the said Report; that although the Select Committee on Railways, in their Second Report to the House, printed on the 9th August 1836, have recorded their opinion, "That where the same line of rails is to receive trains arriving from two or more separate lines of communication the risk of accidents is greatly increased, and that, wherever such junctions are permitted, the safety of the passengers requires that all the circumstances of the case should be carefully investigated, and especially the anticipated frequency of the departure and of the arrival of the trains," yet no mention is made of the fact that the scheme No. 221 would, in the short space of two miles, cause three junctions with existing lines of Railway, upon all of which there are very frequent trains; that, in the said Report states that the South Eastern Railway Company offered to accept, instead of their present maximum of three-pence halfpenny per passenger.

A Petition of Lieutenant-Colonel James Baird, of the 66th Regiment, against certain parts of the Scottish Central Railway Petition, was presented, and read; and ordered to lie upon the Table.
That the Petitioners have learnt that the House has granted to the Provinces of Canada the privilege of importing wheat and flour into the United Kingdom at a nominal duty, a concession which embodies the Petitioners to hope that the same privilege will not be withheld from the colonists of Australia; that the Petitioners cannot believe that it is the intention of the House to act otherwise than with perfect equality and fairness towards every dependency of the British Crown; therefore the fullest confidence that the House will remove the appearance which now exists of an intention to favor one colony above the rest; that the Petitioners have been taught to believe that it is the policy of the House to treat the colonies as integral parts of the empire in matters of trade, and that this policy can never be carried out so long as commercial restrictions are allowed between one part of the empire and another; that the Governor of that colony is prohibited by a despatch from the Right Honourable Lord Stanley from giving his consent to any Bill imposing differential duties upon any goods or merchandise imported into this colony; and that it appears to the Petitioners that a rule which prevents them from distinguishing, in the amount of duty, between the produce of a British colony and a Foreign State, would still more strongly negative the showing any preference to the produce of one colony over that of another; that the colony of New South Wales has hitherto imported Corn for its own consumption, not from any obstacle to agriculture presented by its soil and climate, but, with other causes, from the very limited market in which its produce could be disposed of; the farmer, whose calculation is based on the return of ordinary years, and who is naturally more anxious to avoid over-stocking his market than to provide against a scarcity, being seldom in a condition to provide the consumer with grain in case of failure of crops; that principally from this cause; etc. the smallness of the market for its produce, the colony has frequently been in danger of famine, while possessing millions of acres of fertile land, and that it has thus been driven into a one-sided commerce with South America; that, the territory of New South Wales already supplies Great Britain with one-third of the wool imported for manufacturing purposes; and that the encouragement of agriculture, so far from proving injurious to the flock-masters, would tend to their advantage by making food abundant and steady in price, and by raising up a prosperous interest which would bear, jointly with them, the burden of taxation; that it is of the greatest importance to determine the minimum price of all colonial produce; this has recently been done, as to stock, by a calculation of what the hide, horns, wool, tallow and gelatine (which the animal yields), are worth, but that no such calculation can be arrived at with regard to Corn, except by opening to the farmer a large and steady market like that of Great Britain; that the distance which separates Australia from Great Britain, and the high rate at which labour must always be paid for in a colony, constitute more than an adequate protection to the British agriculturist against the competition of Australia, and that those doctrines of protection which spring from national and commercial rivalry are inapplicable to parts of the same empire; that if the quantity of Corn to be exported from the Australian colonies be insignificant when compared with the annual consumption of Great Britain, it is not, therefore, insignificant to them; and that if the importation of Corn be small, it will be less likely to derange existing interests, and will find a market for itself, as it increases, by the simultaneous increase of the population of the United Kingdom; that the Petitioners have been informed that it is the intention of the House to withold the importation of Australian wool, and that the same principle of free trade by which this withdrawal is sanctioned would equally require the placing the Australian, as far as his remote position and dear labour permit, on a level with the British agriculturist; that the climate of Australia is peculiarly favorable to the growth of maize, a grain which, without coming into direct competition with the products of the British Isles, would yet afford a cheap and wholesome diet; and that the House will take the premises into their favourable consideration, and cause an Act to be passed to authorize the admission of wheat, maize, maize-meal and flour, the produce of the Australian colonies, into the United Kingdom, subject to the same duties respectively as wheat and flour the produce of Canada.

Books of Reference; in land, No. 149, parish of Bowden, several buildings are not described on Plans. Also, inasmuch as no application, showing the manner in which the Railway will affect a road, No. 370, in the parish of Runcorn, had been made to the surveyors of highways. Also inasmuch as no notice was served on William Gayer, as owner, till the 3d January. Also inasmuch as the names of several owners or occupiers of property, situate within the limits of the deviation, are not inserted in the Book of Reference, and no application had been made to them in the following instances:

Parish of Bowdon: The Marquis of Cholmondeley, as owner, and Thomas Bate, occupier, of an enclosure near to Nos. 74 and 82, not inserted in Book of Reference, and no application made to him: the name of John Simcock omitted, as occupier of a cottage, No. 247, and no application made to him.

In the parish of Bollin: The name of William Stelford, and John and Amos Rogerson, as occupiers, of Nos. 128, omitted, and no application made to them; the same omission (same parties) for No. 129; and no application made to John and Amos Rogerson, as occupiers of No. 124.

Also inasmuch as no application had been made to an occupier in the following instance: To John Timperley, as occupier of No. 86.

Also inasmuch as the extreme height of the Railway, over the surface of the ground, is not correctly marked in figures on the Section for an eminence, which is stated on the longitudinal Section to be raised 12 feet 9 inches, whereas the cross Section shows the same to be raised only about 9 feet.

Also inasmuch as the public road, No. 34, is stated on the longitudinal Section to be raised 12 feet 9 inches, whereas the cross Section shows the same to be raised only about 9 feet.

Also inasmuch as the road in the longitudinal Section deposited with the Clerk of the Peace, the road, No. 67, on the Plan, is stated to be 4 feet 6 inches below the level of the rails, and the cross Section referring thereto shows the surface of the said road about 6 feet below the level of the rails, and the road to be raised about 13 feet, whereas, on the Section deposited in the Private Bill Office the said road is stated to be raised 20 feet, and the cross Section showing the same to be about 4 feet 6 inches below the surface of the rails, and to be raised about 33 feet; also a similar discrepancy as to the public road, No. 93, stated to be 1 foot 3 inches below the level of the rails, and to be raised 16 feet 3 inches, and cross Section referring thereto shows the surface of the road about 1 foot 3 inches above the level of the rails, whereas on the Section deposited in the Private Bill Office, the same is stated to be raised 10 feet 3 inches, and cross Section showing the road to be about 1 foot 3 inches below the level of the rails.

Also inasmuch as the Book of Reference deposited with Clerk of the Peace of Chester, does not correspond with that deposited in the Private Bill Office, in these instances.

Parish of Runcorn: No. 163 is stated in Book of Reference with Clerk of the Peace, to be a public footway, whereas in that deposited in Private Bill Office, the said number is stated to be a field; in Book of Reference with the Clerk of the Peace, Reverend Thomas is inserted as owner of No. 420, whereas in that deposited in the Private Bill Office, Robert Thomas is stated to be such occupier; and in Book of Reference deposited with Clerk of the Peace, Peter Dutton and Mary Revell Penkett, are stated to be the occupiers of No. 59, whereas in the same deposited in Private Bill Office, William Moors and Vol. 100.

Thomas Dumbabin, are stated to be the occupiers thereof.

Ordered, That the Report be referred to the Select Committee on Standing Orders.

Sir John Yarde Buller reported from the Select Committee on Petitions for Private Bills, to whom several Petitions complaining of non-compliance with the Standing Orders, in the case of the Petition of the London, Chatham and North Kent Railway Bill, were referred; That the Standing Orders had not been complied with, inasmuch as in the copies of the Plans and Sections deposited with the Clerks of the Peace, for the counties of Kent and Surrey, the radii of curves not exceeding one mile in length, are not noted on the Plan in miles and chains in the following instances; viz.—1. A curve upon the branch of the River Thames, opposite Blackheath; 2. A curve upon the main line between the 44th and the 48th miles; 3. A curve between the 45th mile 4th furlong and 46th mile 6th furlong; 4. A curve between 46th mile 3rd furlong and 48th mile 6th furlong; 5. A curve on the Sheerness Branch at the 7th mile; 6. A curve on the Sheerness Branch between 3rd mile 8th furlong and 4th mile 2d furlong.

And inasmuch as the change of gradients is not correctly marked in figures on the Section for an eminence, which is marked upon the Section at a change of the gradient; 1. At the 51st mile 7th furlong on the main line; and, 2. At the 52d mile 22 furlongs on the main line.

And inasmuch as the rate of inclination upon the said Section is wrongly stated in the following instances; viz. —1. From 3½ furlongs to 1 mile 2 furlongs, on the main line the rate of inclination is marked 1 in 141 instead of 1 in 203; 2. From 13th mile 5th furlong to 17th mile 6th furlong, as 1 in 1,745, instead of 1 in 1,556; 3. From 37th mile 6th furlong to 37th mile 7th furlongs, as 1 in 132, instead of 1 in 114; 4. At 1st mile 5 furlongs on the Sheerness Branch, as 1 in 320, instead of 1 in 306; 5. From 3d mile 6th furlong to 3d mile 7th furlong, on the Sheerness Branch, as 1 in 132, instead of 1 in 122.

And inasmuch as at 51st mile 12 furlongs, on the main line the vertical height from the datum line to the top of the rails is stated at 279 feet, whereas the same should be 282 feet.

And inasmuch as the datum line is incorrectly drawn upon the sheet numbered 22, and is shown about 7 feet below the same, and appeared to the Committee that the heights as shown by figures were correctly stated.

And inasmuch as there is a discrepancy of 10 cross Sections in the height of the vertical scale in line showing the surface of the rails at the ending of such line, upon the 27th sheet, and at its re-commencement on the 28th sheet.

And inasmuch as there is a discrepancy in the line showing the surface of the ground, as marked by the vertical scale at the ending of such line upon the 16th sheet, and at its re-commencement on the 17th sheet.

And inasmuch as the limits of deviation are not correctly defined on the Plan in respect of the several properties numbered 18, in the parish of Charlton, and the properties numbered from 20 to 37, inclusive, in the parish of Woolwich, the limits of deviation being so laid down as to include the said properties or parts of them, although they are not in the Book of Reference or in the Schedule of the Bill, and no power of deviate into the said lands is conferred by the Bill.

And inasmuch as No. 49 upon the Plan, in the parish of St. Mary Magdalen, Bermondsey, is not entered in the Book of Reference; but it appeared to the Committee that No. 49, is a ditch, and that the owner thereof had received the due application.

And inasmuch as a public highway in the parish of Greenwich, near the 4th mile 7th furlong, within the limits of deviation as marked in the Book of Reference, or entered in the Book of Reference. H R 2 And
And inasmuch as No. 8, in the parish of Lewisham, is shown on the Plan as a plantation, and is entered in the Book of Reference as a cottage.

Ordered, That leave be given to bring in a Bill to enable the London and Croydon Railway Company to make a Railway in extension of the Croydon and Epsom Railway, to Dorking, in the county of Surrey: And that Mr. Kemble and Mr. William Joseph Denison do prepare, and bring it in.

Mr. Strutt reported from the Select Committee on Petitions for Private Bills, to whom several Petitions complaining of non-compliance with the Standing Orders, in the case of the Petition for the Eastern Union and Norwich Railway (No. 2.) Bill, were referred; That the Standing Orders had not been complied with, inasmuch as no application in writing had been sent to Sir James Low, he being absent from the kingdom, and the parties after due inquiry could not find his agent, upon whom to serve the required notice; inasmuch as certain houses and lands mentioned in the Book of Reference, deposited with the Clerk of the Peace for the county of Suffolk, were not marked or numbered on the said Plans deposited therewith, in the following instances:

In the parish of Meliss, a certain house, yards, out-house, and premises, numbered 264 in the said Book of Reference.

In the same parish, a certain house, yard, and garden, situate in the close numbered 59 on the Plans.

In the parish of Thruxton, certain lands numbered in the said Books of Reference 33, 34, 35, 36.

In the parish of Freeze, a piece of land numbered 1 in the said Book of Reference.

In the parish of Mounton, a piece of land numbered 183 in the said Book of Reference.

In the Hamlet of Loskenham, a close of land lying between the lands numbered 217 and 219 on the Plans.

And inasmuch as neither the name nor any boundaries of the parish of Freeze appears on the said Plan, although a field in that parish is within the limits of deviation marked on the Plan, nor was any Plan, Section, or Book of Reference deposited with the Clerk of the said parish on or before the 31st December last.

And inasmuch as the land numbered and described in the Books of Reference as 34, in the parish of Newton Flotman, is in the parish of Mulbarton, and neither the name nor the boundaries of such parish are marked in the Plans; nor was a copy of the Plans, Sections, and Books of Reference deposited with the Clerk of the Parish of such parish on or before the 31st December last.

And inasmuch as the line marked on the Plans as the boundary between the parishes of Has ton and Florides is not the true boundary between such parishes, and that certain lands numbered 21, 22, 23, and 24 on the said Plans, appearing in the parish of Haston, are in fact in the parish of Florides, and copies of so much of the Book of Reference deposited with the Clerks of the Peace, as relates to the parishes of Florides and Haston, were not deposited with the Parish Clerks of such parishes on or before the 31st December last; and as regards the Book of Reference deposited with the Clerk of the parish of Florides, inasmuch as certain lands therein comprised are stated to be either in the parish of Haston, or in the parish of Florides, which in the Books of Reference deposited with the Clerks of the Peace, are stated to be in the parish of Florides; and the road No. 3 is described as belonging to the surveyor of high-ways, whereas in the Books of Reference deposited with the Clerk of the Peace, the same is described as an occupation-road; and as regards the parish of Haston, certain lands respectively numbered 29, 21, 22, 26 and 24, are inserted in the Book of Reference, deposited with the said Parish Clerks, none of which appear as being in the
the said parish, in the said Book of Reference lodged with the Clerk of the Peace. That a copy of so much of said Plan and Book of Reference lodged with the Clerks of the Peace was not deposited with the Clerk of the parish of Moulton on or before the 31st December; inasmuch as the intended deviation of a road upon the lands No. 65 is not shown on the Plan lodged with the Parish Clerk, whereas the same is shown in the Plans lodged with the Clerks of the Peace; and the Book of Reference deposited therewith contains the name of Robert Wells instead of Thomas Wells (as stated in the Book of Reference deposited with the Clerk of the Peace,) as the owner of lands numbered 10, 11, 12, and 13.

And inasmuch as the Books of Reference deposited with the several Clerks of the Peace do not contain the true names of the owners and occupiers of several lands described in the said Plans within the limits of devotion, in the following instances:—

O. No. 16, in the parish of Wells; of No. 31, in the parish of Pulgrave; of No. 21, in the parish of Stimping; of Nos. 8 and 9, in the parish of Moulton; of No. 226, in the parish of Lakenham.

And inasmuch as the said Books of Reference deposited as aforesaid do not contain the names of the owners, lessees and occupiers of the following property:

In the parish of Creeting Saint Mary, of the land numbered 8 on the said Plans.

In the parish of Thurston, of the lands numbered 5 and 8 on the said Plans.

In the hamlet of Lakenham, of the plantations, lands, and houses, numbered 209, 161, 98, 158, 104, 165, 146, in the said Plans.

And inasmuch as the Sections deposited in compliance with the Standing Orders are incorrect in the following instances:

A vertical measure is not marked at each change of the gradient in the preceding instances on the following of said Sections:

Inasmuch as it is not stated in the said Sections deposited as aforesaid whether and what alteration is intended to be made in the present level of the following public roads, occurring at the distances hereinafter mentioned:

1. On the Sections deposited with the said several Clerks of the Peace and in the Private Bill Office:

2. On the Sections deposited with the Clerks of the Peace of the counties of Norfolk and Suffolk:

3. On the Section deposited in the Private Bill Office alone:

And inasmuch as the said Sections deposited with the several Clerks of the Peace are incorrect in the following instances:—

In the cross Section of the road crossed by the Railway at about 3 miles 2 furlongs 9 chains, the present surface of the road is stated to 1 in 41, whereas the same should be 1 in 56; In the cross Section of the road numbered 27, Stowmarket, the present surface of the road is stated to 1 in 26, whereas a portion of it is horizontal: In the cross Section of the road crossed by the said Railway at 14 miles 6 furlongs 2 chains, the surface of the present road is stated to be 1 in 15, whereas it should be 1 in 26: In the cross Section, No. 16, of the road numbered 23, in the parish of Binston, the present surface of the road is stated to be 1 in 21, whereas a section of the same is horizontal: The cross Sections deposited with the several Clerks of the Peace of the roads numbered 4 and 17, in the parish of Tivetshall Saint Margaret, show the surface of the present road to be raised, whereas the same is intended to be lowered according to the cross Sections deposited in the Private Bill Office: In the cross Sections of the road numbered 3 in the parish of Flore in the cross Section of the road numbered 15, in the hamlet of Lakenham, is intended to be lowered 3 feet, whereas the same
is shown in cross Section No. 28 to be lowered 8 feet.

And inasmuch as the said Sections deposited as aforesaid with the Clerks of the Peace do not correctly show the surface of the ground marked on the Plans, and as the owners, lessees, and occupiers, as the case may be, of the said lands within the hamlet of Lakenham, Nos. 9, 51 to 60, 94, 95, 96, 97, 98, 104, 105, 108, 109, 110, 130 and 203, are not numbered with reference to those deposited in respect of the said hamlet of Lakenham, according to the following numbers; 22, 106, 107, 132, 206, 219.

And inasmuch as the copy of the Book of Reference deposited in the Private Bill Office is not a true copy of the Plan and Book of Reference deposited with the Clerks of the Peace, inasmuch as there are the like variations, additions and omissions as before specified with reference to those deposited in respect of the hamlet of Lakenham.

And inasmuch as no application in writing made to the several owners, lessees and occupiers of properties affected by the proposed Railways, are not in the form set forth in the Appendix marked (A.) to the Standing Orders, nor do they contain a correct description of the Section of the line of Railway deposited, and of the greatest height of embankment and depth of cutting as affecting such properties, in the following instances; (that is to say)

Ordered, That the Petition be referred to the Committee on the Bill; and the Petitioner heard, by himself, his counsel or agent, upon his Petition, if he think fit; and counsel heard, in favour of the Bill, against the said Petition.

Ordered, That the Select Committee on Petitions Midland Railways Branches Bill for Private Bills have power to report the Minutes of the Evidence taken before them on the (re-committed) Report in relation to the Midland Railway Branches Bill.

Sir John Yarde Buller accordingly reported from the said Select Committee, to whom the Report from the said Committee in the case of the Midland Railway Branches Bill, informing the House, that "the Standing Orders had not been complied with, inasmuch as a clause (No. 15 in the said Bill) confers power to take lands by compulsion, and which intention was not specified in the Notices, and such clause gives this power to individuals whose estates lie within five miles of the main line of the said Midland Railway, and not to the said Company," was referred back to the Committee, and who were instructed by the House to ascertain by whom and under what circumstances the said violation of the Standing Orders was committed, and to report the same to the House; that they had considered the matter referred to them, and agreed to the following Report; That it appeared to the Committee, that Mr. John Scott George Burke, the Parliamentary Agent, was the person who introduced the clause (No. 15) into the Bill; that it was stated by Mr. Parker, the Solicitor to the Company, that he had pressed for the introduction of the said clause; and that Mr. Burke expressed his conviction, that it would not pass the House; and although Mr. Burke now admits that the insertion of this clause is a violation of the Standing Orders, it did not occur to him that it was so when he introduced it; that Mr. Parker urged upon Mr. Burke the admission of this clause, being pressed to do so by Mr. George Stephenson, a shareholder of the Midland Branches Railway Company, and an extensive lessee of mineral fields within five miles of the line, Mr. Parker at the time declaring that he thought the clause would not receive the sanction of Parliament; that while the Committee acquiesced thereto in contemplation the Notices for the Bill given as required by the Standing Orders of the House.

Ordered, That the Report do lie upon the Table; and be printed.

A Petition of Directors provisionally registered as Directors of the Undertaking called The Caledonian Railway, and Subscribers to the said Undertaking, stating that the
the Petitioners and certain other parties are associated together for the purpose of making and maintaining a Railway from Edinburgh and Glasgow and the North of Scotland, to be called The Caledonian Railway, and a Bill is now depending before the House for carrying the said object into execution; that the sum of money proposed to be embarked in the said Undertaking does not exceed two millions one thousand pounds, and the promoters of it are in consequence deeply interested and materially affected by the provisions of a Bill which has recently passed the House, entitled, "A Bill for consolidating in one Act certain provisions usually inserted in Acts authorizing the making of Railways in Scotland;" that the said Bill, as it has passed the House, contains the following provision, "And whereas in many cases of turnpike trusts in Scotland, large sums of money have been borrowed and expended in making and improving turnpike-roads in Scotland, greatly to the benefit of the public, and large debts have been thereby incurred, and by reason of the difficulty of raising money for these purposes on the security of the revenues of the trusts alone, the trustees upon such roads, or proprietors of land in the vicinity thereof, and other parties, have rendered themselves personally responsible for the payment of such debts: And whereas in many cases the revenues of such roads, as aforesaid, may be materially diminished by being diverted thence to Railways constructed in the vicinity of such roads, or running in a similar line or direction therewith: And whereas it is expedient that such trusts and the trustees and other parties who have so rendered themselves personally liable should be relieved of a portion of the said debt; be it therefore Enacted, that in any such case as aforesaid, the Company shall pay to the trustees of any such road such sum of money, by way of compensation, as shall be agreed upon between the Company and the said trustees, and failing such agreement, it shall be competent for the said trustees, or any party who shall have rendered himself personally liable as aforesaid, to apply to the sheriff, who shall inquire and determine whether any such case as is above recited is altogether unprecedented, and what amount of compensation should be paid by the Company to such trustees in the manner provided by the said Land Clauses Consolidation (Scotland) Act, in regard to compensation to be settled by the sheriff; that the said recited provision appears to the Petitioners opposed to all right principle, and is contrary to precedent, and fraught with injustice to the promoters of Railways, and injury to the public; that in passing Acts for the construction of Railways, Parliament did not intend; and the Glasgow, Dumfries and Carlisle Railway Company to such trustees in the case of the Bill, with- out the notice which is in the usual practice of the House to require of such clauses; in the opinion of the Petitioners, there is not a more important enactment in the whole of the Bill, nor one accompanied with such serious consequences to all future Railways in Scotland; in such cases, the House is in the habit of requiring previous notice to be given of such important additions to Bills in their progress through the House, whereby the public is made aware of how their interests are proposed to be affected; but in the present instance no notice was given, nor any intimation of what was intended; that the Petitioners are aware of how their interests are proposed to be affected; but in the present instance no notice was given, nor any intimation of what was intended; that the Petitioners and the public are not bound in any sense to guarantee such road trustees or their creditors against the progress of invention and the introduction of improved means of communica- tion throughout the country. In all cases of road trusts, the parties embarking in such undertakings do so on their own proper risk; and they therefore have never been made liable in compensation for damage done to canals or to other roads, by the formation of new and improved lines of communication; that in the analogous case of the Bill recently passed by the House for consolidating the clauses of Acts applicable to Railways in England, no such provision as that before recited has been passed for compensating the trustees on roads in England; and for their creditors; and it is a great mistake to suppose that there is anything peculiar in the position of road trustees in Scotland, which gives them any better or stronger claim to compensation; the very reverse of this is the case, inasmuch as a great deal of the debt owed by road trusts in that part of the kingdom has been contracted for the purpose of making roads in which the public at large have so little interest that the revenues are inadequate to repay the cost of construction; to this circumstance is owing the practice of proprietors of land in Scotland becoming personally liable for monies hitherto paid by road trusts; the Petitioners humbly submit, that parties in the position just described, who have derived local benefit from the construction of roads, have not so good a claim to compensation, on account of the formation of Railways, as the creditors of road trusts in England, who have no private interests in such roads; the Peti- tioners further humbly and respectfully complain, that the provision before recited was inserted in the Railway Clauses Consolidation (Scotland) Bill, without the notice which is in the usual practice of the House to require of such clauses; in the opinion of the Petitioners, there is not a more important enactment in the whole of the Bill, nor one accompanied with such serious consequences to all future Railways in Scotland; in such cases, the House is in the habit of requiring previous notice to be given of such important additions to Bills in their progress through the House, whereby the public is made aware of how their interests are proposed to be affected; but in the present instance no notice was given, nor any intimation of what was intended; that the Petitioners and the public are not bound in any sense to guarantee such road trustees or their creditors against the progress of invention and the introduction of improved means of communica- tion throughout the country. In all cases of road trusts, the parties embarking in such undertakings do so on their own proper risk; and they therefore have never been made liable in compensation for damage done to canals or to other roads, by the formation of new and improved lines of communication; that in the analogous case of the Bill recently passed by the House for consolidating the clauses of Acts applicable to Railways in England, no such provision as that before recited has been passed for compensating the trustees on roads in England; and for their creditors; and it is a great mistake to suppose that there is anything peculiar in the position of road trustees in Scotland, which gives them any better or stronger claim to compensation; the very reverse of this is the case, inasmuch as a great deal of the debt owed by road trusts in that part of the kingdom has been contracted for the purpose of making roads in which the public at large have so little interest that the revenues are inadequate to repay the cost of construction; to

A Petition of the There-undersigned intending New Zealand, Colonists and Settlers in New Zealand, stating that the Petitioners entered into an arrangement with the New Zealand Company in May 1852, for the purpose of forming a Scotch Colony in New Zealand; that the agreement to that effect was based upon the published statement that all differences between the Crown authorities and the New Zealand Company had been adjusted, and also upon the assurance of Captain Fitz Roy, to whom the enterprise was explained, that he would, on arriving in the Colony, give immediate effect to the regular selection of a site (to the extent of one hundred and twenty thousand acres), and issue a title to the same under the same seal of the colony; in these circumstances of apparent fixity, and under which projects are known to have entertained any doubt or misgiving whatever; many persons in Scotland proposed to embark for New Zealand; within a few months after the sailing of his Excellency, farms and houses were given up by them, professional engagements and appointments were relinquished, and capital was realized by all classes of intending purchasers, some of whom were already engaged in the enterprise at the time, whilst many of the working classes, of excellent character, also gave up their engagements of regular service; but ere the first party had embarked, the adjustment between the Colonial Office and the Company was not only brought into question, but, so far as the Petitioners are concerned, was virtually cancelled, and with every confidence in the full purpose of Captain Fitz Roy to fulfil his pledge, it nevertheless became evident that no sane man could embark in the enterprise without absolute assurance of the land title having been actually issued; and some of the Petitioners, with many others associated with them, have thus been deeply injured in their circumstances, whilst a popular and promising undertaking has been most hurtfully and indefinitely suspended; another year has nearly elapsed, and although they have been seen by the newspapers and also by despatches from the New Zealand Company, that the land was regularly purchased and placed under survey for them on the thirty-first of July last, in presence of a Government Officer and a Protector of Aborigines appointed for the purpose by Captain Fitz Roy, as parties to the transaction, Commissioners Saipine and Colonel Wakefield being also present, still no title has been announced, and it is impossible, after all that has taken place, to move without it; and praying that the House will cause immediate steps to be made into the circumstances of that purchase, and that they may have such official assurance in regard to title as shall rescue them from the helpless state of inactivity and waste of means to which they have so long been exposed, was presented, and read; and ordered to lie upon the Table.

Mr. Greene reported from the Select Committee on Petitions for Private Bills, to whom several Petitions complaining of non-compliance with the Staying Orders, in the case of the Petition for the Hull and Gainsborough Railway, were referred; That the Standing Orders had not been complied with, inasmuch as according to the general Plan the centre of the Line of Railway passes into No. 45, in the parish of Barton Saint Peter, and partly in the parish of Barton Saint Mary.

And inasmuch as certain lands are described on the Plans and in the Books of Reference as in the parish of Barton-upon-Humber, but there is not a land-passage in the said parish, and the lands are situate partly in the parish of Barton Saint Peter, and partly in the parish of Barton Saint Mary.

And inasmuch as two fields, No. 10, in the parish of Blyton, in the Plan deposited at Spilsby, are not numbered in the Plan; and the Plan deposited at the Private Bill Office.

And inasmuch as no mill or building was shown on the Plan or on the enlarged Plan deposited at Spilsby, in No. 15., in the said parish, when examined on the 17th February, but they are now shown on such Plans, and they are also shown on the Plans deposited in the Private Bill Office; but in the sealed-up Plans deposited at Spilsby such mill or building is not shown.

And inasmuch as in the Plan deposited in the Private Bill Office, a field through which the line passes in the said parish is numbered 65, and other fields contiguous thereto are numbered 66, 67 and 68, whereas in the Plan deposited at Spilsby, such fields were not numbered on the 21st December, and they are now obliterated by a blot which did not exist on the 21st December, but was there in February.

And inasmuch as in the enlarged Plan at No. 4, in the parish of Corringham, on the Plan deposited at Spilsby, the line of Railway crosses No. 4, to the extent of 212 feet (the nearest point of such line being 30 feet from the corner of the field); whereas on the Plan deposited in the Private Bill Office it crosses No. 4 to the extent only of 155 feet, its nearest point being 30 feet from the corner.

And inasmuch as a field at 6 miles on the line, numbered 20, on the Plan deposited in the Private Bill Office, was numbered 19, on that deposited at Spilsby on 31st December; it is now altered to 20, this alteration having been made since February.

And inasmuch as a field at 12 miles 1 furlong intersected by the centre line, was numbered 8 on the Plan deposited at Spilsby, whereas on the Plan deposited at the Private Bill Office it is numbered 63; it is now altered to 63 in black ink; this alteration having been made since February, when the 3 had been added in pencil to the 6, which was in red ink.
And insomuch as in the Plan deposited in the Private Bill Office, the centre line passes a considerable distance through No. 20, in the parish of South Ferriby, whereas, in that deposited at Spilsby, it did not pass through the said number at all, on the 21st December, but it now does so, this alteration having been made subsequently.

And insomuch as the buildings in No. 22, in the parish of Borrow-upon-Humber, through which the centre line passes, are in a different part of the field on the Plan deposited in the Private Bill Office, to that which they occupied on the Plan deposited at Spilsby on the 21st December, which has, since February, been altered so as to agree with the Plan deposited in the Private Bill Office.

A Petition of the Mayor, Aldermen, and Bur-
marked at the crossing of the Bulls Pill Railroad.

6. The extreme height of the embankments on the Branch to join Bulls Pill Railroad is not marked: 7. There is no Section of five chains of the Railway, as shown on the Plan at the termination thereof: 8. In the Branch of the Birmingham and Gloucester Railway, from the commencement thereof to the 24 furlong, or thereabouts, a viaduct (as shown on the Plan deposited in the Private Bill Office) is not marked.

And inasmuch as a viaduct shown on the Plan deposited in the Private Bill Office, between the 1st and 3d furlong, is not marked upon the Sections deposited with the Clerk of the Peace for the county of Gloucester, as intended to be deviated and passed over the Railway, whereas in the Section deposited in the Private Bill Office the same is stated as intended to be raised twenty feet and passed over the Railway, but the cross Sections to which the road is referred are correct in both cases.

Ordered, That the Report be referred to the Select Committee on Standing Orders.

Mr. Aglionby reported from the Select Committee on Petitions for Private Bills, to whom two Petitions complaining of non-compliance with the Standing Orders, in the case of the Petition for the London, Worcester and South Staffordshire Railway (Extension from Dudley to Wolverhampton) Bill, were referred; That the Standing Orders had not been complied with, inasmuch as Clause 30 of the proposed Bill enables the Company (with the consent of the Owners and Occupiers of the intervening lands), to make and maintain as a part of their undertaking, Branches and other works from or connected with the main or side lines of the said Railway, to any furnaces, collieries or other works, lying within 1,000 yards of the Railway, but none of the proceedings required by the Standing Orders relative to Railway Bills have been taken with respect to such Branch Railways.

And inasmuch as the fixed point to which the datum line is referred is not stated in writing on the Sections deposited with the Clerks of the Peace.

Ordered, That the Report be referred to the Select Committee on Standing Orders.

Mr. Aglionby reported from the Select Committee on Petitions for Private Bills, to whom a Petition, complaining of non-compliance with the Standing Orders, in the case of the Petition for the East Dereham and Norwich Railway Bill, was referred; That the Standing Orders had not been complied with, inasmuch as the Plan deposited in the Private Bill Office does not describe the line or situation of the whole of the work, and the lands in or through which it is to be made, and there is not a complete Section of the whole of such line, one sheet (containing about 13 miles of the line) not being contained in such Plan.

And inasmuch as lands lying in the parish of Earitham, Nos. 1 to 12 inclusive, and 19 on the Plans deposited with the Clerks of the Peace, are not shown thereon the Plan deposited in the Private Bill Office.

And inasmuch as the Books of Reference do not contain the names of the owners, lessees or occupiers of the property; (as the Railway crossing the said road, No. 73, in the parish of East Tuddenham, certain lands of which the Mayor, Aldermen and Burgesses of Norwich are owners, George Adams, lessee, and John Fowler, occupier, near Nos. 1 and 6: 8. A grocer's shop and two dwelling-houses, occupied by William Num, Widow Lake and Miss Ward, near No. 8 in the said parish.)

And inasmuch as the following inaccuracies occur in the Sections deposited in the Private Bill Office, viz. 1. A road, No. 73, in the parish of East Dereham, is shown on the Plan as 24 and 25 chains distant from the terminus of the Railway at East Dereham, and on the Section, as 1 furlong and 4 chains distant from the said terminus: 2. A road, No. 47, in the parish of Heigham, is shown on the Plan as 14 miles 4 furlongs distant from the said terminus, and on the Section 14 miles 4 furlongs 8 chains: 3. At the said road, No. 73, the surface of the ground at the crossing thereof is shown to be 271 feet above the said datum line, instead of 267 feet: 4. At 5 furlongs from the said terminus, the surface of the ground is shown to be 267 feet above the said datum line instead of 274 feet: 5. The surface of the ground at the crossing of the said road, No. 47, is shown to be 298 feet above the said datum line, instead of 295 feet: 6. At 13 miles 25 chains the surface of the ground is shown to be 163 feet above the said datum line, instead of 144 feet: 7. At 13 miles 4 furlongs, the surface of the ground at the crossing of the road is stated to be 198 feet above the said datum line, instead of 205 feet: 8. At 13 miles 6 furlongs, the surface of the ground at the crossing of the road is shown to be 180 feet above the said datum line, instead of 205 feet: 9. At 13 miles 7 furlongs 2 chains, the surface of the ground is shown to be 186 feet above the said datum line.

Between 13 miles 25 chains and 14 miles 12 chains, the surface of the ground is incorrectly shown and a gradient wrongly marked, being marked 1 in 285, whereas it appears, by measurement, to be 1 in 553 or thereabouts, a gradient wrongly marked 1 in 29 feet, or thereabouts, between the height of the line corresponding with the upper surface of the rails, as marked from the said datum line in one sheet of the Section at the end thereof, and at 13 miles 25 chains from the said terminus, and the corresponding point shown on another and following sheet of the same Section at the same point, such height being on the first-mentioned sheet 194 feet, by measurement, and on the other sheet 165 feet, by measurement: 11. At the junction of the main line, with a branch therefrom, at 13 miles 7 furlongs 2 chains, reference is made to a Section marked E.E. between the upper surface of the rails, as marked from the said datum line in one sheet of the Section at the end thereof, and at 13 miles 25 chains from the said terminus, and the corresponding point shown on another and following sheet of the same Section at the same point, such height being on the first-mentioned sheet 194 feet, by measurement, and on the other sheet 165 feet, by measurement: 12. Between the junction with the main line of the Lakenham Branch, and 4 furlongs 6 chains thereof, the line marked on the Plan is shown to be 196 feet above such datum line, whereas the upper surface of the said main line at the same point is shown to be 170 feet above such datum line, and in a cutting of 12 feet deep, and the surface of the ground at the crossing of the said line is shown to be 196 feet above such datum line, whereas such upper surface of the said main line at the same point is shown to be 170 feet above such datum line, and the surface of the ground at such part is shown on the said Section of the said line to be 196 feet above such datum line, whereas such upper surface of the said main line at the same point is shown to be 170 feet above such datum line, and in a cutting of 12 feet deep, and the surface of the ground at the crossing of the said line is shown to be 196 feet above such datum line, whereas such upper surface of the said main line at the same point is shown to be 170 feet above such datum line.
in property No. 190 and 121, in the Books of Reference, the name of the owner, the Reverend Andrew Brandram, is omitted, the name of E. Goodhart being erroneously inserted as such owner.

Also, inasmuch as a field adjoining property numbered 87, within the limits of deviation, in the parish of Bromley, is not numbered on the Plan, nor described in the Books of Reference.

Also, inasmuch as the occupier of property No. 5, in the parish of Orpington, on the line of the Railway, has had no correct application made to him in respect thereof, the Notice to him not stating it to be property on the line, but as for property within the limits of deviation.

Also, inasmuch as in the parish of Bromley, a piece of land, No. 55, is described in the application to the occupier thereof as property on the line, and in 6 feet cutting, whereas the same should have been described as within the limits of deviation.

Also, inasmuch as Charles Inseg, occupier of property, No. 56, on the line of Railway, and in 6 feet cutting, has not had a correct application in respect thereof, inasmuch as the same is stated as property within the limits of deviation.

Ordered, That the Report be referred to the Select Committee on Standing Orders.

Sir John Yarde Buller reported from the Select London and Croydon Railway (Maidstone, Ashford, and Tunbridge) Bill, that the Standing Orders had not been complied with, inasmuch as the Plans and Books of Reference deposited are incorrect in the following instances:

Parish of Beckenham: Property numbered 120 and 121, stated in the Books of Reference to belong to Emanuel Goodhart, whereas Reverend Andrew Brandram is the owner thereof.

Also, inasmuch as the Plans are not duplicates, several numbers being omitted on the Plans deposited with Parish Clerks, in the instances following:—In Nos. 29 and 40, fences omitted in Plan with Parish Clerk of Bromley; land, No. 55, is wrongly described in the application to the occupier, as in the line, in 6 feet cutting, whereas the same should be property within the limits of deviation; property No. 56, wrongly stated to be within limits of deviation, whereas the same is in the line, in 8 feet cutting.

Parish of Cheffield: In the application to Thomas Waring, the Railway is put in 3 feet cutting (No. 8), whereas the same is in 10 feet cutting on the Section.

Also, in No. 31, a cutting stated to be in 33 feet, appears in 22 feet cutting on the Section.

Parish of Wrotham: Also, inasmuch as the name of William Barton, lessee and occupier of fields numbered 10, 119, and 120, is not inserted in the Books of Reference, and no application had been made to him in respect thereof; the name of Sir W. R. P. Geary, owner of property numbered 57 is not inserted in the Books of Reference, nor is John Knowles, as occupier thereof, and no application had been made to them in respect thereof.

Parish of Horley: The name of T. W. Davies, omitted as occupier of No. 27, and no application made to him in respect thereof, the name of T. Whatman being erroneously inserted as such occupier; the name of T. Stodham, occupier of No. 59, omitted, and no application made to him in respect thereof, T. Whatman erroneously inserted as occupier; the name of Emanuel Goodhart as occupier of property, numbered 25 and 28, omitted, the name of James Whatman erroneously inserted as owner thereof.

Parish of Maidstone: Also, inasmuch as property near No. 2 on the Plan and No. 1 in the Book of Reference is not numbered on the Plan; a cottage and yard in No. 29, is not numbered on
Plan, is not described in Book of Reference, and no application made to Thomas Tomliver, as occupier thereof; property No. 33, described in Book of Reference, house and garden, is two distinct dwellings. In the parish of Rainham, the occupier of one of them, is not inserted, and no application had been made to him in respect thereof; in property No. 94, the name of George Green omitted, as occupier thereof, and no application had been made to him. Thomas Weeks erroneously inserted as the occupier.

Parish of Bexleyheath: Also, inasmuch as a cottage and garden, No. 14 on the Plan, is not shown on the enlarged Plan.

Parish of Thurnham: A cottage and garden, No. 16 on the Plan, is not described in the Books of Reference; the names of certain owners of property, numbered 13 and 14, are not inserted in Book of Reference, and no application made to them in respect thereof.

Also, inasmuch as property No. 29, is described in the Book of Reference as arable, whereas it should be meadow; it is also shown on the Plan as one field, whereas there is a fence dividing the same into two fields, not shown on the said Plans.

Parish of Lenham: Property No. 88, is described in Book of Reference as meadow, whereas the same should be cottage and garden, and is not shown on the enlarged Plan.

Also, inasmuch as a portion of a field in Lenham, being part of a field, No. 2, in the parish of Charing, is not numbered on the Plan, or described in the Book of Reference; also, as to a garden in Lenham, part of property No. 2, in Charing, a similar omission, and no application made to the owners and occupiers thereof.

In the parish of Westwell: Also, inasmuch as no application had been made to the owner and occupier of property No. 24, no application made to the occupier of property No. 19, and the name of the occupier of said No. 19 not inserted.

Also, inasmuch as Nos. 60 and 75 are not numbered on the Plan deposited with the Clerk of the Peace.

In the parish of Hadlow: The name of Eleanor Wilmer, as owner of property, numbered 16, 11, 13 and 17, omitted in the Book of Reference, and no application made to such owner.

Also, inasmuch as a field adjoining No. 39, is not numbered on the Plan, and no application made to the owners and occupiers thereof, and whose names were not inserted in Book of Reference.

Parish of Tunbridge: The name of John Miller, as occupier of property No. 28, is omitted, and no application had been made to him in respect thereof; the name of James Ebert, as owner of three fields, Nos. 14, 15 and 16, on the Plan, is not inserted in the Book of Reference as such owner.

In parish of Hollingbourne: No. 34, (a field) is divided by a double fence and footway, which is not numbered on the Plans, and a field near thereto is not numbered on the Plans or described in the Book of Reference, and no application had been made to the owner and occupier thereof, in respect thereof.

Also, inasmuch as the names of Sir B. W. Bridges, and the heirs of Edward Knight, as owners of Nos. 19, 20 and 21, are omitted, and no application had been made to them.

Also, inasmuch as on the Section of the branch to Tunbridge, deposited with Clerk of Peace of Kent, the extreme height thereof over the surface is not marked for an embankment at or near 8 miles from the said junction; also, that at 5 furlongs from the said junction a turnpike-road is crossed, but is not noticed on the said Section in the Private Bill Office.

Also, inasmuch as a certain footpath, No. 22, in the Book of Reference, deposited with Parish Clerk of Tunbridge, is not shown on the Plan deposited with Parish Clerk or Clerk of Peace.

Also, inasmuch as the occupier of a lodge and land, No. 17, in the parish of Tunbridge, was stated to be John Chatfield, who was not the lessee of the said lodge and land; that a certain orchard, in the parish of Hadlow, No. 63 on the Plan, is omitted with Books of Reference, deposited with the Clerk of the Peace and Parish Clerk of Hadlow respectively; also, that Sophia Porter, as owner and occupier of the same, had had no application in respect thereof.

Also, inasmuch as William Young, occupier of property No. 9, in the parish of West Peckham, had no application made to him; also, that certain devisees, as owners for property numbered 28, 30, 29, 31, 32, and 33 on the Plan, had no application made to them in respect thereof.

Also, inasmuch as a public highway, passing through land in the parish of Hadlow, and numbered 66 and 68, is not shown on the Plan deposited with the Clerk of the Peace.

And also, inasmuch as Elizabeth and William Golding, as owners of property numbered 67, 68, 69, 60, 61, 62, 65, 64, 65, and 65, had no application made to them in respect of such properties.

Ordered, That the Report be referred to the Select Committee on Standing Orders.

Sir John Yarde Buller reported from the Select London and Croydon Railway Committee on Petitions for Private Bills, to whom a Petition complaining of non-compliance with the Standing Orders, in the case of the Petition for the London and Croydon Railway Enlargement Bill, was referred; That the Standing Orders had not been complied with, as inasmuch as the lawn and ornamental ground of Joseph Alfred Hardcastle, adjoining to his house, in the parish of St. Paul's, Deptford, within the limits of deviation, are not described in the Plans deposited in the Private Bill Office, nor referred to in the Book of Reference.

And also, inasmuch as the name of the occupier of property, No. 42 on the Plan, (Alexander Halfpenny) is omitted in the Book of Reference, the name of James Bacon being erroneously inserted as such occupier.

Ordered, That the Report be referred to the Select Committee on Standing Orders.

not marked upon the Section, but it was proved to the Committee that the whole of the proposed work is the widening of the present London and Greenwich Railway, which is an existing conduit of arching.

Ordered, That the Report be referred to the Select Committee on Standing Orders.

Sir William Heathcote reported from the Select Committee on Petitions for Private Bills, to whom a Petition complaining of non-compliance with the Standing Orders, in the case of the Petition for the South Eastern Railway (Tunbridge to Tunbridge Wells), was referred; that the Standing Orders had not been complied with, inasmuch as the Notices inserted in the country newspapers and in the London Gazette, and the Applications to the owners, lessees and occupiers, do not correctly specify the object of the Bill, such Notices and applications having been given in respect of a line from Tunbridge to Rye, and the present application being for powers to construct a Railway from Tunbridge to Tunbridge Wells, being only four miles of the line originally contemplated.

Ordered, That the Report be referred to the Select Committee on Standing Orders.

Mr. Home Drummond reported from the Select Committee on Petitions for Private Bills, to whom several Petitions complaining of non-compliance with the Standing Orders, in the case of the Petition for the South Eastern Railway (Ashford to Hastings) Bill, were referred; That the Standing Orders had not been complied with, inasmuch as the limits of deviation are incorrectly drawn through the property numbered 32, in the parish of Sandwich, and a property contiguous to No. 11, in the parish of Rye, but that such properties are not entered in the Book of Reference, nor does the Bill confer any power to take the same.

And inasmuch as the several properties in the parish of Rye, entered and numbered in the Book of Reference from 1 to 9, inclusive, and from 23 to 31, inclusive, and Nos. 35, 41 and 42, are not numbered upon the Plan deposited with the Clerk of the Peace for the county of Kent.

And inasmuch as the line of lateral deviation is not continued along the whole length of the line of the Railroad, it being omitted for the extent of about 2 furlongs, near the terminus at Hastings, when it appeared to be coincident with the parish boundary, which is laid down on the Plan.

And inasmuch as the radius of a curve at the 11th mile 7th furlong, not exceeding 1 mile in length, is not noted on the Plan.

And inasmuch as the extreme height over the surface of the ground, is not marked for the following embankments; viz. At the 24th mile 7th furlong, and at the 25th mile 3d furlong.

Ordered, That the Report be referred to the Select Committee on Standing Orders.

Mr. Strutt reported from the Select Committee on Petitions from Private Bills, to whom a Petition complaining of non-compliance with the Standing Orders, in the case of the Petition for the Kington and Bray Railway Bill, was referred; That the Standing Orders had not been complied with, inasmuch as the notices in the Dublin Gazette and Newspapers do not correctly specify the objects of the Bill, the Notices having been given for a line of Railway from Kington to Waterford; but the Bill takes powers to construct only a Railway from Kington to Bray, being about seven miles of the line originally contemplated.

And inasmuch as the line as laid down on the Plans and Sections deposited with the Clerks of the Peace for the county of Dublin, does not agree with the line as laid down on the Plans of the Petitioners lodged at the Private Bill Office in the following instances: At 2d mile 7th furlong, a difference of 130 links; at 3d mile, at the county boundary, a difference of upwards of 100 links; at 3d mile 2d furlong, a difference of 100 links; at 4th mile 4th furlongs, a difference of 100 links.

And inasmuch as the lines figured on the Plans and Sections lodged at the Private Bill Office, but differ from the three last mentioned in the following instances, viz. At the 4th mile a difference of 3 chains as to position in map; at the 6th mile, 10 chains 50 links; at the 7th mile, 8 chains, 50 links; and on the Section from the 4th to the 6th mile, measures...
sures 3 furlongs longer than on the Plan, and from the 6th to the 7th miles measures more than 5 chains.

And inasmuch as the Plans and Sections lodged with the Clerk of the Peace as aforesaid, do not exhibit thereto the distances in furlongs from one of its termini.

And inasmuch as the limits of lateral deviation as marked on the Plans lodged with the said Clerks of the Peace, do not agree with those marked on the Plans lodged at the Private Bill Office, in the following instances: At 1 mile 21 furlongs, a difference in width of 2½ chains from limit to limit, and a difference of position of limit, with respect to the Plan, of more than 1½ chains; at 1 mile 4½ furlongs, there appears a difference of more than 2½ chains from limit to limit, and a difference of position of limit, with respect to the Plan, of 2 chains; at 1 mile 6 furlongs there appears a difference in width of more than 2 chains from limit to limit, and a difference of position of limit, with respect to the Plan, of more than 2 chains; at 2 miles 3½ furlongs, there appears a difference of about 1½ chains in width from limit to limit, and in position, with respect to the Plan, of about 1 chain; at 2 miles 4 furlongs there appears a difference of about 1½ chains in width from limit to limit; at 3 miles 3 furlongs, there is a difference of more than 1 chain in width from limit to limit, and a difference in position, with respect to the Plan, of about 2½ chains; at 4 miles there is a difference of more than 4 chains in width from limit to limit, and a difference in position, with respect to the Plan, of more than 3 chains; at 6 miles there is a difference in width from limit to limit of about 6 chains, and a difference in position, with respect to the Plan, of more than 5 chains; at 5 miles there is a difference in width from limit to limit of about 5 chains, and a difference in position, with respect to the Plan, of about 2½ chains; at 7 miles there is a difference in width from limit to limit of about 8 chains, and a difference in position, with respect to the Plan, of more than 3 chains; at 6½ miles there is a difference in width from limit to limit of about 6½ chains, and a difference in position, with respect to the Plan, of about 2½ chains; at 2½ miles 4 furlongs there appears a difference of about 1½ chains in width from limit to limit, and a difference in position, with respect to the Plan, of about 1½ chains; at the tunnel there is a difference of more than 5 chains in width from limit to limit, and a difference in position, with respect to the Plan, of about 2½ chains; at 4 miles there is a difference of more than 4 chains in width from limit to limit, and a difference in position, with respect to the Plan, of more than 3 chains; at 6½ miles there is a difference in width from limit to limit of about 6½ chains, and a difference in position, with respect to the Plan, of more than 5 chains; at 5½ miles there is a difference in width from limit to limit of about 5½ chains, and a difference in position, with respect to the Plan, of 2 chains; at 1 mile 3 furlongs there appears a curve not exceeding 1 mile in length is noted on the Plans so lodged, pursuant to Standing Order No. 409, viz.: At 3 furlongs there appears a difference of radius according to the figuring on the Plan of 1 chain; at 1 mile 3 furlongs there appears a curve not exceeding a mile, and there is no radius noted; at 2 miles 4 furlongs there appears a difference of 62 feet; at 3 miles 1 furlong there appears a curve not exceeding 1 mile, and there is no radius noted; at 3 miles 5 furlongs there appears a curve not exceeding 1 mile, and there is no radius noted; at 4 miles 2½ furlongs there appears a radius of about 25 chains, and the radius is not figured; at 4 miles 4 furlongs there appears a curve not exceeding 1 mile, and there is no radius noted; at 3½ miles 3 furlongs there appears a curve of about 20 chains, of which the radius is not figured; at 6 miles 4 furlongs the radius is not noted.

And inasmuch as the intended tunnelling is not marked on the Plan lodged with the Clerk of the Peace, nor are there any definite points laid down as to its position; the lengths as figured on the Plans and Sections lodged as aforesaid differ from those lodged with the Private Bill Office; in the former the length is figured as being 496 yards, in the latter 500 yards.

And inasmuch as the rate of inclination of the gradients as figured on the Sections lodged with the said Clerk of the Peace, do not agree with those figured on the Section lodged in the Private Bill Office, inasmuch as there exists one entire rate of inclination more on the Sections lodged in the Private Bill Office, than on those lodged with the said Clerk of the Peace, the number of inclinations of the gradients in the former being ten, and at the latter nine.

And inasmuch as the ordinates at the change of gradients differ in the Plan lodged with the Clerk of the Peace and those lodged in the Private Bill Office, nor do they agree with the measurements, which would appear from scale, viz.: At 6 furlongs, 1 mile 6 furlongs, 2 miles 4½ furlongs, 4 miles 3 furlongs, 4 miles 4½ furlongs, 5½ miles 1 furlong, 6 miles 2 furlongs, 6 miles 6½ furlongs, 7 miles.

And inasmuch as the roads, as marked in the Plans and Sections lodged as aforesaid differ from those marked on the Plans, in the following instances: The distance between the roads figures Nos. 3 and 4, in Section lodged in Dublin, is 1 chain longer on the Section than on the Plan; between roads figured No. 2 and 3 on the said Section, is 2 chains shorter on the Section than on Plan; the road at Mustard Cottage, the road on the Section is upwards of 1 chain longer than on Plan; from 6th to 7th mile the Plan is longer than the Section, by more than three chains.

And inasmuch as the cross Sections of the public roads, as shown on the Sections, do not agree with the vertical measure of those roads, in the following instances: The road at Perrin’s-row, on the Sections lodged as aforesaid with the Clerk of the Peace for Dubia, is numbered figure 2, whereas the same road on the other Sections, in the Private Bill Office, is numbered 1; the road near Islington-terrace is raised 1 foot, and carried over on the said Section lodged in Dublin, and it appears level and unaltered on the Section in the Private Bill Office; the road at Perrin’s-row is raised 3 feet, and carried over on the Section lodged in Dublin, and it appears raised 5 feet 6 inches on the Sections in the Private Bill Office; the road at Glasthult Lodge is raised 4 feet and carried over, and on the Section lodged in the Private Bill Office it is raised 10 feet and carried over; the road at Albert Cottage is raised 5 feet and carried over on the Section lodged in Dublin, and it is raised 7 feet 6 inches on Section in the Private Bill Office.

And inasmuch as the vertical measurements, from the datum line to surface line, as defined on the Section, disagree throughout the extent of the whole surface line.

And inasmuch as Robert Chandless, Robert Newland, Nicholas Fitzpatrick and Thomas Abbott Green are the owners of the properties in the parish of Saint Mary Newington, numbered 54, 55, 56, 57, 58, 59, 60, 61 and 62, and that they are not entered as owners in the Book of Reference, deposited with the Clerk of the Peace for the county of Kent.

And inasmuch as the limits of deviation are incorrectly drawn through four pieces of meadow land, in the parish of Saint Alphege, Greenwich, in the ownership of John Angerstein. And inasmuch as the limits of deviation are incorrectly drawn through a certain market garden opposite the properties numbered 174 and 175, in the parish of Greenwich, in the ownership of the Reverend Phileps Leigh Cooke, the Reverend Lempiot Gregory Dryden, the Reverend Charles Gulliver Fryer and Helen Eliza, his wife, and in the occupation of James Miles.

And inasmuch as John Lucas is the owner of the properties in the parish of Saint Paul, Deptford, numbered 78, 79, 80, 81, 82, 86, 97, 98, 99 and 100, that he is not entered as such owner in the Book of Reference, nor has application been made to him, in respect of any of those properties.

And inasmuch as Harriet Gray Hurllatt, Caroline Marson Hurllatt, Sophia Marner Hurllatt, Matilda Frances Hurllatt, Samuel Lepard and Betsy Gray Hurllatt, are lessees of certain properties in the parish of Saint Paul, Deptford, numbered 78, 79, 80, 81 and 82, that their names are not in the Book of Reference, nor has application been made to them in respect of such properties.

And inasmuch as the limits of deviation are incorrectly drawn through property opposite No. 79, in the parish of Erith, owned by Sir Henry Wheatley and Owen Williams, and opposite the property numbered 110, of which — Walter is owner, and James Pege is occupier; but it appeared, from the position of the properties, that the owners thereof could not have been misled by the mistake.

And inasmuch as a tramroad in the occupation of Mr. John Tilden, contiguous to No. 58, in the parish of Stone, is not numbered upon the Plan or entered in the Book of Reference.

And inasmuch as no owner, occupier or lessee is inserted in the Book of Reference, nor has any application been made in respect of No. 200, in the parish of Chatham, being the River Medway.

Ordered, That the Report be referred to the Select Committee on Standing Orders.

Sir William Heathcote, reported from the Select Committee on Petitions for Private Bills, to whom several Petitions complaining of non-compliance with the Standing Orders, in the case of the Petition to the South Eastern Railway (Lewisham to Tunbridge and Pickfold Wood), Bill were referred: That the Standing Orders had not been complied with, inasmuch as the copies of the Plan, Sections and Book of Reference were not deposited with the Clerks of the Peace for the counties of Kent and Surrey, and with the Railway Department of the Board of Trade, on or before the 30th day of November last, and inasmuch as upon the Plans deposited with the Clerk of the Peace for the county of Kent, the 10th mile upon the Tunbridge line is marked at 11 furlongs and 8 chains, or thereabouts, distant from the 9th mile, being 3 furlongs 8 chains, or thereabouts, too much.

And inasmuch as the total length of the Tunbridge Branch line is stated to be 53 miles 6 furlongs 146 yards from Hungerford Bridge, on the Plans deposited with the said Clerk of the Peace, and 34 miles 4 chains 11 yards on the Plan deposited in the Private
Private Bill Office, and that in respect thereof such Plans are not copies one of the other. And inasmuch as the miles and furlong long intermediate between the 9th mile and the end of the line, is placed in a different situation upon the Plan deposited with the Clerk of the Peace, and that their names are not in the Book of Reference, nor was application made to them with respect to such property.

And inasmuch as James Hallom is the occupier of the property numbered 41b, in the parish of Hadlow, and that no application was made to him in respect thereof.

And inasmuch as George Wright, the elder, is owner of the properties numbered 85, 86, and 87, in the parish of Igtham, and that no application had been made to him in respect thereof.

And inasmuch as William Harrison, and George Lansdell, as trustees under the will of Thomas Leech, are owners of properties in the parish of Hadlow, numbered 26, 27, 28, 29, 30, and 31, and that no application had been made to them in respect thereof.

Ordered, That the Report be referred to the Select Committee on Standing Orders.

And the said Petitions were ordered to be referred to the Committee on the Bill; and the Petitioners heard, by themselves, their counsel or agents, upon their Petitions, if they should think fit, and if not, by one of their number, in favour of the Bill, against the said Petitions.

Mr. Strutt reported from the Select Committee on Petitions for Private Bills, with a Petition complaining of non-compliance with the Standing Orders, in the case of the Petition for the London and Coleraine Railway Bill, was referred; that the Standing Orders had not been complied with, inasmuch as the Parties subscribing did not bind themselves, their heirs, executors and administrators for the payment of the money subscribed, as respects the present Bill, the Contract bearing date the 2nd instant, and all the Signatures bearing date also in the present Session of Parliament, but the Contract applying to an Act of Parliament to be applied for in the next Session of Parliament.

Ordered, That the Report be referred to the Select Committee on Standing Orders.

Mr. Strutt reported from the Select Committee on Petitions for Private Bills, to whom a Petition complaining of non-compliance with the Standing Orders, in the case of the Petition for the Tottenham and Farringdon-street Extension Railway Bill, was referred; that the Standing Orders had not been complied with, inasmuch as James Baker is the occupier of the property numbered 41b, in the parish of Hadlow, and that no application was made to him in respect thereof.

And inasmuch as James Ealles is the occupier of the property numbered 41a, in the parish of Hadlow, and that no application was made to him in respect thereof.

Ordered, That the Report be referred to the Select Committee on Standing Orders.
And inasmuch as a small angle of a yard in the front of three houses, at the junction of Rotherfield Saint and Sherborne Saint, is not numbered on the Plan deposited in the Private Bill Office, or referred to in the Book of Reference, though just cut by limits of deviation.

And inasmuch as the roads called Rotherfield Saint and Sherborne Saint, are described as public highways, and in the occupation of the surveyors of highways, whereas it appears that they have not been transferred to the surveyors of highways.

And inasmuch as the centre line of the Railway as marked between New North Road, numbered 115, and Downham Road, numbered 147, in the Plan deposited in the Private Bill Office (being a distance of about 173 chains) is marked 10 feet westward of the centre line between the roads, as shown on the Plans deposited with the Clerk of the Peace, so that in some cases houses and property between the said roads appear as cut by the line as on Plan, which do not appear so as cut in the other, all such houses and property being within the limits of deviation in both Plans.

Ordered, That the Report be referred to the Select Committee on Standing Orders.

Mr. Strutt reported from the Select Committee on Petitions for Private Bills, to whom several Petitions complaining of non-compliance with the Standing Orders, in the case of the Petition for the Direct Northern Railway (No. 2.) "And whereas it is enacted by the said Act, That any single woman who may be with child, may apply to a Justice of the Peace, as the summons to be served upon the man alleged by her to be the father of such child, and that such Justice shall thereupon issue his summons to such man to appear at a petty session as therein also set forth; and power is given to such woman, after the birth of the child, to apply to the Justice at such petty session for an order upon the person so alleged by her to be the father of such child; but doubts are entertained as to the time which shall be fixed by such Justice for the appearance of the said man so summoned at petty session, and it is desirable to remove the same; Be it therefore Enacted, That the said Justice to whom any application shall be made by such woman being pregnant, shall summon the man to appear at some petty session at which he usually acts, to be held on a day after the time when the said mother shall have been delivered of the child to be born; provided that if on such day the woman shall not have been delivered, or the Justices shall be satisfied that she has been delivered at so short a period before such day that she cannot appear at the said session, it shall be lawful for the Justices thereat to adjourn the hearing of the said case until some other day, and so from time to time until the child shall have been born, and the woman shall be able to attend at the said session; and it shall be lawful for the Justices at their petty session to make an order in respect of any such application so made by such woman so pregnant to a Justice as aforesaid, if she apply at such petty session within the space of Two calendar months from the birth of the child, although more than Forty days shall have elapsed from the time when the summons was served upon the alleged father, or was left at his last place of abode."

And the House being informed that the Parties

Ordered, That the said Order be discharged.

Ordered, That the Petition be withdrawn.

Mr. Strutt reported from the Select Committee
on Petitions for Private Bills, to whom a Petition
complaining of non-compliance with the Standing
Orders, in the case of the Petition for the D i a s and
Colchester Railway Bill, was referred; That the Standing Orders had not been complied with,
inasmuch as the Plans relating to the said intended
Railway, which have been deposited at the offices
of the Clerks of the Peace for the counties of Essex,
Suffolk and Norfolk, and in the Private Bill Office,
are not correct in the several instances hereinafter referred to.

And inasmuch as it appears by the Bill sought
to be introduced, it is the intention of the Promoters
to apply for power to make lateral deviations from the
line of the work laid down on the Plan deposited
with the Clerk of the Peace for Essex, but the limits of
such deviation are not defined upon such Plans,
inasmuch as for a distance of half a mile at and near
that part of the proposed Railway, in the parish of
Stowmarket and hamlet of Stonewall, which ex-
tends from the River Gipping to the road leading
from Stonewall to Old Newton, No. 38, in the
Essex Plan, no limits of deviation are defined on one
side of the line of the said Railway.

And inasmuch as the Plans do not describe the line or situation of the whole of the work, and the
lands in or through which it is so intended to be main-
tained, varied, extended or enlarged, inasmuch as in
the parish of Langham, a fence in the lower part of
field No. 10, in the said parish, and which separates
the said field No. 10, from the adjoining property,
in the occupation of William Jemmett Maude, is
wholly omitted from the said Plans.

And inasmuch as the three fields, Nos. 19, 20
and 22, in the parish of Thorndon, are altogether
delimited upon the Plans, so as to be incapable of identificaiton.

And inasmuch as the Plans deposited with the several Clerks of the Peace are further incorrect, as certain property numbered 5 to 33, on the said Plans, is therein stated to be in the parish of Great Fin-
borough, whereas the same is situate in the parish of
Combes.

And inasmuch as the Books of Reference depos-
ited with the said Plans with the Clerk of the Peace
for the counties of Essex, Norfolk, Suffolk and Private Bill Office, do not contain the true names of the
owners, lessees and occupiers of lands des-
cribed in the said Plans within the limits of devi-
ation laid down thereon, in the following instances; viz.

And no Notice of application was served on the
above parties in respect of these properties.

And inasmuch as certain properties are not num-
bered on the said Plans, nor referred to in the said
Books of Reference, nor are the names of the owners
and occupiers contained or stated in the said Books
of Reference in respect thereto, nor has any Notice
of application been served upon the said owners and
occupiers in respect of the said property, in the fol-
lowing instances: A certain building or malt-house
in the hamlet of Brockford and Witheringwell, ad-
joining No. 13, on the said Plans deposited with the
said several Clerks of the Peace, and in the Private
Bill Office, and within the limits of lateral
development shown thereon, of which John Edwards
is the owner, and Spencer Girzing is the occupier;
a dwelling-house and water-mill in the parish of
Kersey, upon or near to the line of Railway, and
contiguous to No. 5, of which Benjamin Mason,
senior, is the owner, and Benjamin Mason, juniper,
is the occupier; a plantation and pond in the parish of
Broomes, abutting on the I p a w i c h and nor r
with turnpike-road, and the fields Nos. 11 and 17, in the
said parish, of which Lawrence Cook is owner and
occupier; a field adjoining No. 10, in the parish of
Langham, on the Plan deposited with the Clerk of
the Peace for the county of Essex only, of which
Lord Astbury is the owner, and William Jemmett
Maude the occupier: a pasture field and brook in the
parish of E is e , adjoining the field in the said
parish, No. 42, in the Plans deposited with the
Clerks of the Peace for the county of Essex, of which
the Corporation of E is e a r e the owners and occu-
piers; a pasture field and occupation-road in the
parish of Thorndon, lying between the fields in the said
parish numbered respectively 2 and 4, on the Plans
deposited with the Clerks of the Peace for the coun-
tries of Essex, Suffolk and Norfolk, and in the Pri-
vate Bill Office, of which Henry D'Estene Hens-
worth is owner, and Edgar Hammond is the occu-
pier; a salt warehouse and yard situate in the hamlet
of Stonewall, between the properties numbered 27
and 33, on the said Plans, in the hamlet of Stone-
upland, and of which Thomas Gross and Marianne,
his wife, Samuel Abbott and Elizabeth, his wife,
and William Cotton, are owners, and
Thomas...
Prentice, Robert Squirrel and Hammond Keenball are occupiers; a certain warehouse in the parish of Combes, numbered respectively 3, 5, 11, 16, 17, 20, 25, 35 and 37, on the said last-mentioned Plans for Essex, of which the representatives of the late Edward Huston, adjoining the footpath leading to Thorhame Hill, shown on the said Plans; a bridge in the parish of Wetheringsett, crossing the River Brett near to No. 68, on the said Plans; half of the River Brett, forming the parish boundary between the parishes of Shelley and Hitcham, situated between an inclosure, No. 36, on the said Plans; a bridge in the parish of Hardiston, which crosses the River Brett near to No. 19, on the said Plans; half of the River Brett, forming the parish boundary between the parishes of Raydon and Shelley, between two other parishes of land numbered 29 and 34, on all the said Plans; a piece of land in the hamlet of Stanton, between the road numbered 1, and inclosure, marked 5, on the said Plans; half the River Epping, in the same parish, adjoining No. 25, inclosure, on the Plans of the Clerk of the Peace for Essex only; a parcel of land in the same parish lying between two other parishes of land numbered 29 and 34, on all the said Plans; a piece of land in the hamlet of Stowupland, adjoining the footpath leading to Thorney Hill, shown on the said Plans; in the same hamlet a parcel of land lying above and adjoining to an inclosure numbered 33 on the said Plans; in the same hamlet a piece of land adjoining to and situated immediately above an inclosure numbered 30 on the said Plans; in the parish of Wetheringsett, a plantation lying between an inclosure numbered 6, and a road numbered 21, on the said Plans; in the same parish a piece of land adjoining No. 14, on the said Plans; in the parish of Mendlesham, a close of land adjoining No. 10, on the said Plans, and a piece of land lying between an inclosure numbered 85, and a road, No. 83, on the said Plans.

And inasmuch as the Notices of application served upon owners, lessees and occupiers of lands,
intended to be taken or interfered with, for the purposes of the said intended Railway, on or before the 31st December last, are further inaccurate, in the following instances; as such Notices refer to properties therein distinguished by certain numbers stated to be marked on the Plans deposited with the several Clerks of the Peace for the counties of Essex, Suffolk and Norfolk, whereas no such numbers are marked, nor do the same appear upon the said Plans, that is to say:—The notice served upon Harriet Tipple, as occupier of a certain arable field, and a pit thereof, adjoining the boundaries of the said fields in the said parish numbered 28 and 25 on the said Plans, and in the said Notice distinguished by the Number 27, whereas no such Number appears in the said Plans.

And inasmuch as a copy of so much of the said Plans as relates to the parish of Stoke, in the county of Essex, which have been deposited in respect of the said parish is not a correct copy of the said Plan deposited with the Clerk of the Peace for the county of Essex, inasmuch as the limits of deviation of the said intended Railway shown on the said last-mentioned Plan, purporting to be a copy of the Plans deposited in respect of lands adjoining No. 25, within the said parish of Stoke, and that other and different limits of deviation which do not appear in the said Plans deposited with the said Clerk of the Peace for the county of Essex, are shown on the said Plan purporting to be a copy thereof; and in the following parishes: Parish of Hitcham, in respect of property adjoining Nos. 44, 45, 49, 50 and 57, on the said Plan; parish of Wattisham, property adjoining No. 1; parish of Finborough, property adjoining Nos. 12, 20, 22, 27, 28, 29 and 30 on the said Plans; parish of Stoneland, property adjoining Nos. 32, 40 and 49 on the said Plans; parish of Thorndon, property adjoining No. 14 and 19 in the said Plans; parish of Sturton, property adjoining Nos. 22, 25 and 28 in the said Plans copied with the Clerks of the Peace for the counties of Norfolk and Suffolk only, a parish of Diss, property adjoining No. 6, on the Plans deposited with the Clerks of the Peace for Norfolk and Suffolk.

And inasmuch as the limits of deviation on the Essex Plan are not the same as on the Norfolk and Suffolk Plans; and that certain properties mentioned in the instances hereinafter, are included in the limits of deviation on the Essex Plan, but are not included in the limits of deviation on the Norfolk and Suffolk Plans.

And inasmuch as the said Plans and Books of Reference deposited at the office of the Clerk of the Peace for the county of Essex, which have been deposited in respect of the said parish, are not correctly entered on the Section between the 26th and 20th mile, so as to correspond with the miles and furlongs numbered on the Plan, and thereby producing errors in the apparent situation of various points, the distances between the same being calculated from the numbered miles and furlongs in the Section, amounting, in one case, to six chains; yet did not appear that the Section itself was incorrectly described, or that it did not correspond with the Plan.

And inasmuch as on the said Sections deposited with the Clerk of the Peace for the county of Essex, the cross Sections are incorrect in the following instances; the cross Section, No. 21, of the public carriage-road, situated at 26 miles and 7 chains from Colchester,—the present surface of the road intended to be altered is stated to be in 20, 21, 22, 23, 24, 25 and 26; whereas portions of this said road are 1 in 22, in 50 and 1 in 60, or nearly so; the cross Section, No. 22, of the public carriage-road situated at 28 miles 4 furlongs and 4 chains from Colchester, in the parish of Combs, the present level of the road is stated to be 1 in 38 and 1 in 54, or nearly so; the cross Section, No. 27, of the public-road, situated at 30 miles 7 furlongs and 5 chains from Colchester,—the present level or rate of inclination of the existing road is not marked on the cross Section; the cross Section, No. 27, of the public-road, situated at 32 miles and 3 chains from Colchester,—the present level or rate of inclination of the existing road is not marked on the cross Section; the cross Section, No. 28, of the public-road, situated at 41 miles 1 furlong and 6 chains from Colchester,—the present level or rate of inclination of the existing road is not marked on the cross Section; the cross Section, No. 29, of the public-road, situated at 41 miles 1 furlong and 6 chains from Colchester,—the level or rate of inclination of the present road is not stated in the said cross Section.

And inasmuch as the height of the Railway over and under the surface of every turnpike-road and public carriage-road is not marked on the Sections deposited at the office of the Clerk of the Peace for the county of Essex, in the following instances; that is to say, at the crossing of the road at or near the 27 miles 5 furlongs, as marked on the said Section.

And inasmuch as it is not stated in the said Section deposited with the Clerk of the Peace for the county of Essex, whether any and what alteration is intended to be made in the present level or rate of inclination of the carriage-road at or near 23°, 27 miles 5 furlongs, although it would appear from such Section, that the same must necessarily be altered.

And inasmuch as the Plans deposited with the Clerks of the Peace for the counties of Essex, Suffolk and Norfolk, and in the Private Bill Office, cross Sections on the scale required by the Standing Orders, are not added in respect of the alteration of various carriage-roads hereinafter mentioned; that is to say, in the following instances; as such Notices refer to properties therein distinguished by certain numbers stated to be marked on the Plans deposited at the office of the Clerk of the Peace for the county of Essex, as follows; that is to say, at or near the 31st December last.

And inasmuch as the Plans deposited with the Clerks of the Peace for the county of Essex do not correspond with the Plans deposited with the Clerks of the Peace for the counties of Suffolk and Norfolk, nor with the Parish Clerks with the respective parishes, nor with the parish of Combs, which is not numbered on the Plans deposited with the Clerks of the Peace for the county of Essex, but numbered 62 on the Plan deposited...
30th April.  A. 1845.
