gracious Speech from the Throne, to both Houses
of Parliament, of which Mr. Speaker said he had,
for greater accuracy, obtained a Copy, which he read
to the House, as followeth;

My Lords and Gentlemen,
It gives Me great satisfaction again to meet you
in Parliament, and to have the opportunity of re-
curring to your assistance and that of other
Foreign Powers; the strongest assurances of
their desire to cultivate the most friendly relations
with this country.

I rejoice that, in concert with the Emperor of
Russia, and through the success of Our joint medi-
ation, I have been enabled to adjust the differences
which had long prevailed between the Ottoman
Porte and the King of Persia, and had seriously
endangered the tranquility of the East.

For several years a desolating and sanguinary
Warfare has afflicted the States of the Rio de la
Plata. The Commerce of all nations has been in-
interrupted, and acts of barbarity have been com-
mitted unknown to the practice of a civilized people.
In conjunction with the King of the French, I am
devouring to effect the Pacification of these States.

The Convention concluded with France in the
course of the last year, for the more effectual Sup-
pression of the Slave TRADE, is about to be carried
into immediate execution by the active co-operation
of the two Powers on the Coast of Africa.

It is My desire that our present union, and the
good understanding which so happily exists between
us, may always be employed to promote the interests
of humanity, and to secure the peace of the World.

I regret that the conflicting claims of Great
Britain and the United States, in respect of the Terri-
ory on the north-western Coast of America, al-
though they have been made the subject of repeated
negotiation, still remain unsettled. You may be
assured that no effort consistent with national ho-
nor shall be wanting on My part to bring this
Question to an early and peaceful termination.

Gentlemen
Gentlemen of the House of Commons,

The Estimates for the year will be laid before you at an early period.

Although I am deeply sensible of the importance of economy in all branches of the Expenditure, yet I have been compelled, by a due regard to the exigencies of the Public Service, and to the state of our Naval and Military Establishments, to propose some increase in the Estimates which promote for their efficiency.

My Lords and Gentlemen,

I have observed with deep regret the very frequent instances in which the crime of deliberate Assassination has been of late committed in Ireland.

It will be your duty to consider whether any measures can be devised calculated to give increased Protection to Life and to bring to justice the perpetrators of so dreadful a crime.

I have to lament that in consequence of the failure of the potato crop in several parts of the United Kingdom, there will be a deficient supply of an article of food which forms the chief subsistence of great numbers of My people.

The disease by which the plant has been affected has prevailed to the greatest extent in Ireland.

I have adopted all such precautions as it was in My power to adopt for the purpose of alleviating the sufferings which may be caused by this calamity; and I shall confidently rely on your co-operation in devising such other means for effecting the same benevolent purpose as may require the sanction of the Legislature.

I have had great satisfaction in giving My assent to the measures which you have presented to Me from time to time, calculated to extend Commerce, and to stimulate domestic skill and industry, by the repeal of prohibitory and the relaxation of protective Duties.

The prosperous state of the Revenue, the increased demand for labour, and the general improvement which has taken place in the internal condition of the country, are strong testimonies in favour of the course you have pursued.

I recommend you to take into your early consideration whether the principles on which you have acted may not with advantage be yet more extensively applied; and whether it may not be in your power, after a careful review of the existing Duties upon many articles, the produce or manufacture of other countries, to make such further reductions and remissions as may tend to secure the continuance of the great benefits to which I have adverted, and, by enlarging our commercial intercourse, to strengthen the bonds of amity with Foreign Powers.

Any measures which you may adopt for effecting these great objects will, I am convinced, be accompanied by such precautions as shall prevent permanent loss to the Revenue, or injurious results to any of the great interests of the country.

I have full reliance on your just and dispassionate consideration of matters so deeply affecting the public welfare.

It is My earnest prayer that, with the blessing of Divine Providence on your counsels, you may be enabled to promote friendly feelings between different classes of My subjects, to provide additional security for the continuance of Peace, and to maintain contentment and happiness at home, by increasing the comforts and bettering the condition of the great body of My people.

Resolved, That an humble Address be presented to Her Majesty, to acknowledge Her Majesty's most gracious Speech from the Throne, and to thank Her Majesty for Her Majesty's condolence in announcing us that it gives Her Majesty great satisfaction again to meet us in Parliament, and to have the opportunity of recurring to our assistance and advice:

To assure Her Majesty that we learn with great satisfaction that Her Majesty continues to receive from Her Majesty's Allies, and from other Foreign Powers, the strongest assurances of their desire to cultivate the most friendly relations with this country:

That we rejoice to be informed, that in concert with the Emperor of Russia, and through the success of joint mediation, Her Majesty has been enabled to adjust the differences which had long prevailed between the Ottoman Porte and the King of Persia, and had seriously endangered the tranquillity of the East:

Humbly to thank Her Majesty for informing us that inasmuch as for several years a desolating and sanguinary Warfare has afflicted the States of Rio de la Plata, during which the Commerce of all nations has been interrupted, and acts of barbarity have been committed unknown to the practice of a civilized people, Her Majesty, in conjunction with the King of the French, is endeavouring to effect the Pacification of those States:

To thank Her Majesty for informing us that the Convention concluded with France in the course of the last year, for the more effectual Suppression of the Slave Trade, is about to be carried into immediate execution, by the active co-operation of the two Powers upon the Coast of Africa; and to assure Her Majesty that we cordially unite in Her Majesty's desire that the present union and the good understanding which so happily exists between the two countries may always be employed to promote the interests of humanity, and to secure the peace of the World:

That we participate in the regret expressed by Her Majesty, that the conflicting claims of Great Britain and the United States in respect to the Territory on the north-west Coast of America, although they have been made the subject of repeated negotiation, still remain unsettled; and that we gratefully acknowledge Her Majesty's assurance, that no effort, consistent with national honour, shall be wanting on the part of Her Majesty to bring this Question to an early and peaceful termination:

To thank Her Majesty for having directed the Estimates for the year to be laid before us at an early period, and for informing us that, although Her Majesty is deeply sensible of the importance of enforcing economy in all branches of the Expenditure, yet that Her Majesty has been compelled by a due regard to the exigencies of the Public Services, and to the state of our Naval and Military Establishments, to propose some increase in the Estimates which provide for their efficiency:

To express our acknowledgments to Her Majesty for informing us, that Her Majesty has had great satisfaction in giving Her Majesty's assent to the measures which have been presented to Her Majesty from time to time, calculated to extend Commerce and to stimulate domestic skill and industry by the repeal of prohibitory and the relaxation of protective Duties; and for Her Majesty's gracious intimation that the prosperous state of the Revenue, the increased demand for labour, and the general improvement which has taken place in the internal condition of the country, are strong testimonies in favour of the course we have pursued.

To assure Her Majesty, that in compliance with Her Majesty's recommendation, we will take into our early consideration whether the principles on which we have acted may not, with advantage, be yet more extensively applied, and whether it may not be in our power, after a careful review of the existing Duties upon many articles, the produce or manufacture of other countries, to make such further reductions and remissions as may tend to ensure the continuance of the great benefits to which Her Majesty has adverted, and by enlarging our commerce, to strengthen the bonds of amity with Foreign Powers; and that Her Majesty may rely on our desire that any measures which we may adopt for effecting these great objects may be accompanied by such precautions as shall prevent permanent loss to the Revenue or injurious results to any of the great interests of the country:

Humbly to thank Her Majesty for the gracious expression of Her full reliance on our just and dispassionate consideration of matters so deeply affecting the public welfare:

We humbly thank Your Majesty for having adopted all such precautions as it was in Your Majesty's power to adopt for the purpose of alleviating the sufferings which may be caused by this calamity; and we assure Your Majesty, that Your Majesty may confidently rely on the nation in devising such other means for effecting the same benevolent purpose as may require the sanction of the Legislature.

We beg to express our acknowledgments to Your Majesty for informing us, that Your Majesty has had great satisfaction in giving Your Majesty's assent to the measures which have been presented to Your Majesty from time to time, calculated to extend commerce and to stimulate domestic skill and industry by the repeal of prohibitory and the relaxation of protective Duties; and for Your Majesty's gracious intimation that the prosperous state of the Revenue, the increased demand for labour, and the general improvement which has taken place in the internal condition of the country, are strong testimonies in favour of the course we have pursued.

We assure Your Majesty, that, in compliance with Your Majesty's recommendation, we will take into our early consideration whether the principles on which we have acted may not, with advantage, be yet more extensively applied, and whether it may not be in our power, after a careful review of the existing Duties upon many articles, the produce or manufacture of which we do not at present employ, whether such further reductions and remissions as may tend to ensure the continuance of the great benefits to which Your Majesty has adverted, and, by en-
larging our commercial intercourse, to strengthen the bonds of amity with Foreign Powers; and Your Majesty may rely on our desire that any measures which we may adopt for effecting these great objects may be accompanied by such precautions as shall prevent permanent loss to the Revenue, or injuries resulting to any of the great interests of the country.

We humbly thank Your Majesty for the gracious expression of Your full reliance on our just and dispassionate consideration of matters so deeply affecting the public welfare.

We beg leave to express our cordial concurrence in Your Majesty’s earnest prayer that, with the blessing of Divine Providence on our counsels, we may be enabled to promote friendly feelings between different classes of Your Majesty’s subjects, to provide additional security for the continuance of Peace, and to maintain contentment and happiness at home by increasing the comforts and bettering the condition of the great body of the people.

A Petition of the Glasgow, Paisley, Kilmarnock, and Ayr Railway Company, was presented, and read; setting forth, That in the course of last year the Petitioners projected a Railway from Ayr to the Caeteronian Railway, at Lampsit, with side Branches, which they believed and still believe would be attended with very great public advantages; that the Petitioners were desirous of introducing into the House, in the present Session, a Bill for carrying into effect the portion of the said proposed Railway between West Glenbuch and Lampsit, and for such purpose took every means which care and diligence could suggest on their parts for correctly complying with the Standing Orders of the House, applicable to such Bill; that, after proceeding with the surveys of such Railway to a considerable extent, your Petitioners sought permission to complete the same through the land of a proprietor who had permitted similar surveys to be made through his land by a competing Company, and who was not inclined to the formation of a Railway through such lands, but who, in consequence of an arrangement with such competing Company, not only refused permission to the Petitioners to make such surveys, but, along with another proprietor, who was a director of the competing Company, resisted the same by interdicts obtained on ex-parte applications to the courts of law, which they enforced by constables in the pay of the competing Company; that the Petitioners were thus prevented from completing their surveys in time to deposit their Plans and Sections with the Sheriff Clerks, by the thirtieth of November, as required by the Standing Orders of the House; but believing that the House will not reject their proposed Bill on account of a delay in the deposit of such Plans not occasioned by any fault of their own, and knowing that the line adopted by the competing Company was unobjectionable to the said proprietors, so far as the same affected their lands, they determined on depositing similar Plans to those of their opponents in passing through such lands, and proceeding with their application to Parliament; that Plans and Sections of their whole projected line of Railway were accordingly lodged with the Sheriff Clerks, with the Parish Schoolmasters and in Parliament, by the thirty-first of December last; and early in the present Session the Petitioners presented a Petition to the House, praying leave to introduce their said intended Bill; that against such application, a Petition signed by the agent for the said competing Company, and supported only by the consent of the said landowners by whom the Petitioners had been prevented from completing their surveys, and by another proprietor, who was a shareholder in the competing Company, was presented to the House, complaining of non-compliance with the Standing Orders, in respect of the said Bill, and on reference of the said Petitioners to the Select Committee on Petitions of the House, the facts above stated were proved, and the said Standing Orders were of necessity found not to have been complied with, by reason of the non-deposit of the said Plans and Sections with the Sheriff Clerks, on or before the thirtieth November, but an addition was made to their Report, calling attention to the circumstances of the case, and to the subsequent deposits made by the Petitioners; that the Report from the said Select Committee having been referred to the Standing Orders Committee of the House, it was, by such last-mentioned Committee, resolved that the Standing Orders of the House ought not to be dispensed with, and that the Petitioners ought not to be allowed to proceed with their Bill; that such
such decision the Petitioners would have bowed with deference, and without further appeal to the House, if the question at issue were one merely relating to procedure in the compliance with the Standing Orders of the House, or to negligence or ignorance on their part in such compliance, but they humbly conceive that a principle is involved in the question deeply interesting to the community, and which justifies them in appealing from the decision to the House; that, as the Petitioners are informed and believe, the practice which has hitherto prevailed in Committees of the House, has been to view with indulgence all errors in matters of form required by the Standing Orders, which errors have not arisen from a want of due care and diligence in the endeavour to comply with the said Standing Orders; that, in the present instance, the Petitioners are not chargeable or charged with any such want of care or diligence, nor is the delay which occurred in the deposit of their Plans complained of by any others than those by whom such delay was occasioned, the Petition complaining of such delay being (as before stated) that of the agent of the competing Company, supported by the landowners, who themselves prevented the completion of such Plans, or are interested in the competing Company; that if therefore the House should determine that in this and other similar cases it may be competent for landowners to resist the endeavour to comply with the Standing Orders of the House on the part of promoters of Railway Bills, and afterwards to defeat such Bills by reason of such non-compliance, the publication of such decision will inevitably have the effect of either stopping all further surveys or of justifying the most exorbitant exactions of money for permission to make the same; that, moreover, it will (as in the present instance) enable any landowners peculiarly or otherwise interested in the formation of any particular Railway, to resist and effectually prevent the formation of any competing project, or the submission thereof to the consideration of the Legislature, although the scheme proposed may be the most beneficial to the public; and that, in the present instance, not only are the Petitioners prevented from submitting to the House a project, which they believe to be in all respects preferable to the one which is supported by the landowners by whom they have been opposed, but, by reason of such landowners acting in concert with a competing Company, their rights and interests will be evaded and to their competitors, by whose acts they have been prevented from complying with the Standing Orders of the House; and that, if drawn into precedent, will have been carried on by the resistance of landowners to the compliance with the Standing Orders, either purchased by rival Companies, or dictated by their own personal interests, and Parliament will then be prevented from forming a just opinion of the merits of those schemes intended for the permanent welfare of the public which may be submitted to their consideration; that, in full conviction of the evils that would result from such a system, as well as on account of the hardship to themselves occasioned by the decision which has been come to in reference to their Bill, notwithstanding every effort on their part strictly to fulfil the Standing Orders of the House, the Petitioners pray that the said Standing Orders may be dispensed with in reference to the said Bill, and that the Petitioners may be allowed to proceed therewith in the present Session.

PRAYERS.

Mr. Strutt reported from the Select Committee Manchester and Southhampton Railway Bill, that the Standing Orders, in the case of the Petition for the Manchester and Southhampton Railway Bill, were referred; That the Standing Orders had not been complied with, inasmuch as a portion of a certain field within the limits of the Plan, in the parish of South Cerney, in the county of Gloucester, adjoining No. 109, is not numbered in the Plan, nor is the same described in the Book of Reference; and that Charles Setton, the owner and occupier thereof, has not received any application in respect of the same; but it appeared that he was applied to in respect of the adjoining fields.

And inasmuch as Thomas Pollard, the elder, of the parish of South Cerney, is the lessee of a certain field No. 115 on the said Plan, situate within the limits of deviation marked on the said Plans, and has not received any application in writing in respect of the same.

And inasmuch as in the Plans deposited with the Clerk of the Peace for the county of Gloucester, the tunnel occurring between the 44th and 45th mile on the said Plan is not marked on the Plan throughout its whole length by a dotted line, but that the correct length of the tunnel is given in figures on the said Plan.

And inasmuch as a return of the radius of the following curves, not exceeding a mile length, is not noted in the said Plan in furlongs and chains, viz., the curve occurring at the 71st mile, and the curve occurring between the 77th and 78th miles.

And inasmuch as a certain property marked No. 1 on the Plan, and being down land, in the parish of Collington Ducis, proposed to be taken for the purposes of the Railway, are stated in the Book of Reference to the said Plan to be the property of the Marquis of Aylesbury and his Trustees, and George Pike the occupier thereof, whereas it appeared that Joseph Hague Everett is the owner, and Richard Harrison is the occupier of a considerable portion of the said property numbered 1, and the names of the said Joseph Hague Everett and Richard Harrison are omitted from the Books of Reference in respect of the said property, and no written application has been made to them in respect thereof; but it appears that the Promoters received wrong information in this case as to its being the property of the Marquis of Aylesbury from one of its agents of the Marquis, and that they furnished the party whose property it is with a Plan, on which was stated the information they had received, and the error was not corrected.

And inasmuch as adjoining to the property numbered 1 on the Plan, within the limits of deviation, is a certain arable field separated from the open down land by a bank and ditch, of which Joseph Hague Everett is the owner, and Richard Harrison is the occupier; but such arable field is not defined or described in the said Plan, nor does the Book of Reference thereto contain the names of the owner or reputed owner and occupier thereof, nor has any application been made to the said Joseph Hague Everett and Richard Harrison in respect thereof; but it appeared that the Promoters received wrong information, as in the last case.

And inasmuch as it appears by the Plan that the Railway is intended to be carried over two public highways, in the parish of Lageshall, one being the principal road, and the other a branch from it, by separate and distinct crossings, which roads are not separately numbered on the said Plan, but No. 25 is appended thereto, at the junction of the said two roads, and the Book of Reference to the Plan contains a description of only one public highway numbered 25 in the said parish, and no written application has been made to the Surveyors of the said roads in respect of the interference with both thereof, and the application to the said Surveyors does not specify

VOL. 101.
specify to which of the two roads so intended to be crossed by the Railway as aforesaid such application is intended to refer; but it appears that the Surveyors of both roads are the same, and that both roads are intended to be crossed by bridges of the same height and span.

And inasmuch as a certain thatched cart-house, built of mud, lying a small distance within the limits of deviation, defined on the Plan, and situated in the field No. 44, is not described in the Book of Reference, nor has any application in respect thereof been made to Mr. Joseph Hague Eccles, the owner, or Richard Harrison the occupier, but that the said owner and occupier were applied to in respect of the field in which the said cart-house is situate.

Mr. Greene reported from the Select Committee on Petitions for Private Bills; That in the case of the Petition for the Brighouse Sewering, Drainage and Lighting Bill, the Standing Orders had not been complied with, inasmuch as no notice of the intended application was posted on Luddenden Church, which Church, although within the same parish, is 12 miles distant from Brighouse, which alone is affected by the Bill.

Ordered, That the said Report be referred to the Select Committee on Standing Orders.

Mr. Greene reported from the Select Committee on Petitions for Private Bills, to whom a Petition complaining of non-compliance with the Standing Orders, in the case of the Petition for the Notting- ham, Mansfield and Midland Junction Railway Bill, was referred; That the Standing Orders had not been complied with, inasmuch as no Petition, Plans, Sections or Books of Reference were deposited with the Clerk of the Peace for the county of Derby, on or before the 30th of November last; but that the said Plans, Sections and Books of Reference were deposited at two o'clock on the morning of the 1st of December; and inasmuch as no Sections were deposited with the Clerk of the Peace for the county of Nottingham on or before the 30th of November last, but that such Sections were deposited at half past two o'clock on the morning of the 1st December last; and inasmuch as the 9th mile, 7 furlongs and 4 chains, at the junction of two sheets of the Section, the level of the line of Railway is not correctly given on one of the sheets, there being an error of a few feet; and inasmuch as at the 15th mile, 1 furlong, 6 chains, the level of the Railway is figured at 13 feet on one sheet, as at the 13th mile, 1 furlong, 6 chains, the level of the line of Railway there being an error of a few feet; and inasmuch as there appears in the Book of Reference, that the Railway is not correctly given on one of the sheets, the level of the line of the Railway is figured at 13 feet on one sheet of the said Section, and 12 3/4 feet on the adjoining sheet.

Ordered, That the Report be referred to the Select Committee on Standing Orders.

Mr. Greene reported from the Select Committee on Petitions for Private Bills, to whom several Petitions complaining of non-compliance with the Standing Orders, in the case of the Petition for the Boston, Newark and Sheffield Railway Bill, were referred; That the Standing Orders had not been complied with, inasmuch as no Plans or Books of Reference were deposited with the Clerk of the Peace for the county of Lincoln, and terminating at the parish of Heckington, Great Hale, Little Hale, Bicker, Donington, Quadrant, the District of Quadrant Hundred, Goole, Doncaster, Scunthorpe, Pinchbeck and Spalding, in the county of Lincoln, and terminating at or near the gas works in Spalding aforesaid; but it appears that no Sections were deposited with the Clerk of the Peace, nor in the Private Bill Office in respect of the said Branch, no deposits made with the Parish Clerks, and no applications made to landowners, lessees or occupiers in respect of the said Branch, nor in the Petition for the Glasgow and Belfast Union Railway Bill, were referred; That the Standing Orders had not been inasmuch as the Plans of the same deposed with the Clerks of the Peace, and in the Private Bill Office, are admitted by the promoters to be inaccurate. And inasmuch as no Plan was deposited with the Clerk of the Peace for the county of Derby on the 30th November last, but that such Plan was deposed with such Clerk of the Peace before office hours, on the 1st December last; And inasmuch as no Sections were deposited with any of the Clerks of the Peace on the 30th of November last, but that such Sections were deposited before office hours on the 1st December last; that under these circumstances numerous allegations having been made in the Petitions complaining of non-compliance with the Standing Orders of discrepancies between the two deposits, and the Petitioners complaining that they have been misled in consequence of the notice of a second deposit, the Committee have declined to receive any evidence as to the accuracy of either set of Sections, neither of which had been deposited within the time prescribed by the Standing Orders.

And inasmuch as Joseph Yarnell is the occupier of a certain field marked No. 57, in the parish of Handsworth, and the name of the said Joseph Yarnell does not appear in the Book of Reference, nor has any application been made to him in respect thereof, but it appeared that Matthew Habbershaw, whose name appears in the Book of Reference as the occupier of the said field, was the tenant thereof from year to year, and paid the rates, and that the said Joseph Yarnell was sub-tenant under him.

And inasmuch as there appears in the Book of Reference, in the parish of Farndon, No. 30, as a plantation, pasture, field or land, and half the bed of the River Devon, dividing the said parish of Horton from the parish of Farndon, but no No. 30 referring to it appears in the Plans lodged in the Private Bill Office.

And inasmuch as the Subscription Contract does not contain the correct description of every subscriber to the same, as the names of Joseph Bottani and Samuel Baggerley, being therein described as "Squires of Hungerton Hall," whereas it appeared that Joseph Bottani was a domestic servant of Gregory Gregory, Esquire, of Hungerton Hall, and it also appeared that no other person in the parish of Hungerton was entitled to the description of Esquire, except the said Gregory Gregory.

And inasmuch as Harriet Whiccopte and Charlotte Gwinnett, two of the subscribers to the deed, do not duly bind themselves, their heirs, executors and administrators, they being married women; but it appeared that the deed was signed by the husbands of the said Harriet Whiccopte and Charlotte Gwinnett, as well as by themselves, though the names of their husbands do not appear in the List of Subscribers; but it also appeared that the amount of subscriptions to the said deed was sufficient without the subscription of said Joseph Bottani, Samuel Bottani and Harriet Whiccopte and Charlotte Gwinnett.

Ordered, That the Report be referred to the Select Committee on the Standing Orders.

Mr. Greene reported from the Select Committee on Petitions for Private Bills, to whom several Petitions complaining of non-compliance with the Standing Orders, in the case of the Petition for the Glasgow and Belfast Union Railway Bill, were referred; That the Standing Orders had not been
been complied with, inasmuch as in the Copy of the Plan deposited with the Sheriff Clerk of the county of Ayr, No. 31, in the Book of Reference, in the parish of Newton-upon-Ayr, described as a belt of plantation, is not marked upon the said Plan.

And inasmuch as in the Division E.F. of the Branch E.F.G. at the 6th mile, the Railway crosses a public carriage-road, but neither the height nor span of arch over the same is stated on the Section.

And inasmuch as in the parish of Maybole, is crossed by the Railway, but neither the height nor span of arch over the same is stated on the Section.

And inasmuch as in the parish of Girvan, at the 22d mile 6 furlongs, the Railway crosses a statute-law road, but it is not stated whether such road is to be altered or not, no cross Section thereof is given, nor the height or span of arch over the same marked thereon.

And inasmuch as between the points 11th mile 7th furlong and 12th mile 3d furlong, there is a gradient on the Section, the rate of inclination of which is not stated; and also between the 39th mile 2d furlong to the 38th mile 7½ furlongs there is a gradient on the Section, the rate of inclination of which is not stated on the copy of the Plan deposited as aforesaid.

And inasmuch as the radius of a curve of 4 furlongs between the points of 13th mile 4½ furlongs, and 14th mile 7½ furlongs, is not noted, and another radius of a curve of 4 furlongs between 14th mile 7¼ furlongs and 13th mile 7½ furlongs, is not noted, and another radius of a curve of 6 furlongs, between 14th mile 7½ furlongs and 12th mile 6 furlongs, is not noted upon the aforesaid Plan.

And inasmuch as the Section does not correspond with the Plan in the several instances following:

But it appeared to the Committee that the same was mainly a continuous error extending through the several indicated points.

And inasmuch as the north-end of a tunnel is shown at 43 chains south of 37th mile 13 furlongs, and on the Section at the point 37th mile 2d furlong.

And inasmuch as the 17th mile upon the Plan is marked with 7 furlongs only, and the 18th mile with 9 furlongs; and also the 48th mile upon the Plan is marked with 9 furlongs, and the 49th mile with 7 furlongs only.

And inasmuch as there is no figure put against the 7th mile on the Branch E. F. G. on the aforesaid Plan.

Ordered, That the Report be referred to the Select Committee on Standing Orders.

Mr. Greene reported from the Select Committee on Petitions for Private Bills, to whom a Petition, complaining of non-compliance with the Standing Orders, in the case of the Petition for the Glasgow, Barrhead and Neilston Direct Railway (Branches to Thornliebank, Househill and Hurlet) Bill, was referred; That the Standing Orders had been complied with.

Ordered, That leave be given to bring in a Bill to enable the Glasgow, Barrhead and Neilston Direct Railway Company to make Branch Railways to Thornliebank, Househill and Hurlet, and to amend the Act relating to such Railway: And that Mr. Hope Johnstone, Mr. Dewonton and Mr. Patrick Stewart do prepare, and bring it in.

Mr. Greene reported from the Select Committee on Petitions for Private Bills, to whom a Petition, complaining of non-compliance with the Standing Orders, in the case of the Petition for the Glasgow Harbour Grand Junction Railway Terminus Bill, was referred; that the Standing Orders had not been complied with, inasmuch as in the Contract there was a power to confine the application of the money subscribed has not been deposited with the Court of Exchequer in Scotland; but it appeared that in the Contract there was a power to confine the application of the money subscribed to the making a part only of the works mentioned therein, and that a tenth part of the amount of the estimate for completing that part of the work intended to be made has been deposited.

Ordered, That the Report be referred to the Select Committee on Standing Orders.

Mr. Greene reported from the Select Committee on Petitions for Private Bills, to whom a Petition, complaining of non-compliance with the Standing Orders, in the case of the Petition for the Glasgow Harbour Grand Junction Railway Terminus Bill, was referred; that the Standing Orders had not been complied with, inasmuch as no Notice has been given of a line of Railway connecting the two forked terminations at the Harbour of Glasgow, for the making of which line of Railway powers are sought in the Petition and Bill annexed thereto.

Ordered, That the Report be referred to the Select Committee on Standing Orders.

Mr. Greene reported from the Select Committee on Petitions for Private Bills, to whom a Petition, complaining of non-compliance with the Standing Orders, in the case of the Petition for the Glasgow, Barrhead and Neilston Direct Railway (Branches to Paisley) Bill, was referred; that the Standing Orders had not been complied with, inasmuch as the height of the Railway over or under the surface of the public street or carriage-road, is
Mr. Greene reported from the Select Committee on Petitions for Private Bills, to whom several Petitions complaining of non-compliance with the Standing Orders, in the case of the Petition for the London, Salisbury and Yeovil Junction Railway (Basingstoke to Yeovil) Bill, were referred; that the Standing Orders had not been complied with, insomuch as the name of the parish of Clifton Maybank, through which the alternative Branch commencing in the parish of Yetminster, is intended to pass, is not contained in the notice with respect to such Branch.

And inasmuch as on the Section deposited at the Office of the Clerk of the Peace for the county of Dorset, the datum line is not referred to some fixed point stated in writing thereon, near either of the termini, the only fixed point stated in writing on such Section being the flagstone within the porch of Fisherton Turnpike-gate House, which is 30 miles from either of the termini.

And inasmuch as the Sections deposited with the Clerks of the Peace for the counties of Dorset and Wiltshire are duplicates of that deposited in the Private Bill Office, inasmuch as on the Section deposited with the said Clerks of the Peace, at the point at which the Yeovil Branch is stated to diverge out of the main line, the miles are incorrectly marked for several miles on each side thereof.

And inasmuch as with respect to a certain portion of the line as laid down on the Plan, viz.: from field No. 2, in the parish of Sutton Bingham, to the termination of such line, no Section has been deposited, nor have the lands through which such line is drawn been numbered or referred to in the Books of Reference, nor has application been made, in accordance with the Standing Orders, to the several owners, lessees and occupiers of such lands; but it was stated by the promoters that it was not their intention to make that portion of the line so described on the Plan.

And inasmuch as the Book of Reference deposited with the Parish Clerk of East Coker did not contain the names of the owners, lessees and occupiers of the lands in such parish through which the work is to be made.

And inasmuch as on one of the alternative lines a field in the parish of Sutton Bingham, adjoining No. 2, in the said parish, and within the limits of description, is not numbered on the Plan or referred to in the Book of Reference, nor has application been made to the owner or occupier thereof.

And inasmuch as on one sheet of the Section deposited with the Clerk of the Peace for the county of Somerset, the distances on the datum line are not marked in miles and furlongs to correspond with those on the Plan, inasmuch as on such sheet of the Section, the mileage is numbered afresh, viz.: 1, 2, 3, &c., whereas on the Plan the numbers run continuously on as 33, 34, 35, &c.

And inasmuch as on the Section deposited with the Clerk of the Peace for the county of Dorset, the distances on the datum line of the alternative line are not marked in miles and furlongs to correspond with those on the Plan.

And inasmuch as on the Lists deposited in the Private Bill Office, the name of Thomas King is erroneously entered as having made no reply, whereas, in fact, he dissented.

And inasmuch as a field between Nos. 19 and 20 and another field adjoining No. 18, in the parish of Kilbarchan, is not shown on the Section, nor is the height of the Railway over or under the present level or rate of inclination of such road stated, nor is any cross Section added with reference to the same; and inasmuch as in the same parish the extreme height under the surface of the ground is not marked on the Section for a cutting of 8 feet on the Branch of the Railway, marked D. E.; and inasmuch as the datum horizontal line is not referred to a fixed point stated in writing on the Section of the line of Railway; and inasmuch as the memorandum of the radius of a curve on the Branch D. E., not exceeding a mile in length, is not noted on the Plan in furlongs and chains.

Ordered, That the Report be referred to the Select Committee on Standing Orders.

Martiis, 10° die Martii;

Anno 9° Victoriae Reginae, 1846.

PRAYERS.

Ordered, That the Select Committee on Standing Orders have leave to sit this day, till five of the clock, during the sitting of the House.

The House being informed, that the Sheriff of the North Kent City of London attended at the door, they were called in, and at the bar presented.—A Petition of the Lord Mayor, Aldermen and Commons of the City of London, in Common Council assembled:—And then they withdrew.

And the said Petition, praying that they may be heard, by themselves, their counsel or agents, against certain parts of the North Kent Railway (City Extension) Bill, was read.

Ordered, That the said Petition be referred to the Committee on the Bill; and the Petitioners heard, by themselves, their counsel or agents, upon their
Petition, if they think fit; and counsel heard, in favour of the Bill, against the said Petition.

Petitions of the London and Croydon Railway Company;—James Connell France, of Maidstone, in the county of Kent, Surgeon and Apothecary;—and, George Tweedy, of Bromley House, in the county of Kent, Surgeon and Apothecary.—Mr. Sidney Hall, of Cathays, in the borough of Cardiff, in the honourable East India Company's Service, and Violet, his Wife; praying that they may be heard, by themselves, their counsel or agents, against certain parts of the South Eastern Railway (from the Greenwich Railway to Chart, near Ashford, with Branches to Tunbridge and Riverhead) Bill.

And the said Petitions were ordered to be referred to the Committee on the Bill; and counsel heard, by themselves, their counsel or agents, upon their Petitions, if they think fit; and counsel heard, in favour of the Bill, against the said Petitions.

Notice being taken that the Sunderland Docks Bill had been reported yesterday, without Notice having been given in the Private Bill Office; Ordered, That the Proceedings upon the Report of the said Bill be null and void.

Mr. Greene reported from the Committee on the Sheffield and Lincolnshire Junction Railway Bill; That Mr. Venables, the Parliamentary Agent for the said Bill, appeared before the Committee, and stated that the Bill now presented to the Committee is the same as the Bill of the last Session at the time it was ordered to be ingrossed, (that being the last stage of its Proceeding in this House in the Session of 1864,) except as follows: That in the third paragraph of the Preamble, the preamble states, that the three general Consolidation Acts therein recited were "passed during the last Session of Parliament," whereas in the Bill ordered to be ingrossed, the words were stated to have been passed during "the present Session of Parliament;" that in Clause 3, the names of the following Parties are omitted, they being no longer subscribers to the Undertaking, Thomas Aldham, William Atherton, John Bowes Brown, Charles Leach Woodward, William Gearing Clarkson, George Champney, John Dalton, Samuel Francis Flower, Washington, Thomas Ogilvy and George Galetry Holland; and in Clauses 1, 9, after York, the words "to the city of Lincoln," and in Clause 16, the words "to Lincoln" are omitted in the first line after the word "Railway," such words appearing to the Committee to have been left therein by error, inasmuch as the Committee on the Bill in the last Session had negatived so much of the Preamble as related to the Branch to Lincoln; and in all other respects the Bill is the same as the Bill of the last Session; it appeared to the Committee that the above Amendments in the Preamble were necessary to make it in fact correspond with the meaning and intent of the Preamble attached to the Bill of the last Session; the omission of certain names was necessary because evidence was given that the Parties therein named had ceased to be shareholders, and their names could not, consistently with the forms of this House, have been struck out in the Lords; the last Amendments relative to the striking out the words "to the city of Lincoln," and "to Lincoln," were, in the judgment of the Committee, merely verbal errors in the ingrossed Bill of last year; and the Amendments were read, and agreed to.

Ordered, That the Bill, with the Amendments, be ingrossed.

Mr. Greene reported from the Committee on the Welsh Midland Railway Bill, that the Committee had called before them Edward Hayes, Clerk to Messrs. Dyson and Co., Agents Vol. 101.

for the Bill, who stated that he had carefully examined the Bill now before the Committee, and compared it with the Parchment Roll of the Bill of the last Session sent up by this House to the House of Lords, and such House Bill is word for word the same as that Roll; he also stated that he had examined certain Clauses now presented to the Committee, and finds them the same as the Clauses inserted in the Committee of the House of Lords during the last Session. The Committee examined the Clauses, and agreed to them, and amended the Bill by inserting them in it. The Committee felt themselves satisfied in this case, because by the Resolutions of this House and of the House of Lords mutual facilities were agreed to be given by each House to facilitate the passing of Bills which had proceeded through certain stages in each House. By the Resolution of the Lords it was determined that the Bills which should be before that House in the last Session, but should not pass for want of time, should be marked by the Chairman of Committees in that House, and should be proceeded with in the present Session, if such Bill should be brought from the Commons in every respect the same Bill as the Bill which had been marked by the Officers of the House. A Petition from Mrs. Maria Drummond had been referred to the Committee, and counsel ordered; and the agent tendered himself to be heard thereupon; but inasmuch as it did not relate exclusively to the general merits of the Bill and certain Clauses therein, the Committee did not feel that they had the power, under Standing Order 88*, to hear him; and the Amendments were read; and agreed to.

Ordered, That the Bill, with the Amendments, be ingrossed.

And inasmuch as a tunnel of 2,288 yards at the 94th mile is not marked, and the difference between the two points marked, and the difference between the two points near either of the termini thereof, the point stated as 18 feet 6 inches, should be 22 feet; cutting at 14 miles is omitted.

And inasmuch as a road in the parish of Swansea is crossed by the line of Railway at 5 miles 3,530 links, but that such road is not described in the Book of Reference, nor are the surveyors of such road entered as the owners and occupiers thereof.

Mr. Greene reported from the Select Committee Milland, on Petitions for Private Bills, to whom several Petitions complaining of non-compliance with the Standing Orders, in the case of the Petition for the Glasgow, Bury, and Bradford Railway Bill, were referred; That the Standing Orders had not been complied with, inasmuch as much as it is sought by the Bill to obtain powers to sell or lease to the Manchester and Leeds and Midland Railway Companies, with powers to the said Companies to purchase or take, whereas in the Notice the intention is stated generally to sell or lease to any Railway Company now or hereafter existing, and to enable such last-mentioned Companies to purchase or rent the same.

Ordered, That the Report be referred to the Select Committee on Standing Orders.

Mr. Greene reported from the Select Committee Dublin, Belfast and Coleraine Junction Railway, on Petitions for Private Bills; That in the case of the Petition for the Dublin, Belfast and Coleraine Junction Railway Bill, the Standing Orders had not been complied with, inasmuch as the rate of inclination of the gradient is not marked upon the Ballymoney Branch, and a change of the gradient upon the Armagh Branch between the 58th and 59th miles is not marked.

A Petition of Members of the Committee of the General Shipowners' Society of London, was presented, and read; setting forth, that, on the 12th of February, a Petition was presented to the House from the Committee of the General Shipowners' Society, representing the strong objections entertained by the Petitioners to the proposed alteration of the Timber Duties recently submitted to Parliament by the First Minister of the Crown, expressing their belief that the anxiety and alarm with which they regarded the introduction of duties to 25s. would eventually cause the transfer of a considerable portion of the importation of timber from the colonies to the timber-growing countries of the North of Europe; and that the Petitioners at that time presented, copies of which are now before the Petitioners, was one from the Shipowners' Association of the great port of Liverpool, offering to prove, that a reduction of the duties on foreign timber below 30s. per load would be absolutely inconsistent with the existence of the shipping interest then engaged in the colonial wood trade.

One from the Shipowners at Hull to a similar effect.

Another from the Shipowners at Port Glasgow, stating that any reduction of the then existing protection of 4s. would have the tendency to transfer the demand for timber to foreign countries, and prove most injurious to British shipping generally.

Another from the Shipowners at South Shields, stating that the Petitioners greatly fear that the reduction of the duties will, to a considerable extent, reduce the imports of timber from the British North American Provinces, from whence it is entirely brought in British ships, and increase the trade from the North of Europe, which is chiefly carried on in foreign vessels, injuring the Petitioners as Shipowners to the extent of the reduction, which they are already convinced would be a boon to the foreign timber merchant and shipowner, while it would not in the slightest degree benefit the British consumer.

Another from the Shipowners at Cork,—That they firmly believe that a protection of 30s. per load will be scarcely sufficient to preserve the North American trade.

Another from the Shipowners at New Ross,—That they approve of the reduction of duty to 90s. per load, but that any further reduction of protection must be attended with very injurious results.

Another from the Shipowners at Milford,—That they believe that a protection of 30s. per load, in a great measure, lead to the substitution of foreign for colonial timber, and therefore prove very detrimental to British shipping; that it will augment the proportion of foreign timber; and that the foreign shippers in Dunston will enhance their prices, and thereby pocket a large share of the reduction;

reduction; and, that, on a fair average, the freight from Canada is about 20s. per load more than that from the Baltic ports.

Another from the Shipowners at Glasgow, declaring that any change which would, to any considerable degree, transfer the demand from the Baltic Colonies, must prove exceedingly injurious to both the shipping interests of this Empire and all others connected with the trade to our colonies, without any benefit to the consumer.

Another from the Shipowners at Greenock, to the like effect.

Another from the Shipowners at Bristol, expressing their opinion that the proposed reduction of protection to 25s. per load would inflict a very serious injury on British ships.

Another from the Shipowners at Exeter, That they viewed the proposed alteration with the deepest anxiety and alarm, convinced that it would not fail to entail on the shipping interests of the country the most alarming and extensive injury.

Petitions from the Shipowners at each of the several Ports of Newcastle-on-Tyne, Sunderland, Tynemouth, Hartlepool, and Leith.-That without expressing any very decided opinion as to the propriety of reducing the protection of 45s. per load, hitherto afforded to the colonies, they were satisfied that a great degree, transfer the demand from the colonies to foreign countries, must be injurious to the shipping interests of the Empire, without producing much, if any, benefit to the consumer.

Another from the Shipowners at Great Yarmouth, -That the alteration would be highly prejudicial to British shipping, which could not exist in the colonial wood trade with a less protection than 30s. per load.

Another from the Shipowners at Lancaster, That the alterations evidently tended to the advantage of Baltic timber imported in foreign shipping, to the injury of the British Colonies and British shipping.

Another from the Shipowners at Irvine, That they were apprehensive that any diminution of the protection hitherto afforded would have the effect of transferring, to a great extent, the trade from the colonies to foreign countries, which they submit would be ruinous to the shipping and other interests of the kingdom.

Another from the Shipowners at Maryport, -That they are convinced that the proposed reduction will have a ruinous effect upon the class of shipping trading to the colonies; and that the carrying of Baltic timber will be exclusively confined to vessels belonging to those countries, in consequence of their being able to trade at a less rate of freight, from their first cost, provisioning, and navi gating being fully one-third less than that of British vessels.

Other Petitions from the Shipowners at each of the several Ports of Alton, Padstone, Weymouth, Pembroke, Ulverstone, Stockton, and Cardigan, to a similar effect; in short, it is perfectly indisputable that the opinion that any reduction of the duty on foreign timber below 25s. per load, would have a disastrous effect on British navigation, was at that time all but universal among British Shipowners, while many contemplated the most injurious consequences from its reduction below 30s., and some were apprehensive of danger unless it were continued at 45s. per load; that, officially acquainted with the facts, and fully sensible that, as they have explained in their former Petition, the largely increased importation of both colonial and foreign timber, since 1842, has been owing to the unprecedented extension of demand from the formation of Railways and other causes totally unconnected with the reduction of duties, the Petitioners have not discovered in the interval any reason for change in the opinions then held and expressed by the Shipowners of the country at large; nor are they aware that any arguments have been advanced in refutation of the conclusions then arrived at; and believing consequently, that although the full development of the results of the Tariff of 1843, on the timber trade, are temporarily suspended by peculiar circumstances, its tendencies are indisputable, and the effects predicted from its adoption will ultimately take place,—it was impossible for them to avoid deprecating the aggravation of those effects which must obviously follow from the further reduction of duty from 25s. to 15s. per load, now proposed; nor could they have the slightest reason for supposing that the same concurrence of opinion which they had always hitherto found to exist on this subject, had in any important quarter ceased. It is not for the Petitioners to pretend to account for a change for which they have not observed that any reason has been assigned in any of the Petitions recently presented; to the Petitioners it seems inexplicable, and until it can be shown either that under a difference of duty of 15s. per load, Colonial Timber can be placed side by side in the British market, in successful competition with Baltic Timber, or that, under ordinary circumstances, timber can be imported from the Baltic by British Shipowners, in competition with the shipping of the Northern States of Europe, they feel it impossible, on their own part, to any great extent, to concede that a reduction of the duty to that amount must, as they have already stated, displace British ships from employment, and substitute foreign, to the deep and lasting injury of the interests of British navigation.

In conclusion, the Petitioners would take this opportunity of stating that, with slight exception, it is oak timber and timber not subject to duty that is principally used in ship building; that the quantity of foreign oak of all kinds paying duty does not amount to 5 per cent. on the whole quantity of foreign wood imported; that its quality is so inferior that it is not allowed to be used in the building of the 12 years' or best class of merchant ships, nor in the construction of ships in Her Majesty's dock yards, except a trifling quantity in parts supposed not to be subject to decay; and that Shipowners would have consequently the smallest possible interest in a reduction of the duty thereon, even if that reduction should cause a diminution of price, which the Petitioners consider highly improbable. They trust therefore that the House will not be induced to think that in resisting the proposed reduction they are blindly forgetful of their own interests or those of Shipowners at large; and praying that the House, observing that they have not presumed to interfere with the present wishes expressed by those now before Parliament as are unconnected with their own pursuits, but have confined their remonstrances to those portions of them by which the interests of navigation will be affected, will acquit them, in the explanation they have offered, of all undue assumption or intentional misrepresentation in the Petition they have already presented, and will give such weight to the prayer of that Petition, as on impartial consideration it may appear justly to deserve.

Ordered, That the said Petition do lie upon the Table; and be printed.
