Ordered, That the Select Committee appointed to inquire into the circumstances under which, and the parties by whom, the signatures were annexed to a Petition purporting to be a Petition of the under-signed Inhabitants of Cheltenham, for a repeal of the Corn Laws, have power to report their Observations and Opinion thereupon to the House, together with the Minutes of the Evidence taken before them.

Mr. Craven Berkeley reported from the said Select Committee, That they had considered the matter to them referred, and had come to a Resolution, which they had directed him to report to the House, together with their Observations and the Minutes of the Evidence taken before them; and the Resolution and Report of the Committee was read, as follows:—

"Resolved, That it is the Opinion of this Committee that an irregularity in regard to the Petition from Cheltenham, as transmitted from thence to Manchester, was of a nature which rendered it not capable of being presented to the House of Commons, according to the known forms of the House: That it was altered by agents of the Anti-Corn-Law League at Manchester, who were cognizant of the rules of the House; and in adapting this Petition to those rules, they acted irregularly, though with no fraudulent intention."

It appears to your Committee that the five first signatures appended to the Petition-sheet, as presented to the House, are not in the handwriting of the persons there named, but are transcribed from genuine signatures which were on another sheet; that this act of transcription, though irregular, is not fraudulent.

It further appears that twenty-four names, purporting to be the signatures of other subscribers to the Petition, were written by one hand, and the same person (an elector of Cheltenham), with the sanction, as he states, of the persons named.

In closing their Report, your Committee think this a fit occasion for expressing their regret that methods of promoting and of preparing Petitions should prevail, which have a tendency to bring into discredit that mode of giving expression to the sentiments of the subjects of the Realm.

that Mr. Wilson Patten, Mr. Talbot Clifton and Mr. Hornby do prepare, and bring it in.

Mr. Strat reported from the Select Committee on Petitions for Private Bills, to whom several Petitions complaining of non-compliance with the Standing Orders, in the case of the Petition for the Oxford, Witney, Charlton Kings, and Gloucester Railway, were referred: That the Standing Orders had not been complied with, inasmuch as no application in writing was made to Mr. Wray, as owner of a certain pleasure-ground numbered 13, in the parish of Leckhampton, on the Plan deposited in the Office of the Private Bill Office, and that a part of such pleasure-ground is within the limits of deviation.

And inasmuch as in the Book of Reference deposited with the Clerk of the Peace for the county of Oxford, the following numbers are omitted: viz. 8, 11, 12, 13, 19, 20, but they are inserted in the Book of Reference deposited with the Parish Clerk of Dowdeswell, whereas no 20 appears on the Plans, which is a turnpike-road, and within the limits of deviation, but the other numbers are not within the limits of deviation.

And inasmuch as the Reverend H. Pole is the occupier of the field numbered 23, in the parish of Dowdeswell, on the Plans deposited with the Clerk of the Peace for the county of Gloucester, with the Parish Clerk of Dowdeswell, whereas the name of Esther Rogers is inserted in the Book of Reference.

And inasmuch as Thomas Hardy is the occupier of the three fields numbered 21, 23 and 24 on the said Plans in the parish of Dowdeswell, whereas the name of Abraham Brooks is inserted in the Book of Reference as the occupier of 21 and 23, and the name of Esther Rogers as occupier of 24; but it was stated that the surveyor who made the Book of Reference erred in giving Walker as occupier, residing in an adjoining parish, and that his information was incorrect with regard to the owner and occupier of No. 23, but correct as to the occupier of 21 and 24, and the error has been subsequently introduced into the Book of Reference, as to the occupiers of 21 and 24.

And inasmuch as the name of Richard Bos, who is the occupier of the following property, is not inserted in the Book of Reference: a grass field or orchard numbered 30 on the said Plans; a grass field or orchard marked 34 on the said Plans; but the error appeared to have been that of the printer, who had overlooked the type, and that Richard Bos had been served with notices as occupier.

And inasmuch as Esther Rogers is stated in the Book of Reference to be the owner of the grass field numbered 3 on the said Plans, whereas Walker Lawrence is the owner, and the Reverend C. Cocke-well is stated to be the occupier, whereas Abraham Brooks is the occupier; but the error in this case also appeared to have arisen from the slipping of the type.

And inasmuch as in the written application made to the Petitioner Henry Pole, in respect of a certain grass field numbered 23, in the parish of Dowdeswell, as respects 21, 23 and 24 in the said Plans, and Books of Reference relating to the said parish, the said grass field is not mentioned or referred to in the schedule to such notice, although the said field will be intersected by the said Railway.

And inasmuch as in the written application made to Thomas Hardy, who is the occupier of the several grass fields in the said parish of Dowdeswell, numbered respectively 21, 23 and 24, in the said Plans, and Books of Reference relating to the said parish, the said three fields are not, nor are either of them, in any way referred to or mentioned, although they are intended to be taken for the purposes of the Railway.

And inasmuch as in the written application made to Abraham Brooks, who is the lessee of a grass field or orchard, in the said parish of Dowdeswell, numbered 25 on the said Plans and Books of Reference relating to the said parish, the said grass field is not in any way referred to, although it is intersected by the line of such Railway.

And inasmuch as no application in writing was made to John Pennell, in respect of his property, numbered on the Plan 2, 4, 5, 6, 7, in the parish of Westwell, in the county of Oxford; to Charles Massey, the Younger, in respect of his properties, numbered on the Plan 7 and 6, in the parish of Skilston, in respect of his occupancy of property, numbered on the Plan 1, 2, 3, 4 and 5, in the parish of Skilston; to Robert Wood, in respect of his occupancy of property, numbered on the Plan 6, 11 and 20 on the said Plans; but it appeared to the Committee that the above parties had been served with notice of application, but that the said notices referred to another line of Railway, but that the letters of acknowledgment enclosed in the same parcels were correct.

And inasmuch as the Plan deposited with the Parish Clerk of Stanton Harcourt is not a copy of the Plan deposited with the Clerk of the Peace for the county of Oxford as relates to the above parish of Stanton Harcourt, in the following instance: viz., on Plan deposited with the Clerk of the Peace for the county of Oxford, certain properties in the parish of Stanton Harcourt, belonging to Samuel Druce, are numbered 15, 16, 17, 18, whereas in the Plan deposited with the Parish Clerk of the said parish, the same property is numbered 1, 2, 3, 4, 5, 6.

And inasmuch as the depth of the cutting at the turnpike-road, numbered 6 in the parish of Shilston, is not stated on the notice served on Robert Wood, as Surveyor of the said road.

And inasmuch as the Book of Reference deposited with the Clerk of the Peace for the county of Oxford, is incorrect in the following instances: viz., the properties numbered on the Plan 1, 2, 4, 9, 10, 12, 15, 16, in the parish of Saint Aldates, and 19, in the parish of Compton Abdale, are not numbered in the Book of Reference; the properties numbered on the Plan respectively from 34 to 96 inclusive, in the parish of Charlton Kings, are stated in the Book of Reference to be in the parish of Cheltenham.

And inasmuch as the Plan deposited with the Clerk of the Peace for the county of Oxford, is incorrect in the following instances: viz., the properties mentioned in the Book of Reference numbered 3, 24, 25, 29, in the parish of Mouth Henley, in the county of Berks; the properties 49, 49b, 49c, 49d, in the parish of Witney, in the county of Oxford; 19, in the parish of Little Partridge, in the county of Gloucester, 14, in the said parish of Stanton Harcourt, are not numbered on the Plan; but it appeared that 24 and 24a are two cottages under one roof, as are 25 and 25a, and that the respective pairs of houses belonged to the owner; 49, 49b, 49c, 49d, are one large house, but in five tenements, belonging to the same owner.

And inasmuch as the properties numbered in the said Books of Reference from 15 to 26 are stated to be in the parish of Farmington, whereas no such parish is shown on the Plan.

And inasmuch as the Section deposited with the Clerk of the Peace for the county of Oxford, is incorrect in the following instance: viz., the cross Sections of the road at about 17 miles 6,450 links, as measured on the datum
And the Plan, in the hamlet of Westall Maunton and Sandford, belonging to Edward Skelton, which is not defined on the said Plan, though within the limits of deviation. And inasmuch as two houses at the back of 58 on the said Plan, in the hamlet of Westall Maunton and Sandford, belonging to Joseph Ellis, and within the limits of deviation, are not delineated on the said Plan. And inasmuch as no notice was served on C. Greenaway and J. Robinson, as the occupiers of the last-mentioned Houses. Bill, they had heard counsel Vol. 101.
Ordered, That the Report be referred to the Select Committee on Standing Orders.

Mr. Aglionby reported from the Select Committee on Petitions for Private Bills, to whom several Petitions complaining of non-compliance with the Standing Orders, in the case of the Petition for the Dartmouth, Brixham and Exeter Railway Bill, were referred; That the Standing Orders had not been complied with, inasmuch as the Plan deposited with the Committee does not correctly describe the line or situation of the lands and properties through which the said Railway is intended to be made, or which lie within the limits of deviation, inasmuch as the divisions, boundaries and numberings of the several properties next hereafter mentioned are indistinct and unintelligible, so that persons interested in the said Railway cannot identify the same, or whether the same, when numbered on the said Plans, are rightly described in the Book of Reference; (that is to say) certain properties between the Nos. 60 and 80, in the parish of Ashton; the property numbered 75, in the parish of Keston, is a property of the wrong description, and between the Nos. 290 and 330, with the exception of twenty of the above numbers, in the parish of Dunford.

And inasmuch as the properties numbered respectively on the said Plans, 5, in the parish of Ashton, 39, in the parish of Doddicombleigh, 25, in the parish of Treesham, are shown on the said Plans as lying within the limits of deviation, inasmuch as the same are not described in the said Book of Reference, nor are the names of the owners, lessees and occupiers thereof contained therein.

And inasmuch as various lands and premises marked on the said Plan, and numbered in the Books of Reference lodged with the said Plan, are not distinguished by any corresponding numbers on the said Plans, in the following instances: the properties numbered in the Book of Reference 1, 2, 7, 13, 16, 24, 28, in the parish of Highchurch; 85, 10, 9, in the parish of Teigngrace; 77, 77a, 78, 79, 80, 81, 82, 83, 84, 85, 87, 88, 91, 92, 93, 94, 95, 96, 97, 97a, 97b, 98, 99, 100, in the parish of Chudleigh, 9, 19, in the parish of Henwood; 1, 2, 14, 50, in the parish of Treesham; 1, 9, 46, in the parish of Chetesow; 35, 7, 14, 34, 35, 35, 42, 46, 46, 62, 64, 91, 92, 98, 94, 96, in the parish of Ashton; 15, 329, 330, 80, 85, in the parish of Doddicombleigh; 224, 225, 226, 227, 228, 229, 230, 231, 287, 288, 336, 358, 367, 368, 369, 371, 411, 415, in the parish of Dunford; 1, 15, 3, 6, 20, 25, 27, 31, 34, 39, 41, 45, in the parish of Holcombe Burnell; 25, 57, in the parish of Alphington; 1, 329, in the parish of Saint David.

And inasmuch as the distances on the datum line are not marked thereon in miles and furlongs to correspond with those marked on the said Plan, inasmuch as such distances are marked on the said Section in miles only, and the furlongs are wholly omitted therefrom on the said Section.

And inasmuch as the vertical measure from the datum line of the said Section to the line of the intended Railway is not marked upon the said Section in feet and inches at the change of gradient or inclination occurring at the following distances, as marked on the said Section; that is to say, at the 20th mile 60 chains, at the 32d mile, at the 33d mile 40 chains; at the 8th mile on the Section of the Branch, and between the said Railway to Exeter, at the 7th mile 20 chains.

And inasmuch as the measure from the datum line to the line of the said intended Railway has not been correctly marked upon the said Section in feet and inches at the changes of gradient or inclination of the said line marked thereon at the distances hereafter
h
Railway over or under the surface of the several
thereafter mentioned: at 72 miles the vertical mea-
sure is marked as 51 feet, whereas it should be 61
feet; at 91 miles the vertical measure is marked at
141 feet, whereas it should be 151 feet.

And inasmuch as the proportion or rate of inclina-
tion between each change of the gradient or incli-
nation, is not marked on the said Section at the
change of gradient occurring at the following dis-
tances, as marked on the said Section: a gradient
beginning at the 3rd mile and ending at 2 miles
45 chains; a gradient beginning at 23 miles 45
chains, and ending at 94 miles 77 chains; a grad-
ient beginning at the commencement of the Exeter
Branch, and 3d mile thereof; a gradient
beginning at the 3d mile, and ending at 6 miles
63 chains thereof; a gradient beginning at 6 miles
63 chains, and ending at 7 miles 15 chains,
and ending at 7 miles 45 chains thereof.

And inasmuch as the said Section does not cor-
rectly show the surface of the ground marked on
the said Plan, inasmuch as by the said Plan the Rail-
way is intended to cross the several roads at 5 miles
78 chains, 6 miles 78 chains, and at 6 miles 52
chains, but the same are not shown on the said
Section.

And inasmuch as the height of the said intended
Railway over or under the surface of the several
turnpike-roads and public carriage-roads, and of the
canal next hereinafter mentioned, is not marked in
figures upon the said Section at the crossings of
such roads; that is to say—a turnpike-road at 1
miles 10 chains on the said Section; a canal at 14
miles 37 chains; a public carriage-road at 17 miles
20 chains; a turnpike-road at 18 miles 20 chains;
a turnpike-road at 18 miles 34 chains; a turnpike-
road at 18 miles 56 chains; a public carriage-road
at 2 miles 78 chains, whereas the said tunnel is not
marked on the said Section at the crossings of
roads, and is not marked on the said Section at the
division of properties so confusedly marked,
and descriptions would have been filled up by per-
sons sent down with the said Plans and Sections
and included between the 20th and 25th miles, as
marked thereon.

And inasmuch as no horizontal or vertical scale
is laid down on the Section of the said intended
Railway to Brixham in the manner prepared by the
promoters of the Bill, and included in the pattern
Plan appended to the Standing Orders, for the
purpose of showing the scales or number of
inches to a mile, according to which the said Sec-
tion is laid down.

And inasmuch as the scale of the Section on the
said Brixham Railway is different from that of
the other parts of the line.

And inasmuch as there is a tunnel delineated on
the Section of the Branch to Exeter, at the distance of
2 miles 78 chains, whereas the said tunnel is not
marked on the Plan.

And inasmuch as on the cross Sections the in-
tended inclination of such roads when altered is not
stated in words and figures as pointed out by the
pattern Plan; but it was stated that owing to the
press of business among the lithographers, the Plans
and Sections were delivered to the promoters of the
Bill in a very incomplete state, and were so delayed
that they were obliged to be sent from London to
Exeter by an express train, which started at half-
past four o'clock on Sunday, the 30th November,
that an accident occurred to the said train, by which
it was unavoidably delayed, and did not arrive at
Exeter to allow more time than was necessary for
the deposit of the said Plans and Sections.

That several numbers and descriptions, in figures
and words respectively, were omitted in the said
Plans and Sections, amounting to about 200.

That evidence has been given that these numbers
and descriptions would have been filled up by per-
sons sent down with the said Plans and Sections
for the purpose, and a due deposit made, had the
train arrived in due course; but that in addition to
the omission of the said numbers and descriptions,
in many cases numbers are so indistinctly written,
and the division of properties so confusedly marked,
as to be unintelligible, and that defects of this latter
nature could not have been remedied had the above
accident not occurred.

And inasmuch as so much of the Plans and Sec-
tions as refer to the Credition Branch of the above
Branch Railway are in many instances inaccurate and
defective; but that the Promoters of the Bill stated that
no power is taken in the Bill to execute the works of
the Credition Branch.

Ordered, That the Report be referred to the Se-
lected Committee on Standing Orders.

of the present level stated on Section, and no cross
Section in reference thereto; at 28 miles 5 furlongs,

Ordered, That the said Papers do lie upon the Table.

Mr. Home Drummond reported from the Select Committee on Petitions for Private Bills, to whom two Petitions complaining of non-compliance with the Standing Orders, in the case of the Petition for the Bristol and Birmingham Railway (Bath Line) Bill, were referred; That the Standing Orders had not been complied with, inasmuch as no Plans or Sections have been deposited with the Parish Clerks for that portion of the line situated between a field numbered 46, in the parish of Seaswicht, and the boundary of the parish of Bathwick numbered 139, although notices have been given for the same, and such portion of the work is contained in the Plans deposited with the Clerks of the Peace and in the Private Bill Office, and power is taken in the Bill to execute the same; but the Promoters stated to the Committee that it was their intention to abandon this portion of the work as the height of the Railway over or under the surface of the ground is not marked at the crossing of a public carriage-road at or near 2 miles 5 furlongs 3 chains, nor does the Section show the manner in which the same is to be crossed; and inasmuch as a tunnel shown on the Plan as commencing at 4 miles 4 furlongs 800 links, should have been shown as commencing at 4 miles 4 furlongs; and inasmuch as the name of John Ellis, one of the subscribers, is not inserted amongst the names of the subscribers arranged in alphabetical order in the printed copies of the Contract deposited in the Private Bill Office and in the Vote Office.

Ordered, That the Report be referred to the Select Committee on Standing Orders.

Ordered, That the Account relative to the Whole Whale Fishery, which was presented yesterday, be printed.

Ordered, That the Account relative to Stock transferred, which was presented yesterday, be transferred and printed.

Ordered, That the Returns relative to Marriages, which were presented yesterday, be printed.

Of the several Petitions complaining of non-compliance with the Standing Orders, in the case of the Petition for the London and Birmingham Railway Company to make a Branch from the said Railway to the Blistsorth and Peterborough Branch thereof: And that Colonel Amos and Mr. Raikes Currie do prepare, and bring it in.

Sir William Heathcote reported from the Select Committee on Petitions for Private Bills, to whom several Petitions complaining of non-compliance with the Standing Orders, in the case of the Petition for the Oldham, Manchester, Liverpool and Birkenhead Junction Railway Bill, were referred; That the Standing Orders had been complied with.

Ordered, That leave be given to bring in a Bill for making a Railway from Saddleworth to Oldham and Manchester, with Branches therefrom, to be called The Oldham, Manchester, Liverpool and Birkenhead Junction Railway: And that Mr. John Fielden and Mr. Brotherton do prepare, and bring it in.

Sir William Heathcote reported from the Select Committee on Petitions for Private Bills, to whom several Petitions complaining of non-compliance with the Standing Orders, in the case of the Petition for the Goole and Doncaster Railway, were referred; That the Standing Orders had not been complied with, inasmuch as the notices published in the Gazette and newspapers, and served upon the several owners, lessees and occupiers of property to be taken, were in respect of a line of Railway from Goole to Doncaster and Kingsland, and the application under the Bill was for a line from Goole to Doncaster only, being for a line 19 miles in length, out of 37½ originally applied for; and inasmuch as powers are taken under the Bill to sell or lease the undertaking to the South Yorkshire Coal Railway and Canal Company, and the said notices do not specify the same.

Ordered, That the Report be referred to the Select Committee on Standing Orders.

Sir William Heathcote reported from the Select Committee on Petitions for Private Bills, to whom several Petitions complaining of non-compliance with the Standing Orders, in the case of the Petition for the Whitehaven and Furness Junction Railway Bill, were referred; That the Standing Orders had not been complied with, inasmuch as the notices were given, and the deposit for a direct line from Ulverstone, through Flookborough, to Hex Bank, and also for another line from Flookborough to Derwent, but the application under the Bill is for a line only from Ulverstone, through Flookborough...
to Derted Yeat, whereby about 8½ miles of the direct line first named is abandoned.

And inasmuch as no copy of the notice was inserted three times in a newspaper, published and circulated in the county of Cumberland, although powers are inserted in the Bill, conferring powers to execute the works upon the Furness and Whitehaven Railway Company, whose existing works extend into that county.

And inasmuch as the limits of deviation upon the Plan in the parish of Cartmel, township of Brighthop, opposite to Blawith Cottage, are not marked in the Plan deposited with the Clerk of the Peace for the county of Lancashire; but it appeared to the Committee that the omission occurred in that part of the Plan which is within the county of Westmoreland, and the Plan was so deposited within the county of Lancashire.

And inasmuch as a garden and yard in the parish of Cartmel, in the township of Lower Holber, between Nos. 20 and 25, is not shown upon an enlarged scale upon the Plan.

And inasmuch as a dwelling-house and yard in the parish of Cartmel, township of above town, adjoining No. 76, is not numbered upon the Plan deposited with the Clerk of the Peace for the county of Lancashire, but is numbered upon the Plan or described in the Book of Reference.

And inasmuch as the extreme height and depth of cuttings over or under the surface of the ground is not referred to a fixed point near either terminus, whereas by the Bill the said roads can be crossed only by the bridges, according to the provisions of the Railway Clauses Consolidation Act, s 8, c. 20, embodied in the said Bill.

And inasmuch as the Books of Reference do not contain the names of the owners of the several properties, 13, 19, 39, 42, 43, 44, 45, 46, 47, 48, 49, 50, 51, 52 and 58, in the parish of Cartmel, township of Lower Holber, and 1, 2, 3 and 4, in the township of Lower Allithwaite, which are described as belonging to Gray Rice, Esquire, and the owners are James Pullen and — Washington, trustees under the Will of the late Adam Asken; deceased, Reverend Charles Moore and Gray Rice, as trustees of Mrs. M. A. Johnson, Reverend Henry Asken.

Ordered, That the Report be referred to the Select Committee on Standing Orders.

Sir William Heathcote reported from the Select Committee on Petitions for Private Bills, to whom several Petitions complaining of non-compliance with the Standing Orders, in the case of the Petition for the Birkenhead and Holyhead Junction Railway Bill, were referred; That the Standing Orders had not been complied with, inasmuch as the notice published in the Gazette and county papers, and served upon the several owners, lessees and occupiers of property to be taken, do not correspond with the present application, such notices being in respect of three lines; viz., from 1. Birkenhead to Flint, 2. Flint to the parish of Grange, in the county of Denbigh, 3. Neston to the Hooton Station, and the application being for a Railway from the said Hooton Station to Mold, in the county of Flint, being a portion of the second-mentioned line and the third-mentioned line only; and inasmuch as the Plan and Sections are not marked in miles and furlongs from either terminus; and inasmuch as the limits of deviation on each side of the line of Railway are not shown upon the Plan at 21 miles 6½ furlongs; and inasmuch as the copy of the Plan deposited in the Private Bill Office does not show a tunnel of 1,780 yards in length, in the parish of Northop, in the county of Flint.

Ordered, That the Report be referred to the Select Committee on Standing Orders.

Sir William Heathcote reported from the Select Committee on Petitions for Private Bills, to whom a Petition of complaint of non-compliance with the Standing Orders, in the case of the Petition for the Newcastle-upon-Tyne, Edinburgh and Direct Glasgow Junction Railway Bill, was referred; That the Standing Orders had not been complied with, inasmuch as a one-tenth part of the amount subscribed was not deposited in the Court of Chancery, it appearing that the amount subscribed was £16,580, and that only £16,580, instead of £18,880 was deposited, but it appeared that the sum deposited was equal to one-tenth of three-fourths of the estimate; and inasmuch as in the parish of Saint Andrew, in Newcastle, No. 47, in the Book of Reference, and described as pasture and shed, and being a smallfield about a quarter of an acre, does not appear in the Plan as fenced off from the adjoining arable-field numbered 48; and inasmuch as a garden and house, No. 59, in the Book of Reference, in the parish of Saint Andrew, is not laid down on an enlarged Plan; and inasmuch as the enlarged Plan of property in the parish of Grange does not agree with the general description, inasmuch as one of the deviation lines upon the enlarged Plan passes at a distance of about 11 yards from the south-west angle of the property numbered 81 across a road No. 80, and thence across the said road, whereas upon the general Plan the corresponding deviation line passes along the west and south boundaries of the property numbered 81, and thence...
writing was made to the owners, lessees and occupier of the lands and properties shown on the said plans, and described in the Books of Reference, in the parishes of Downham, Britford and Fisherton Magna, in the county of Wilts, situate between the said public road No. 41, on the said plans, in the said parish of Downham, and the intended junction of the said proposed Railway with the Wilts, Somerset and Weymouth Railway at Salisbury, or to any of such owners, lessees and occupiers, inasmuch as in all the facts made to such several owners, lessees, and occupiers, the manner in which the line of the said intended Railway would affect the same was erroneously stated as to the lands which will be passed through by the line of the said Railway as at present laid out, all such notices stating the intended greatest heights of embankment, and depths of cutting with reference to and calculated from an erroneous estimate of the existing level of the said several lands and properties, the whole of which are in fact 24 feet, or thereabouts, lower than they are assumed to be.

Ordered, That the Report be referred to the Select Committee on Standing Orders.

Sir William Heathcote reported from the Select Committee on Petitions for Private Bills, to whom two Petitions severally complaining of non-compliance with the Standing Orders, in the case of the Petition for the Oxford, Worcester and Wolverhampton Railway Bill, were referred; That the Standing Orders had not been complied with.

Ordered, That leave be given to bring in a Bill to make alterations in the Line of the Oxford, Worcester and Wolverhampton Railway, and to amend the Act relating thereto: And that General Lygon, Mr. Pakington and Lord Macclesfield do prepare, and bring in it.

And inasmuch as a copy of so much of the Plans and Sections as relate to the district or parish of Saint John-the-Baptist, within the parish of Saint Michael, in the city of Coventry, in or through which the work is intended to be made, maintained, varied, extended or enlarged, together with the Book of Reference thereto, have not been deposited with the Parish Clerk of the district or parish of Saint John-the-Baptist, which it appeared to the Committee was a separate district or parish for ecclesiastical purposes only.

And inasmuch as in the description of property, No. 35, in the parish of Foleshill, being house, farm buildings, rick-yard, the words "orchard and garden" are omitted, the said orchard and garden being about one quarter of an acre in extent, and that no application in writing had been made to the owner thereof in respect of the said orchard and garden.

And inasmuch as a piece of garden-ground in the district or parish of Saint John-the-Baptist, between or adjoining or near to certain properties, numbered 23 and 24, also a certain field in the hamlet of Attleborough, in the parish of Nuneaton, adjoining or near to Nos. 10, 11, 12 and 15, on the said Plan, was numbered thereon, but not referred to in the Book of Reference.

And inasmuch as in the written application to John Johnson, the elder, his property is erroneously numbered 125 instead of 126 and 127, but the description of the owners and occupiers is correct.

Ordered, That the Report be referred to the Select Committee on Standing Orders.

And inasmuch as the following properties lying upon the line of Railway within the limits of deviation, are not described in the Book of Reference deposited in the office of the principal Sheriff Clerk of the county of Perth; at 32 miles 7 furongs, parish of Arringack, two arable fields adjoining No. 107, on Plan; at 26 miles 7 furongs, parish of Orwell Westside, two arable fields, adjoining No. 6.

And inasmuch as the site of the Plan deposited as aforesaid, of Bankhead, in the said parish of Dunfernline, the line of Railway and limit of deviation is not marked.

And inasmuch as the radius of the curve at 91 miles, is not noted on the Plans in furlongs and chains.

And inasmuch as the distances are not marked on the datum line, so as to correspond with those on the Plan, in the following instances; the turnpike-road No. 76, in the parish of Portmoat, as measured on the Plan, is at 26 miles 1 furlong 5 chains, and on the Section is at 25 miles 7 furlongs 7 chains, being a difference of 1 furlong 9 chains; the public road No. 94, in the same parish, as measured on the Plan, is at 27 miles 6 chains, and on the Section is at 27 miles 5 furlongs and 3 chains, and on the Plans is at 25 miles 7 furlongs 7 chains, being a difference of 2 furlongs.

The distance on the Section between the 17th and 18th mile measures only 7 furlongs, and does not correspond with the measurement on the Plan.

From the 22d to the 27th mile, the Section measures 5 miles 25 chains, and does not correspond with the Plan; from the 27th to the 38th mile, 3 furlongs of the Section are altogether omitted; from the 34th to the 35th mile, the Section measures 9 furlongs, and does not correspond with the Plans; from the 38th to the 39th mile, the Section measures only 7 furlongs, and does not correspond with the Plan.

And inasmuch as the vertical measure is marked upon the Section 34 feet, and measures by the scale 60 feet. And inasmuch as the rates of inclination are not marked, or are incorrectly so, on the Section, in the following instances; at the 35th and 22d miles, the rates of inclination at a change of gradient, are not marked on the Section.

And inasmuch as the vertical height at the 39th mile, is marked as 297.6, but measures by the vertical scale, 227.6.

And inasmuch as the vertical height is omitted at 39 miles 6 furlongs.

And inasmuch as the gradient at the terminus of the line at the junction with the Scottish Central Railway, marked horizontal on the Section, has no vertical height marked at one end, and measures by scale 1 in 146.

And inasmuch as the extreme height of the Railway over the surface of the ground at the embankments following, is not marked on the Section; viz., on the 1st mile, at 8½ miles, at 12 miles, and at 14½ miles.

And inasmuch as the Books of Reference deposited with the principal Sheriff Clerk of the county of Perth and in the Private Bill Office, do not correspond, and are not copies of each other, as to the particulars mentioned in the following Table:—

And inasmuch as it appeared that under the 20th clause of the Bill, power is taken to enable the Proprietors of the Water of Orr-road Company to enter into arrangements with the Parliamentary Trustees of the Ferry of Queen's Ferry, for the construction of new Piers, Harbours and other Works in relation to the said Ferry, and the Promoters of the said Bill have proved before the Sub-Committee the deposit of Plans, Sections and Books of Reference with respect to the said Works, as well as applications to owners and occupiers, but such Works (estimated at £100,000) are not included in the estimate or in the Subscription Contract.

Mr. Strutt reported from the Select Committee on Petitions for Private Bills, to whom several Petitions complaining of non-compliance with the Standing Orders, in the case of the Petition for the Edinburgh and Leith Waterworks Bill, were referred: That the Standing Orders had not been complied with, inasmuch as the datum line is not duly referred to a fixed point near one of the termini, the reference being to a fixed point marked (U) on the Rock of Salisbury Craig near the point marked (U) on the Plan; and it appeared that the mark so referred to was of red paint, and was marked upon a projecting line of level rock, forming part of Salisbury Craig, about eighteen inches or two feet in diameter, and exposed to the weather.

Ordered, That the Report be referred to the Select Committee on Standing Orders.

And inasmuch as a small kitchen-garden adjoining Nos. 3, 3, in the said Capar Branch, parish of Capar, is shown on the said Plans, but there is no enlarged Plan given thereof.

And inasmuch as no enlarged Plan is given of the garden, No. 21, on the Plan, in the Capar Branch, parish of Mornanull.

And inasmuch as the datum line is not duly referred to any fixed point, the reference being to the top of Newport Pier, at the upper end, marked (A.) on the Plan, but it appeared that there was no point marked (A.) on the Plan, and that there were two piers on the Plan, one described as Old Ferry Pier, and the other as Ferry Pier, the copings of which differed in level to the amount of 2 or 3 feet, but it further appeared that the pier described as Ferry Pier, on which it was stated by the promoters that the letter (A.) ought to have been placed, is most usually known as (B.), and that the coping of the pier described as Old Ferry Pier was built of rough stone.

And inasmuch as on the Sections deposited as aforesaid the heights of the bridges over or under the surface of the following turnpike-road is not marked in figures:

And inasmuch as on the main line the extreme height of embankment and depth of cutting are not marked in figures on the said Section, in the following instances: Embankments:—At the brook near 31 miles 2 furlongs; at 34½ miles; at 3 miles 2 furlongs, at Newport. Cuttings:—At Newport, at the west end of second tunnel near to 23 miles; at 3 miles 1 furlong; at road near 13 miles 9 furlongs, and on the Section of the alternative line at Newport, the cutting marked 38 feet measures only 30 feet, and at the west end of said tunnel, where the cutting is marked 38 feet, measures 38 feet.

And inasmuch as on the Section of the main line on road near 84 miles, the height and span of the arch of the bridge are not specified, but it appeared that the Railway passes under the road, level unaltered.

And inasmuch as on the main line of the said Railway the scales on two sheets of the Sections embracing from 26 to 31 miles, are erroneous, so that the vertical height, as measured by the scale on the Section, is 29 feet less than that marked in figures on the Section, but it appeared that the height was correct, as measured by an accurate scale.

And inasmuch as at the separation of the alternative line from the main line at 5 miles 1 furlong, the vertical height of the main line is marked 76 feet, and on the Section of the alternative line at Newport, it is marked 78 feet.

And inasmuch as on the Section of the main line from 25 miles to 26 miles, the mile is divided into 6 furlongs only, and it does not correspond with the measurement on the Plan, a portion of the datum line at the termination of the sheet having been omitted by the lithographer.

And inasmuch as on the Plan deposited as foresaid, no additional or enlarged Plans of the following buildings, yards and garden-ground within the limits

And inasmuch as between the points marked 12 miles and 13 miles on the Plan, the distance, as measured by the scale on the Plan, is about 100 yards more than a mile, and the furlong points are exhibited at unequal distances.

And inasmuch as between the points marked 12 miles and 13 miles on the Plan, there are 8 furlong points marked, instead of seven.

And inasmuch as between the points marked 13 miles and the point marked 14 miles, on the Plan, the distance, as measured by the scale on the said Plan, is about 1 furlong less than a mile, and the furlong points are exhibited at unequal distances.

And inasmuch as a tunnel is shown on the Section between the points marked 12 miles 5 furlongs and 13 miles 2 furlongs, to be 1,000 yards long, whereas upon the Plan the said tunnel is shown to occur between the points marked 12 miles 3 furlongs and 13 miles 1 furlong and measures 1,100 yards long, making a difference in the length of the tunnel of 100 yards long.

And inasmuch as the height of the Railway over or under the surface of every turnpike-road, public carriage-road, Railway or junction with a Railway, is not marked in the Section, there being no description of the Section thereof, in the following instances: viz. Parish road, No. 19, in the parish of Hamilton; turnpike-road, No. 41, in the parish of Dalziel; parish road, No. 6, in the parish of Hamilton.

And inasmuch as the Sections of the proposed Railway deposited with the Sheriff Clerks of the counties of Linlithgow and Lanark, and in the Private Bill Office, do not correspond with the Plan, inasmuch as between the lands and roads numbered 107, 117, 118, 119, 120, 120a, 121, 122, 123, 124, 124a, 124b, 125, 126, 127, 128 and 134 of the Plan, and in the Book of Reference belonging to the Trustees of the Shotts Iron Company, are not shown upon the Section at the distances corresponding to those at which they are exhibited upon the Plan, but at places different therefrom to the extent of 27 chains, or thereabouts, the error arising from a discrepancy between the Plans and Sections as before reported.

And inasmuch as in the applications made to the said Trustees of the Shotts Iron Company, the description of the Section of the line deposited, and of the greatest height of embankment and depth of cutting, is not correctly set forth; in the said applications the road numbered 120 is described private road, and the description of the Section is "Embankment of 20 feet," whereas on the Section it is shown to be an embankment of 20 feet.

And inasmuch as the main Plan deposited as last aforesaid does not correspond with the enlarged Plan which is given, at No. 122, in the parish of Shotts aforesaid, inasmuch as the line of Railway is shown differently on the said two Plans, to the extent of 107, 120, or thereabouts; upon the enlarged Plan a school-house, dwelling-house and other property, numbered 119, 120, 121 and 124, in said parish, being shown as being upon the upper limit of deviation, whereas upon the main Plan they are shown as being upon the line of the proposed Railway, and between the Railway and the lower limit of deviation.

And inasmuch as no cross Section is given of the parish road, No. 19, in the parish of Hamilton, to show the nature of the alteration intended to be made thereon.

Ordered, That the Report be referred to the Select Committee on Standing Orders.

Sir William Heathcoate reported from the Select Committee on Petitions for Private Bills, That in the case of the Petition for additional Provision in the London and Birmingham Railway (Saint Alban's and Luton Branch) Bill, the Standing Orders had not been complied with, inasmuch as the Plan for the Saint Alban's Deviation was not deposited with the several Clerks of the Peace and at the Board of Trade till the 22 December; and also inasmuch as the Plans, Sections and Books of Reference for the Market-street Deviation were not deposited with the several Clerks of the Peace till the 29 December last; and inasmuch as the several Petitions complaining of non-compliance with the Standing Orders, in the case of the Petition for the Staines and Henley Railway Bill, were referred; That the Standing Orders had not been complied with, inasmuch as the Section at every crossing line is referred to a fixed point not sufficiently specified on the Section deposited with Clerk of Peace for Middlesex.
Also inasmuch as the said Section, and the Section deposited in Private Bill Office, do not correctly show the surface of the ground marked on the Plans, in the following instances—

Also inasmuch as certain property, cottage building, in No. 186, is not shown on the Plan; No. 44, in the parish of Staines, is incorrectly shown to be in that parish, the same being in the parish of Ashford.

Mr. Strutt reported from the Select Committee on Petitions for Private Bills, to whom a Petition complaining of non-compliance with the Standing Orders, in the case of the Petition for the West Lancashire Railway Bill, was referred; That the Standing Orders had not been complied with, inasmuch as no proof of application to Henry Bellingham and Henry Myers, two owners, who were stated to have been applied to by John O'Flanagan, was adduced before the Committee; but it appeared to the Committee that the said John O'Flanagan was ill, and could not attend to give Evidence before the Committee having made the application; and inasmuch as the Section deposited with the Clerk of the Peace for the county of Lancaster does not show a datum horizontal line referred to some fixed point near either of the termini, as set forth in the Bill, as the said fixed point is stated on the said Sections to be 129 feet 9 inches below the floor of the passage into the Liverpool Exchange from Old Hall-street and Tite's Burn-street, when in fact one of the said termini is situate in the parish of Walton-on-the-hill, being a distance of 1 mile 4 furlongs and 7 chains from the said fixed point, and the other of the said termini is situate in the parish of North Meols, being a distance of 17 miles and upwards from the said fixed point; and inasmuch as the said Plan and Section so deposited as aforesaid do not exhibit thereon the distances in miles and furlongs from either of the said termini; and inasmuch as the whole of the cross Sections, being 20 in number, are not drawn on the scale required by the Standing Orders, as such cross Sections are drawn on a horizontal scale of 1 inch to every 264 feet.

Mr. Strutt reported from the Select Committee on Petitions for Private Bills, to whom two Petitions complaining of non-compliance with the Standing Orders, in the case of the Petition for the Warwickshire and London Railway Bill, were referred; That the Standing Orders had not been complied with, inasmuch as in the Book of Reference thereto it is described as being in the parish of Mollington, but in the Book of Reference contained in such Book of Reference was proved to be correct.

But it appeared that these properties were situate in a crowded portion of the town, and it being impossible distinctly to write the whole number in every case on the Plan, the promoters had in such cases omitted the first numeral; and it did not appear to the Committee that the practice so adopted was calculated to mislead.

Mr. Strutt reported from the Select Committee on Petitions for Private Bills, to whom a Petition complaining of non-compliance with the Standing Orders, in the case of the Petition for the Eastern Counties Railway (Tottenham to Barnet) Bill, was referred; That the Standing Orders had not been complied with, inasmuch as no Plan, Section and Book of Reference were deposited with the Parish Clerk of Tottenham on or before the 31st of December last, but that a Plan, Section and Book of Reference were deposited with the Vestry Clerk of Tottenham, in consequence of erroneous information, but whose office is wholly dissimilar, and that a deposit was subsequently made with the Parish Clerk on the 15th of January 1846.

And inasmuch as at 5 miles on the Section in the parish of Edmonton, the height from the datum line, as calculated on the Section deposited with the Clerk of the Peace for the county of Middlesex, is 175 feet, whereas the height by the check levels by the witnesses of the promoters is 179 feet 4 inches, and by the other witnesses variously stated as 182 feet 66, 184.9 feet, and 185; but the levels on each side were proved to be correct.

And inasmuch as on the alternative line, at 1 mile 4 furlongs on the said Section, the height from the datum line, as calculated on the said Section, is 183.10 feet, whereas by the check levels it is 198.58 feet, making an error of 15.38 feet.

And inasmuch as in the enlarged Plan of property No. 31, in the parish of Chesterton, a building occupied as stables, and a garden within the limits of the application, are omitted.

And inasmuch as in the Book of Reference deposited with the Clerk of the Peace of the county of Oxford, and in the notice served on the occupiers of property No. 31, the said property is described as a private carriage-road, whereas No. 31, in addition to the private carriage-road, contains a cow-shed, stack-yard, stables and garden.
of 13.09 feet; but it was stated by the promoters that they intended to abandon the alternative line.

And inasmuch as notice has been published of the intention of the Parties to apply for power to construct the said alternative line.

And inasmuch as the Plans and Books of Reference it is shown that application is also intended to be made for powers to take lands in the parishes of Hazey, in the county of Lincoln, and Gringley, in the county of Nottingham, for the purposes of making a Branch Railway, diverging from the main Line in the parish of Misterton, and terminating in the parish of Methley, but in the notice published in the London Gazette and the several county newspapers no mention is made of lands in the said parishes of Hazey and Gringley being required for the purposes of the said Branch Railway; but it appeared that the names of the said parishes were inserted in the notices for the main Line.

Mr.
Mr. Strutt reported from the Select Committee on Petitions for Private Bills, to whom several Petitions complaining of non-compliance with the Standing Orders, in the case of the Petition for the Oxford, Southampton, Gosport and Portsmouth Railway Bill, were referred; That the Standing Orders had not been complied with, inasmuch as certain buildings and the limits of deviation marked on the Plans deposited with the Clerk of the Peace for the county of Berks, and numbered in the Books of Reference thereto, are not described on the following Plan; viz., a house and coach-house in the tything of Greenham, in the county of Berks, numbered 13 in the said Book of Reference; a coach-house in the same tything, numbered 18, in the said Book of Reference; a brew-house, stable and outbuildings in the said parish of Sidmonton, appears as the tything of Greenham.

And inasmuch as the distances in miles and furlongs marked upon the Plan deposited at the Office of the Clerk of the Peace for the county of Hants, do not agree with the distances in miles and furlongs marked upon the Plan deposited in the Private Bill Office; inasmuch as at the 1st furlong, an error appears to commence in the said Plan deposited with the said Clerk of the Peace, which continues to increase to the 14th mile, where it amounts to 217 yards, and from thence it gradually diminishes till at the 27th mile 4 furlongs, it amounts to 97 yards, and afterwards increases till at 30 miles 2 furlongs, it amounts to 165 yards.

And inasmuch as between the commencement of the Railway and the 2d furlong, there is a curve of 10 chains; whereas on the datum line of the said Plan, the 28th mile there is a curve of less than one mile, which are not noted on the said Plan.

And inasmuch as between the 6th furlong of the 30th mile, and the 2d furlong of the 31st mile, there are two curves, each of a radius of less than one mile in length, not so noted.

And inasmuch as on the Section deposited with the Clerk of the Peace for the county of Berks, the distances on the datum line are not marked in miles and furlongs to correspond with those on the Plan, in the following instances; viz., at about 4 miles and 8 chains on the line of the said Railway, the marked termination of the parish of Compton, is shown on the said Plan, whereas on the datum line of the said Section, the said termination of the said tunnel is shown at 4 miles 6 chains and 10 links, being a difference of 1 chain and 20 yards, or thereabouts; at or about 6 miles 4 furlongs and 3 chains, the said Railway is shown on the said Plan as crossing a public highway, numbered 14, in the said parish of Hampstead Norris, whereas on the datum line of the said Section, the said highway is shown as crossing a road numbered 22, in the said parish of Compton, whereas on the datum line of the said Section, the said road is shown as crossed by the said Railway at 6 miles 4 furlongs 4 chains and 20 links, being a difference of 1 chain and 4 yards, or thereabouts; at or about 10 miles 5 furlongs, the said Railway is shown on the said Plan as crossing a public highway, numbered 14, in the said parish of Hampstead Norris, whereas on the datum line of the said Section, the said railway is shown as crossing a road numbered 22, in the said parish of Compton, whereas on the datum line of the said Section, the said road is shown as crossed by the said Railway at 6 miles 4 furlongs 2 chains and 20 links, being a difference of 2 chains and 12 yards, or thereabouts; at or about 14 miles 7 furlongs 6 chains and 40 links, the said railway is shown on the said Plan as crossing a public highway, numbered 26, in the said parish of Shute-cum-Dounting, whereas on the datum line of the said Section, the said highway is shown as crossed by the said Railway at 14 miles 7 furlongs 4 chains and 30 links, being a difference of 2 chains and 12 yards, or thereabouts; at or about 15 miles 2 furlongs and 80 links, being a difference of 2 chains and 80 links, or thereabouts; at or about 15 miles 2 furlongs and 80 links, the said Railway is shown on the said Plan as crossing a turnpike-road, numbered 61, in the said parish of Shute-cum-Dounting, whereas on the datum line of the said Section, the said road is shown as crossed by the said Railway at 15 miles 1 furlong 8 chains and 80 links, being a difference of 2 chains, or thereabouts; at or about
about 17 miles 7 furlongs 2 chains, the said Railway}

is shown as a crossing of all the said Bridge and
tunnel of Thatcham, and tything of Greenham,
whereon the section line of the said Section, the
said road is shown as crossed by the said Railway
at 17 miles 7 furlongs 6 chains, being a difference of
3 miles 6 furlongs 6 chains and 25 links, the
 commencement of a tunnel is shown on the
 said plan in a field numbered 2, in the
 parishes of Litchfield, whereas on the section line of the
 said Section, it is shown as at or about 13 miles 6 fur-
 longs and 90 links, being a difference of 4 chains
 and 9 yards, or thereabouts; at or about 23 miles
 and 7 furlongs, the commencement of another tun-
 nel is shown on the said Plan in a field numbered
 2, in the said parish of Litchfield, whereas on the
 section line of the said Section, it is shown as at
 or about 23 miles 6 furlongs 6 chains and 25 links, being a
difference of 4 chains and 16 yards, or thereabouts,
and being according to the measure on the said da-
tum line of the said Section, in a field numbered 1,
on the said plan.

And inasmuch as between 14 miles 6 furlongs,
and 19 miles, the rate of inclination is stated in the
said Section to be 1 in 671, whereas it should be
1 in 272; also between 23 miles 6 furlongs, and
26 miles 1 furlong, the rate of inclination is stated in the
said Section to be 1 in 136, whereas it should be
1 in 87.

And inasmuch as on the Section of the said Rail-
way deposited with the said Clerk of the Peace for the
county of Berks, the vertical measure from the
section line to the line of Railway is not stated in
feet and inches at each change of the gradient, in-
asmuch as at or about 14 miles 6 furlongs 6 chains
and 50 links, there is a change of the gradient at
which no vertical measure is stated.

And inasmuch as on the Section of the said Rail-
way as aforesaid, as that in the case of 2 tunnels occurring
on the horizontal Section of the said Railway, the said
road is marked in figures as being 15 feet below the
level of the intended Railway, and the same could not be
crossed on a level if altered as stated in the said cross section.

And inasmuch as on the said Section deposited as
aforesaid, the vertical height of the Railway below the
surface of the ground is marked 27 feet, whereas it measures,
according to the vertical scale of the said Section, 26 feet,
and being according to the measure on the said da-
tum line of the said Section, 25 feet, or thereabouts; at or
about 21 miles 4 furlongs, the depth of the Rail-
way below the surface of the ground is marked
27 feet, whereas it measures, according to the vertical scale
of the said Section, 25 feet, or thereabouts; at or
about 23 miles 6 furlongs 6 chains and 25 links, the
height of the Railway over or under the surface of the ground is
marked 14 feet, whereas it measures, according to the vertical
table of the said Section, 13 feet, or thereabouts; at or
about 23 miles 6 furlongs 6 chains, the height of the Railway
over the surface of the ground is marked 57 feet, whereas it measures,
according to the vertical scale of the said Section, 55 feet,
and being according to the measure on the said da-
tum line of the said Section, 54 feet, or thereabouts; at or
about 23 miles and 7 furlongs, the depth of the Rail-
way below the surface of the ground is marked
27 feet, whereas it measures, according to the vertical scale
of the said Section, 25 feet, 6 inches, or there-
about.

And inasmuch as on the Plans and Sections depo-
sited as aforesaid, the height of the Railway over or
under the surface of every turnpike-road, public
carriage-road, navigable river, canal or railway, is
not marked at every crossing thereof, in the following
instances; viz., public carriage-road, No. 14,
parish of Hampstead Norris; River Kennet, parish
of Newbury; a navigable canal or basin adjoining the
said River Kennet, parish of Newbury, No. 29,
17m, in the parish of Thatcham; a public carriage-
road, No. 41, in the parish of Burghclere; a public
 carriage-road, No. 58, in the same parish; a turn-
pike-road, No. 56, in the parish of Whitechurch.
so deposited as aforesaid, according to the vertical scale of the said Sections deposited with the said Clerk of the Peace for the counties of Oxford and Northampton respectively, have no vertical scale specified thereon.

And inasmuch as the termination of the Railway as shown upon the Plans, and the termination of the Railway as shown upon the Plans deposited with the said Clerk of the Peace for the counties of Oxford and Northampton respectively, have no vertical scale specified thereon.

And inasmuch as the said termination at the point of junction with the London and Birmingham Railway, as shown upon the said Plans deposited with the Clerks of the Peace.

And inasmuch as the said termination at the point of junction with the London and Birmingham Railway, upon the Plan deposited in the Private Bill Office of the House, does not agree with the point of junction upon the Plans deposited with the Clerks of the Peace.

And inasmuch as several properties are wrongly shown upon the Plans as within the parish of Greens Norton and the parish of Towcester respectively.

And inasmuch as the property No. 3, in the parish of Bisworth, is referenced as owned and occupied by the London and Birmingham Railway Company, the Duke of Grafton being the owner, and Benedict Reno the occupier thereof.

And inasmuch as several real properties lying within the limits of deviation are not numbered on the Plan, or referred to in the Book of Reference: At 9 furlongs, in the parish of Bisworth, a grass field; at 9 furlongs, a footpath, in the parish of Abthorpe, a two-road-side gardens; at 6 miles 3 furlongs, parish of Abthorpe, an arable field; at 6 miles 9 furlongs, parish of Abthorpe, an arable field; at 16 miles 3 furlongs, an arable land and pasture field; at 16 miles 4 furlongs, hamlet of Grimsbury, a garden; at 17 miles 1½ furlongs, parish of Chalcombe, a field and rick-yard; at 16 miles 3½ furlongs, parish of Chalcombe, a pasture field; at 16 miles 4 furlongs, hamlet of Grimsbury, a garden; at 19 miles 4½ furlongs, hamlet of Grimsbury, parish of Warkworth, gardens and foot-path; at 20 miles, parish of Warkworth, garden-ground; at 21 miles 3 furlongs, parish of Warkworth, an arable land and pasture field; at 21 miles 6½ furlongs, parish of Towcester, two fields are omitted, and two are wrongly laid down upon the Plan.

And inasmuch as the copies of the Sections deposited with the said Clerks of the Peace, the height of the Railway above the datum line is not marked at a change of gradient at 3 miles 61 chains, and upon the said copies of the Sections, 15 miles is marked as 5 miles, 16, 6, and 26, 56.

And inasmuch as the public carriage-roads and turnpike-roads following shown upon the Plans, are not noted on the Sections; at 23 miles 79 chains, 27 miles 27 chains and 31 miles 13 chains.

And inasmuch as the surveys of highways are wrongly stated in the Book of Reference as the owners of a pasture field, garden, foot-path and watercourse numbered 24, in the parish of Chalcombe, belonging to Charles Wykeham Martin, Esquire, M.P., and the name of Amos Chimer is wrongly stated as the owner of a garden and orchard, No. 35, in the same parish, belonging to Charles Wykeham Martin, Esquire, M.P.; but it was proved to the Committee that Amos Chimer, being the occupier and lessee, had stated himself to be the owner, to the promoters of the Bill, and that John Bennett is wrongly stated as the owner of a garden, No. 61, a pasture field, No. 62, cottage, garden and shed, No. 64, and farmhouse, yard, barns, garden, hovel and buildings, No. 65, in the said parish, belonging to Charles Wykeham Martin, Esquire, M.P.; but it was proved to the Committee that the promoters of the Bill were misled by information obtained upon the premises from William Bennett, the brother of the lessee and occupier; and that Henry Norris, in a wrong
Section Committee on Standing Orders.

Mr. Strutt reported from the Select Committee on Petitions for Private Bills. That in the case of the Petition for the Worcester, Hereford, Ross, and Gloucester Railway Bill, the Standing Orders had not been complied with, inasmuch as the memorandum of the radius of every curve not exceeding one mile in length, is not noted on the Plan of the said Railway deposited at the Private Bill Office, in furlongs and chains, in the following instances; a curve of three-fourths of a mile radius between the 10th and 11th mile; also a curve of three-fourths of a mile radius between the 5th and 6th mile; also, inasmuch as previous to the presentation of the Petition for the Bill, a sum equal to one-tenth part of the amount subscribed, was not deposited with the Clerk of the Peace for Herefordshire, but that the sum of £11,680, being equal to one-tenth part of the amount subscribed, was deposited with the Court of Chancery in England, on the 26th day of February 1846. Ordered, That the Report be referred to the Select Committee on Standing Orders.

Mr. Strutt reported from the Select Committee on Petitions for Private Bills, to whom several Petitions complaining of non-compliance with the Standing Orders, in the case of the Petition for the Worcester, Hereford, Ross, and Gloucester Railway Bill, were referred; That the Standing Orders had not been complied with, inasmuch as no application in writing was made to Henry Chillingworth in respect of a piece of land, numbered 57, in the parish of Upton Bishop, in the county of Hereford, nor is his name inserted in the Book of Reference deposited with the Clerk of the Peace for Hereford, nor is his name entered in the Book of Reference; but it appeared that the said piece of land was less than a quarter of an acre, and application for information in respect of the ownership of the said field was made at Mr. Chillingworth's house, but he was not at home, and the surveyor to whom the parties afterwards applied gave incorrect information, and notice had been served on Mr. Chillingworth for the field numbered 64, which adjourned the said piece of ground.

And inasmuch as no application in writing was made to the following parties, as owners, lessees or occupiers in respect of their property, nor are their names entered in the Book of Reference; the trustees of the Leominster and Ledbury turnpike-road (H. Milnes, Clerk,) as owners of the turnpike-road, in the parish of Asherton, numbered 8 on the Plan deposited with the Clerk of the Peace for the county of Hereford; Richard Benbow, as occupier of the fields numbered 46, 51, 52 and 53, in the parish of Hanley Castle, in the county of Worcester; but notice had been served on J. Benbow, the brother, and was heard of the mistake from the person who served him with notice for other property; Ann Dance, as occupier of a field numbered 47, in the parish of Great Malvern; William Kirby, as occupier of a field numbered 8, in the parish of Pontivy, in the county of Worcester; but it appeared that due diligence had been used to ascertain the occupier.

And inasmuch as the following properties are omitted from the said Plans, although within the limits of deviation, nor are the names of the owners, lessees and occupiers entered in the Books of Reference, nor have they received application in writing in respect thereof; a piece of land in the parish of Yorkhill, in the county of Hereford, between the properties numbered 3 and 6 on the Plan, Thomas Gallier, has been made the Parish Clerk of such parish, but a deposit has not been made with the Clerk of the chappelry of Mitcombe, being a chappelry within the parish of Bloxham.

Ordered, That the Report be referred to the Select Committee on Standing Orders.
No. 34, in the parish of Eldersfield, is shown on the said Sections to be 98 feet above the datum line, whereas it is no more than 86 feet above it.

And inasmuch as at 18 miles 84 furlongs, the turnpike-road to Hove Bridge, in the parish of Core, in the county of Gloucester, is shown on Section to be 120 feet above datum line, whereas it is not more than 104 feet above it.

And inasmuch as at 10 miles 9 furlongs, the turnpike-road from Gloucester is shown on Section to be 149 feet above datum line, whereas it is there not more than 126 feet above it.

And inasmuch as at 24 miles 60 furlongs, the Herefordshire and Gloucestershire Canal, in the Vineyard-hill North Hamlet, in the county of Gloucester, is shown on Section to be 75 feet, whereas it is there not more than 62 feet above it.

Sir John Yarde Buller reported from the Select Committee on Petitions for Private Bills, to whom a Petition complaining of non-compliance with the Standing Orders, in the case of the Petition for the Liverpool and Bury Railway Bill, was referred; That the Standing Orders had not been complied with, inasmuch as the several Plans relating to the intended Railway, deposited with the Clerk of the Peace for the county of Lancaster, at the Board of Trade, and in the Private Bill Office, describe the said Railway as extending from a point marked A. to a point marked B. on the said Plans, with a Branch diverging from such intended Railway at a point marked C., and extending to a point marked D., but the said Plans do not describe the line or situation of the whole of the said line from C. to D., or show the land that will or may be required for the purposes of such line; inasmuch as such plans do not show the intended breadth of the said line, and no limits of deviation are marked upon the said Plans in reference thereto; but the Promoters stated that it was their intention not to make the Branch from C. to D.

And inasmuch as the said line from C. to D., as described in the said Plans, is intended to cross a certain street or public carriage-road, situate in the parish of Walton-on-the-Hill, and numbered on the said Plans 38, in the said parish, by means of an embankment, but the extreme height of such embankment over the surface of the ground of such street or road is not marked in the Sections of the Railway, nor is the height of the Railway over the surface of the ground of such street or road, or the height or span of any bridge or viaduct carrying the Railway over the said street or road, marked in figures at the crossing thereof; and it does not appear from the said Sections how the said street or road crosses a certain carriage-road in the township and parish of Liverpool, called Regent’s-road, and such road is not numbered in any of the said Plans and Sections, and the height of the Railway over the surface of such road, and the mode of crossing the same, whether on the level or otherwise, and whether by embankment or viaduct, and whether any alteration in the present level or rate of inclination of the said road is intended, are not stated and do not appear upon the said Sections, nor are there any cross Sections in reference to such crossing, nor are the height and span of the arch of any bridge or viaduct over the said road, or the extreme height of any embankment over the surface of the same, marked in figures at the crossing thereof, but the Promoters stated that they intended to abandon the line from E. to F.

And inasmuch as the property numbered 18, in the parish of Liverpool, within the limits of deviation, is described in the said Books of Reference as a public road or street, whereas the said property is in fact not a road or street, and is the property of the Liverpool Dock Trustees, and they have not been served with notice in respect thereof; but the owners of the property No. 4, which adjoined, had received notice, and that No. 4 comprised the property which was to be crossed by the Railway, and there are no Sections given thereof, but the Promoters stated that they did not intend to make any side Branches, and that they were willing to strike them out of the Bill.

Ordered, That the Report be referred to the Select Committee on Standing Orders.

Mr. Estcourt reported, That the Committee of Selection having, on the 27th of March last, found it impracticable to perform the duties of their office, and to take the usual preliminary measures for the formation of several Committees on Railway Bills, and having given to the Members selected due notice of their appointment, and transmitted to each a copy of the twelfth of the Resolutions agreed to by the House the name of Mr. William Smith O'Brien, as in respect of such omissions, adefaulting Member.

But as the circumstances attendant upon the default of Mr. Smith O'Brien are of a peculiar character, the Committee of Selection consider it incumbent upon them to report specially to the House a detail of the facts which have occurred.

On Friday the 27th of March, the Committee of Selection being about to appoint certain Committees on Railway Bills, which should commence their sittings on Monday the 27th of this instant April, gave notice to the several Members, of whom the Honourable Member for the county of Limerick was one, that it would be necessary for them to be in attendance on the fourth day beginning on Monday the 27th of April, for the purpose of serving, if required, on a Railway Committee.

On Friday, the 3d of April, the Chairman of the Committee of Selection received from the above mentioned Honourable Member the following letter, dated the 3d of April 1846, inclosing the copy of another, dated the 30th of June 1845, to which Mr. Smith O'Brien referred as explanatory of the motives which induced him to decline attendance on any Private Bill Committee not relating to Ireland.

Committee of Selection.

Ordered, That the Committee on the Glasgow Harbour Grand Junction Railway Terminus Bill have leave to make their Report this day.

Glasgow Harbour Grand Junction Railway Terminus Bill.

Mr. Estcourt reported, That the Committee of Selection having, on the 27th of March last, found it impracticable to perform the duties of their office, and to take the usual preliminary measures for the formation of several Committees on Railway Bills, and having given to the Members selected due notice of their appointment, and transmitted to each a copy of the twelfth of the Resolutions agreed to by the House the 12th of last February, with a blank form of the declaration therein required, and a request that he would return it with his signature Vol. 101.
I have fully considered, and am prepared to abide that alternative. I have the honour to be, Your obedient servant, To the Chairman William S. O'Brien. of the Committee of Selection. Oxford and Cambridge Club, Pall Mall, June 30, 1846.

Sir, I had the honour of receiving, on Saturday afternoon, a letter dated 29th of June, and signed "Henry Creed," to the following effect:—"I am directed by the Committee of Selection to inform you that your name is on the list from which Members will be selected to serve on Railway Committees, which will commence their sittings in the week beginning Monday, the 14th of July, during which week it will be necessary for you to be in attendance, for the purpose of serving, if requested, on a Railway Committee."

I trust that the Committee of Selection will not think that I am prompted by any feeling of disrespect towards them, or towards the House of Commons, when I inform them that it is my intention not to serve on any Committees, except such as may be appointed with reference to the affairs of Ireland.

I accepted a seat in the House of Commons in the hope of being thereby enabled to assist in improving the condition of the land of my birth. So long as I continued to believe that I could serve Ireland effectually in the House of Commons, I shrank from none of the labours which are connected with the performance of my Parliamentary duty.

I have reason to believe that in this opinion a large majority of the Irish Members, though of little avail in the British Parliament, might, if applied in Ireland, with prudent and effectual exertion, be obtaining for Ireland, and that our national interests can be protected and fostered only through the instrumentality of an Irish Legislature.

Since this conviction has established itself in my mind, I have felt persuaded that the labours of the Irish Members, though of little avail in the British Parliament, might, if applied in Ireland, with prudent and effectual exertion, be obtaining for Ireland the people their national rights.

I have reason to believe that in this opinion a very large majority of my constituents concur. To them alone I hold myself responsible for the performance of my parliamentary duty. If they have disapproved of my continued absence from the House of Commons, I should have felt it my duty to have withdrawn from the representation of the county of Limerick; but I have the satisfaction of thinking, that I not only consult the interests, but also comply with the wishes of my constituents, in declining to engage in the struggles of English parties, or to involve myself in the details of English Legislation.

While such have been the general impressions under which I have absented myself during nearly two years from the House of Commons, I yet do not feel myself at liberty to forego whatever power of resistance to the progress of pernicious legislation my office of representative may confer upon me. Upon the present occasion I have come to London for the purpose of endeavouring to induce the House of Commons, or rather the Government, who appear to command the opinions of a large majority of the House, to modify some of the Irish measures now before Parliament in such a manner as to render them beneficial, instead of injurious to Ireland.

Desiring that none but the representatives of the Irish nation should legislate for Ireland, we have no wish to interfere with the affairs of England or Scotland, except in so far as they may be connected with the interests of Ireland, or with the general policy of the empire.

In obedience to this principle, I have abstained from voting on English and Scotch questions of a national nature; and the same motive now induces me to decline attendance on Committees on any Private Bills, except such as relate to Ireland.

I am prepared to abide with cheerfulness the personal consequences which may result from the course of conduct I am about to adopt. I speak with great diffidence upon any question of a legal kind; but I am supported by very high professional authority, when I suggest to the Committee that no power was delegated to the House of Commons, by the Act of Union, or by subsequent Statutes, to compel the attendance of Irish Members on the deliberations of the British Parliament.

Neither do I find that any authority has been given by statutory enactment to the House (except in the case of Election Petitions), to enforce the attendance of Members upon Committees.

I refrain, however, from arguing legal questions which may be raised before another tribunal. I think it should become necessary and advisable to appeal from the decision of the House of Commons to the Courts of Judicature, and conclude by assuring the Committee that I take the course which I propose to adopt, not from any desire to defy the just authority of the House of Commons, but in obedience to my sense of the duty which I owe to my constituents and to my country.

I have the honour to be, Your obedient servant, To the Chairman William S. O'Brien. of the Committee of Selection.

On Monday, the 6th of April, the letter of Mr. Smith O'Brien, with its inclosure, was laid before the Committee of Selection, and under their instruction the Chairman addressed to the Honourable Member the following letter, dated the 6th of April 1846.

Sir, House of Commons, Committee of Selection, Monday, April 6, 1846.

Hearing had the honour to receive on Friday last your letter of that day's date, in which "with reference to your having received the usual communication of your name being placed on the list from which Members will be selected to serve on Railway Committees, which will commence their sittings in the week beginning Monday, 27th April," you state reasons for "declining to serve on any Committees on Private Bills, except such as relate to Ireland," and, of course, on any Committees on Railway Bills about to be appointed from that list, I this day availed myself of the first sitting of the Committee of Selection, since the receipt of your letter, to submit its contents to them, and I am instructed to inform you that the Committee cannot, in the reasons which you allege for not serving, recognize such "an excuse," as (in accordance with the spirit of the Resolutions agreed to by the House on the 12th of last February) would justify their "deeming it sufficient" to exempt you from serving, should you be selected for that purpose from the list of Members whose attendance is required in the week commencing on the Monday 21st of April.

But, as it appears from your letter that at this particular juncture your time and attention are engaged by a subject before Parliament of primary importance to Ireland, I am further instructed by the Committee of Selection to state that, adhering to their usual practice of consulting, as far as may be consistent with a faithful and impartial discharge of their duty, the interests of the several parties whom they may find it incumbent upon them to select, it will afford them great satisfaction to avail themselves of this timely communication with you, to make an arrangement by which your attendance may
may be postponed to a later period, should your convenience be thereby accommodated; provided you will have the kindness to give me an early intimation of any week during the month of May when it may be less inconvenient to you to be in attendance.

In the event, however, of their receiving no such intimation from you, the Committee of Selection will presume that no accommodation would be afforded to you by such a postponement as I have alluded to, and will consider it their duty to abide by the arrangement which will be announced in the Votes of Wednesday.

I have the honour to be, Sir,
Your obedient humble humble Servant,
T. G. Bucknall Escourt,
Chairman of the Committee of Selection.

William Smith O'Brien, Esq.
Oxford and Cambridge Club, Pall Mall.

On the same day the Committee of Selection adjourned for the Easter Recess.

On the 7th of April the Chairman received the subjoined reply to his letter of the 6th instant, which he submitted to the Committee of Selection on Thursday, the 23d of April, when they resumed their sittings after the Recess:—

Oxford and Cambridge Club, Pall Mall,

Sir, April 7, 1846.

I have had the honour of receiving your obliging letter of yesterday's date, in answer to mine of the 3d instant.

I feel exceedingly indebted for the courtesy and consideration evinced by the Committee of Selection in suggesting the arrangement proposed in your letter; but since my objection to serve upon Committees on English and Scotch Private Bills is founded upon the reluctance at present subsisting between my country and Great Britain, and not upon a regard for my own personal convenience, I must refer to my former communications as announcing my final determination.

I have the honour to be,
Your obedient faithful Servant,
Of the Committee of Selection.

The Committee of Selection having received from Mr. Smith O'Brien a letter, in which he expressed his doubt whether he could "deem sufficient," nor any intimation of a wish that an arrangement should be made, by which his attendance should be postponed to a later period, but, on the contrary, having had impressed on him, in the letter of the 7th instant, above alluded to, Mr. Smith O'Brien's desire that his former communications should be considered as announcing his final determination not to serve on English and Scotch Private Bills Committees, and consequently to decline serving upon the Committee on Group No. 11, which is wholly composed of Scotch Railway Bills, conceive that they have no alternative but to report to the House the non-compliance of Mr. Smith O'Brien with the Orders and Rules adopted by the House in conformity with the Resolutions agreed to on the 12th of February 1846.

Ordered, That the Report do lie upon the Table; and be printed.

Mr. Spooner reported from the Committee on Group (G.) of Railway Bills, and to whom several Petitions against the Bills comprised in the said Group were referred: That in the case of the Glasgow Harbour Grand Junction Railway Bill, they had heard counsel in support of the said Petitions, and had also heard counsel in favour of the Bill; and had examined the allegations contained in the Preamble of the Bill, but that the same had not been proved to their satisfaction.

Ordered, That the Report do lie upon the Table; and be printed.

Mr. Greere reported from the Select Committee on Petitions for Private Bills, to whom the Report on the Caledonian Extension Railways Petition was re-committed, and who were instructed to enter-
tain the Petition of William Maxwell Alexander and
others, and to hear the Petitioners, by their agents
and witnesses, on the allegations therein contained
;
That the Standing Orders had not been complied
with, inasmuch as the public-road, No. 40, in the
parish of Newtown-upon-Ayr, is described in the
Book of Reference as a turnpike-road, but the same is not
shown upon the Section; and inasmuch as No. 64,
in the parish of Newton-upon-Ayr, is described in
the Book of Reference as a road occupied by the
public, but the same is not shown upon the Section;
and inasmuch as with respect to the Eastern Exten-
sion, the datum line is not referred to any fixed point
stated in writing on the Section near either of the
termini; and inasmuch as the Section of the said
Eastern Extension does not truly show the surface
of the ground marked on the Plan, as the said sur-

tions complaining of non-compliance with the Stand-
ing Orders, in the case of the Petition for the
Bideford and Tavistock Railway, were referred; That the
Standing Orders had not been complied with, insa-
much as the Copy of the Subscription Contract de-
posited in the Private Bill Office was incorrect, the
sum of £.250 being inserted for 50 shares in the
name of Holmes, instead of £.1,250; and inasmuch as
in the said Contract deposited in the Private Bill
Office, the usual signatures of parties to the
deed, and the names of witnesses thereto, are omitted;
and also inasmuch as there was no Section depo-
sited with the Clerk of the Peace for Devon,

of the Railway is shown to be in 22 feet cutting, or thereabouts,
whereas, according to the actual surface
of the ground, and the level of the proposed Rail-
way, as referred to the datum line shown on the said
Section, the said Railway would be on an embank-
ment of 26 feet, or thereabouts.

And inasmuch as the distances on the datum line
are not correctly marked in miles and furlongs, in
the following instances; viz.:

The 4th furlong of the 16th mile measures 900 links; the distance between the 10th and 12th miles measures 16 furlongs; the

A Petition of the there-undersigned Owners, Occupiers of property, and other Inhabitants of the town and neighbourhood of Southampton, was presented, and read; setting forth, That the commercial and general traffic of Southampton have of late years vastly increased, and are still progressing, and in consequence thereof several new lines of Railways have been projected towards the Port; that Southampton is situated on a tongue of land, and the principal space for the accommodation of its increasing population is towards the North, from which quarter the present line of the London and South Western Railway enters the town, and thence passes to the terminus at the South, where it is immediately connected by tram-roads, with the capacious Docks of the Port; that such terminus is most eligibly situated for the arrival and departure of goods traffic, and the business connected therewith, and is also well adapted for the accommodation of a considerable portion of the passenger traffic; but that for the convenience of another large section of the passenger traffic, another terminus in a central part of the town would be of great advantage, even if no other line of Railway than the London and South Western Railway had been projected in connection with the said town; but the Petitioners state to the House that several new lines of Railway proposed to be connected with Southampton have been recently brought to the consideration of the said Petitioners, and that the Petitioners and the inhabitants of the said town are therefore strongly convinced that a passenger terminus, to be situated in the upper part of the town, adapted for the accommodation of all the several lines with which Southampton is or shall be hereafter connected, would greatly promote the comfort and convenience of the inhabitants of the town and neighbourhood, and the general convenience of the public, while for those intending immediate embarkation, and to residents at the southern part of the town, the present terminus would be available; that a suitable site for the proposed purpose may be obtained in a situation involving but little interruption to the public road; and, comparatively little interference with private property, whereas if distinct termini should be established by each future line, in addition to the present southern terminus, considerable interference would be occasioned, a waste of expenditure of capital, and an unnecessary interference with the water frontage, and approaches to the quays of the town, must inevitably result; and praying the

most eligibly situated for the arrival and departure

of the passenger traffic, another terminus in a cen-

tral part of the town would be of great advanta-

even if no other line of Railway than the

London and South Western Railway had been pro-

jected in connection with the said town; but the

Petitioners state to the House that several new

lines of Railway proposed to be connected with

Southampton have been recently brought to the

consideration of the said Petitioners, and that the

Petitioners and the inhabitants of the said town

are therefore strongly convinced that a passenger

terminus, to be situated in the upper part of the
town, adapted for the accommodation of all the

several lines with which Southampton is or shall

be hereafter connected, would greatly promote the

comfort and convenience of the inhabitants of the
town and neighbourhood, and the general conve-

immediate embarkation, and to residents at the

southern part of the town, the present terminus

would be available; that a suitable site for the

proposed purpose may be obtained in a situation

erable interference would be occasioned, a waste

for the object of the Petitioners, and will withhold

the Parish Clerk of the said parish, for that the said last-mentioned road, cottage and garden are not comprised in the Plan deposited with the said Parish Clerk.

And inasmuch as a piece of land in the parish of Great Bedwyn, No. 2, on the said Plan, ought to have been represented as divided by a fence; and inasmuch as the whole of the said field is stated to belong to the Marquis of Apsleybury as owner, and Thomas May and Thomas Potter, trustees of Phoebe May, a minor, as occupiers, whereas a portion of the same should have been represented as belonging to the trustees of Coe's Charity, and as occupied by Phoebe May, the elder.

And inasmuch as Thomas Church is erroneously inserted in the Book of Reference as the occupier of No. 45, on the said Plan, and that the Church is stated to be the occupier of No. 56, whereas Henry Cox ought to have been inserted as the occupier of both the said fields.

And inasmuch as it appeared that Thomas Henry Pike was the occupier of No. 41, on the said Plan, in the parish of Manningford Abbots, but his name is not inserted in the Books of Reference.

And inasmuch as a piece of land being part of a wood of forests, numbered No. 13, 14, 15, 16, 17, 18, 20, 21 and 22, in the parish of Manningford Abbots, separated from the same by a small ditch, is not separately numbered or delineated on the said Plan, nor is it entered or referred to in the Book of Reference.

And inasmuch as certain buildings, No. 14, on the said Plan, are described in the Book of Reference as coppice and plantation.

And inasmuch as the name of Stephen Pearse, the owner of property, No. 26, in the tything of Manningford Bokon, on the said Plan, is omitted from the Book of Reference, nor has the said Stephen Pearse received notice of application in respect of the same.

And inasmuch as a certain piece of glebe land in the said parish of Beechingstoke, lying between properties numbered 23 and 24 on the said Plan, is not numbered on the Plan or referred to in the Book of Reference.

And inasmuch as Leonard Perry was the occupier of property, being glebe, in the said parish of Beechingstoke, numbered 30 on the said Plan, but that the name of the said Leonard Perry is not inserted in the said Book of Reference, nor has he received any notice of application in respect of the same.

And inasmuch as Joseph Gilbert was and is the lessee of certain property in the said parish of Beechingstoke, numbered 35 on the said Plan, but that the name of the said Joseph Gilbert is not inserted in the said Book of Reference, nor has he received any notice of application in respect of the same.

And inasmuch as with respect to property, No. 14, in the parish of Beechingstoke, the name of Thomas Fulford, who is the copholder, and of Samuel Robins, who is the occupier, are not inserted in the Book of Reference, nor were they served with any notice of application.

And inasmuch as the Plan and Book of Reference deposited with the Parish Clerk of Westbury, do not contain or refer to certain property in the tything of Westbury in the county of Wilts, which tything is part of the said parish of Westbury, but that the promoters had deposited the copy of the said Plan, &c., with the Church Clerk of the hamlet of Bruton.

And inasmuch as the height of the Railway under the surface of the public carriage-road at 9 miles 1½ furlongs is not marked at the 'crossing thereof in figures on the said Section.

Mr. Strutt reported from the Select Committee North Devon on Petitions for Private Bills, to whom several Petitions complaining of non-compliance with the Standing Orders, in the case of the Petition for the North Devon Railway Bill, were referred; That the Standing Orders had not been complied with, inasmuch as in the first notice published in the month of November, in the several newspapers and the London Gazette, the parish of Monkleigh is omitted.

And inasmuch as duplicate copies of the Section were not deposited with the Clerks of the Peace for Devon and Somerset, and with the Board of Trade, on or before the 30th November last.

And inasmuch as the Section deposited with the Clerk of the Peace for Cornwall, on or before the 30th November last, is so worthless as to be wholly useless, but it appeared that subsequent deposits had been made, and a notice had been delivered to the several Clerks of the Peace with the last-mentioned Sections, and that between the 12th and 31st of December notices of the fact of a second deposit had been published in the London Gazette and county newspapers; evidence was tendered of the inaccuracy of the second deposit, but the Committee refused to entertain it; it was alleged by the promoters that the second deposits were duplicates of that in the Private Bill Office.

And inasmuch as there are two parties respectively named William Toppan, and two parties respectively named John Hazan, owners or occupiers of properties intended to be taken; that one of each such parties was duly served with notice on or before the 31st December last, and the other of each such parties was served with notice in the month of January last.

And inasmuch as a subscription has not been entered into, under a contract, to the extent of three-fourths the amount of the estimate deposited in the Private Bill Office, whereas the amount of the estimate deposited in the Private Bill Office, and that between the 12th and 31st of December notices of the fact of a second deposit had been published in the London Gazette and county newspapers; evidence was tendered of the inaccuracy of the second deposit, but the Committee refused to entertain it; it was alleged by the promoters that the second deposits were duplicates of that in the Private Bill Office.

And inasmuch as the promoters have lodged in the Private Bill Office a public road situate at 4 miles 6 furlongs on the Radstock Colliery Branch, is not marked on the said Section.

Vol. 101.
marked on the first-mentioned Plans as being 52 miles, appears on the Somerset Plan to be 52 miles 2 furlongs; but it appeared that the 52 miles 2 furlongs was a correction from the lithographic Plan.

And inasmuch as on the Plan deposited with the Clerk of the Peace for Somerset, the mile which follows the 52d mile is marked as 55, instead of 52.

And inasmuch as the point marked as 68 miles on the Plans deposited with the Clerks of the Peace for Devon and Cornwall, is marked 68 miles 1 furlong on the Plan deposited with the Clerk of the Peace for Somerset.

And inasmuch as on the Plan deposited with the Clerk of the Peace for Cornwall, no miles or furlongs are marked from the 56th to the 68th mile.

And inasmuch as the Plans deposited with the Clerks of the Peace for Devon and Cornwall differ from that deposited with the Clerk of the Peace for Somerset, inasmuch as on the Plan deposited with the Clerk of the Peace for Cornwall, no miles or furlongs are marked from the 56th to the 68th mile.

And inasmuch as the Plans deposited with the Clerks of the Peace for Devon and Cornwall differ from that deposited with the Clerk of the Peace for Somerset, inasmuch as on the Plan deposited with the Clerk of the Peace for Cornwall, no miles or furlongs are marked from the 56th to the 68th mile.

which arrangement was pressed upon the Committee by the Promoters of the Edinburgh and Leith Waterworks Bill, and was not disputed by the Promoters of the Edinburgh Waterworks Bill, the Committee being informed that the only point remaining for adjustment was the nature and amount of the security to be provided for a dividend of four-and-a-half per cent. on the stock of the existing Company; under these circumstances the Committee would not have been prepared, even if the evidence adduced by the Edinburgh & Waterworks Company had fully supported the statements of their counsel, to report to the House in favour of their Bill; but they are of opinion, and beg leave to report, that the consideration of both Bills should be suspended, in order to afford opportunity for the introduction of a Bill to effect the desirable object of supplying those important towns with Water by means of a public trust; and they also recommend that every facility consistent with the forms of the House should be given to such a Bill during the present Session.

Mr. Speaker acquainted the House, that he had received a Letter from William Smith O'Brien, Esquire; and the same was read, as followeth:—

SIR,

I take the liberty to call your attention to the following correspondence between the Clerk of the House of Commons and myself:—

Dear Sir,

I beg to call your attention to Standing Order No. 4, page 13, and shall feel obliged if you will inform me where I can find the appointment of a Committee of Selection, pursuant to that Order, as I have in vain searched for it in the Votes of the House of Commons.

It being my intention to cause the attention of the House of Commons to be directed to this correspondence To-morrow, may I request that you will send me an immediate and official reply.

I have the honour to be,
Your obedient faithful Servant,

de[illegible] Smith, Clerk of the House of Commons.

To this note I received the following Answer:—

Dear Sir,

In answer to your note delivered to me by Mr. Mahony, I consider it will be sufficient for me to say, that the Committee of Selection is appointed and named by the Standing Order No. 4, and that it was not considered necessary at the beginning of this Session to read that Order, as has sometimes been done, and for the House to make an Order, That the Committee of Selection be appointed accordingly. You will therefore not find any entry in the Votes.

Your obedient, faithful Servant,

John Henry Ley.

Mr. Ley's Letter confirms my conviction, that the Committee of Selection was not appointed for the present Session, in due conformity to Standing Order No. 4, which is worded as follows:—

"That a Committee be appointed, at the commencement of every Session, consisting of the Chairman of the Select Committee on Standing Orders, and of the Chairmen of the Committee and of the Sub-Committees on Petitions for Private Bills, of whom Three shall be a Quorum; and such Committee shall be denominated 'The Committee of Selection.'"

It is manifest from Mr. Ley's Letter, that there is no Evidence in the authentic Records of the House of Commons, that Mr. Estcourt and the other Gentlemen who have acted as a "Committee of Selection," have received due authority from the House to act in that capacity during the present Session.

Under these circumstances, all the proceedings which have led to my Imprisonment have been void and informal, ab initio. I therefore respectfully claim my immediate discharge.

I cannot conclude this Letter without recording my solemn Protest against the conduct of the House of Commons, in having subjected me to Imprisonment. Even if the Committee of Selection had been duly constituted, I should still deny that I had violated any Law of the Land, and should therefore regard my Imprisonment as contrary to the Law and Constitution of these Realms.

As I do not desire to throw upon you the responsibility of expressing any opinion upon this case, except under the sanction of the House of Commons, I do not expect an answer to this Letter, but respectfully request that you will do me the favour to lay it before the House of Commons to-day at Five o'clock, and to invite the opinion of the House upon it.

I have the honour to be,
Your obedient, faithful Servant,

To the Right Honourable William S. O'Brien.
The Speaker, &c. &c. &c.

Ordered, That the subject-matter of the said Letter be taken into consideration To-morrow.

Notice being taken, that Forty Members were not present; The House was told by Mr. Speaker, and Forty Members not being present, and it being then after four of the clock. The House was adjourned Bill by Mr. Speaker, without a Question first put, till To-morrow.

Veneris, 22° die Maii;
Anno 9° Victoriae Reginae, 1846.

PRAYERS.

ORDERED, That the Committee on Group Railway Bills, No. 19, of Railway Bills, have leave to sit this day, till five of the clock, during the sitting of the House.

Ordered, That the Report do lie upon the Table, and be printed.

Mr. Shaw reported from the Committee on Group No. 55, of Railway Bills, to whom several Petitions against the Bills comprised in the said Group were referred; That in the case of the Manchester, Sheffield and Midlands Junction Railway Bill, they had heard counsel in support of several of the said Petitions, and had also heard counsel in favour of the Bill; That they had inquired into the several matters required by the Standing Orders on Railway Bills; and that the Committee had examined the allegations of the Bill, and found the same to be true; and had gone through the Bill, and made Amendments thereunto.

Ordered, That the Report do lie upon the Table; and be printed.

A Petition of Sir Isaac Lyon Goldsmid, Baronet, Chairman of the Committee of Management of the North Kent Railway Company, and Members of said Company, was presented, and read; setting forth, That the Petitioners are Promoters of a Bill to authorize the making a Railway from London to Dover and Deal, called The North Kent Railway, which Bill was, on the sixteenth day of February last, read a second time, and referred (together with certain Bills promoted by the South Eastern Railway Company) to a Committee of the House; that the North Kent Railway, projected by the Petitioners, has been laid out to give a direct line of Railway communication between the metropolis and the populous and important district of North Kent ; that the line is proposed to pass through the ranges of chalk and sand hills, and can only be served by that line by a very indirect and circuitous mode of communication; that it is a district well entitled from its extent and population to a distinct and independent line of Railway; that the wishes of the public in this respect have been consistently and repeatedly expressed at public meetings held at Dover, Deal, Canterbury, Faversham, Sittingbourne and Rochester, at all of which resolutions were agreed to in favour of the line of Railway-proposed by the Petitioners; that the present South Eastern Line was not laid out with a view to accommodate the district of North Kent, a fact conclusively shown by the evidence produced in support of the South Eastern Railway Bill in One thousand eight hundred and thirty-six; that a North Kent Line was brought forward in the year One thousand eight hundred and thirty-six, at the time when the present South Eastern Line was before Parliament, and by parties entirely unconnected with the South Eastern Company; and, having been referred to the same Committee which sat upon the South Eastern Bill, such Committee reported that in their opinion a North Kent Line was entitled to consideration at a future period, if the same could be accomplished without insuperable engineering difficulties; that such engineering difficulties have been in all respects overcome in the line promoted by the Petitioners; that the South Eastern Company have constructed Branch lines from their Railway to Canterbury and Ramsgate, and to Maidstone, and in the beginning of the year One thousand eight hundred and forty-four they also contemplated further extensions, but they never proposed making a distinct line of Railway from London into the North Kent until the North Kent scheme, promoted by the Petitioners, had been proposed and was about to be brought forward in the year One thousand eight hundred and forty-four; that in the year One thousand eight hundred and forty-four a Company was formed called The London, Chatham and North Kent Railway Company, which became the basis of the present Company, the object of which was to make a Railway from London, through Chatham and Faversham to Ramsgate, and which, by reason of the passing of the South Eastern Bill for their Branch Railway from Ashford, through Canterbury, to Ramsgate, was changed, and proposed to be carried on to Canterbury, with an Injunction of Chatham, which was the Branch submitted to Parliament last Session, but which failed; as the Petitioners believe, because the same had not an independent London terminus, and because it was not proceeded on the south side of the Thames, near Southwark Bridge, and to pass through Woolwich, Dartford, V.O.L. 110.
same district to Chilham, near Canterbury, but, by reason of the haste with which the plans were got up, they were unable to pass the Standing Orders of the House as a competing project to the North Kent scheme; that the Petitioners, towards the end of last Session, publicly announced their intention of renewing their application to Parliament in the present Session, and proposed to call a railway from London through Chatham and Canterbury; to Deal and Dover, with Branches to Maidstone and Sheerness, and the present North Kent Railway Bill has been introduced in accordance with such intention; that the South Eastern Company, following the Petitioners' footsteps, brought in three Bills in the present Session for a line of Railway from London, through Chatham and Canterbury, to Dover, with Branches to Sheerness and Maidstone, very similar to the line proposed by the Petitioners' Bill, though in some respects less direct, and, as the Petitioners believe, inferior in its engineering character; that such Bills were referred to the Committee, appointed to sit upon Group 14, and such Committee commenced their sittings on Monday the sixteenth March last, and continued their sittings, with the exception of a Bill for the seventh of May instant; that, at the commencement of their proceedings, the Petitioners were prepared to adduce the strongest evidence as to the existing and proposed North Kent Line, and also as to the expediency and urgent want of Railway communication in that district; but the Committee intimated that such proofs were not necessary, and, as the Petitioners understood such proofs to appear to them sufficiently manifest, such line of proof was not further pursued; that, during the whole of the proceedings it was never suggested by any party that a line of Railway through North Kent was not requisite; that the line proposed by the Petitioners was proved to have been well laid out, and was in other respects supported by the evidence (in addition to that of Mr. Vignoles, the engineer of the line), of Mr. Locke, Mr. Brunel, Mr. Miller and Mr. Henkshaw, engineers of eminence; that, upon his second examination on the rebuuting case, after the case of the South Eastern Company had been gone through, Mr. Locke stated that, having considered the evidence given by the engineers of the South Eastern Company, and the reasons for their opinion, he adhered to the opinion he had previously given as to the North Kent Line; that the North Kent Line was supported by no other engineering witnesses of the South Eastern Company than that of the two joint engineers of the South Eastern Line; and also because both the counsel and engineering witnesses of the South Eastern Company had stated, in the course of the proceedings, that such line had been abandoned, and such consent was upon such objection refused to be received; that the eighth of May last, the Committee, after deliberation, stated that they had come to the determination to receive further evidence with regard to the South Eastern Line; that the Northern Loop round Blackheath, and another line branching off Lewisham to the north, and passing round Blackheath, and through Charlton, Woolwich and Berith, to Dartford, called the Southern Loop, and another line branching off Lewisham to the north, and passing round Blackheath, and through Charlton, Woolwich and Berith, to Dartford, and which was called their North Kent Line, and there forming a junction with the main line; that the line through Greenwich Park was laid down on their plans from the Greenwich Railway to and through Greenwich Park, to a point of junction with their North Loop, near Woolwich; that the Committee, after adjournment, to receive the additional evidence, the consent of the Board of Admiralty had been obtained, although the chairman more than once expressed a desire to know the reason why the Admiralty had objected to the passage of the Railway through Greenwich Park; and the Petitioners believe that the manner in which the chairman expressed himself on these occasions operated as an inducement to the South Eastern Company to renew their efforts to obtain that consent which had been repeatedly refused by the Admiralty Board; that the Committee having, after May adjournment, to receive the additional evidence, the consent of the Board of Admiralty was put in, and the engineers of the South Eastern Company went so far as to prove that the North Kent Line would not cross any turnpike-road or public highway on a level between London and Canterbury, and only two between London and Dover; that the South Eastern Line was proposed to cross, between London and Dover, no less than fifty-five public roads, on the level, of which seven are turnpike-roads; that the line proposed by the Board of Admiralty to the South Eastern Company through Greenwich Park, but which was objected to on behalf of the Petitioners, on the ground that the case had been closed without any regard to such alternative line, and also because the counsel and engineering witnesses of the South Eastern Company had stated, in the course of the proceedings, that such line had been abandoned, and such consent was upon such objection refused to be received; that the eighth of May last, the Committee, after deliberation, stated that they had come to the determination to receive further evidence with regard to the South Eastern Line; that the Northern Loop round Blackheath, and another line branching off Lewisham to the north, and passing round Blackheath, and through Charlton, Woolwich and Berith, to Dartford, called the Southern Loop, and another line branching off Lewisham to the north, and passing round Blackheath, and through Charlton, Woolwich and Berith, to Dartford, and which was called their North Kent Line, and there forming a junction with the main line; that the line through Greenwich Park was laid down on their plans from the Greenwich Railway to and through Greenwich Park, to a point of junction with their North Loop, near Woolwich; that the Committee, after adjournment, to receive the additional evidence, the consent of the Board of Admiralty had been obtained, although the chairman more than once expressed a desire to know the reason why the Admiralty had objected to the passage of the Railway through Greenwich Park; and the Petitioners believe that the manner in which the chairman expressed himself on these occasions operated as an inducement to the South Eastern Company to renew their efforts to obtain that consent which had been repeatedly refused by the Admiralty Board; that the Committee having, after May adjournment, to receive the additional evidence, the consent of the Board of Admiralty was put in, and the engineers of the South Eastern Company went so far as to prove that the North Kent Line would not cross any turnpike-road or public highway on a level between London and Canterbury, and only two between London and Dover; that the
sent of the Admiralty had been given upon condi-
tions that reserved to the Board the right, not only
to regulate the speed and weight of the trains to be
passed through the tunnel, but to stop the passage of
such trains in case it was, in their experience, be-
lieved that the operations carried on at the Observa-
tory would be affected thereby; that the Petitioners,
having been advised that the observations at the
Royal Observatory would indeed be seriously
affected by the vibration that would be occasioned by
the passage of the trains so near as had been proposed,
considered it important to adduce evidence on that
point, not for the protection of the Observatory, as
had been admitted to the Board by the Chairman of
the Committee, but to show that the Railway, if
made, might altogether be liable to be shut up, or
so restricted as to make it comparatively useless
for the accommodation of the public; and the Peti-
tioners therefore applied for, and obtained, the
Order of the House for the attendance of Professor
Robinson, of Armagh, and the Petitioners also pro-
posed to obtain the evidence of Sir James South and
other eminent men, for the purpose of proving by
experience the effects of vibration upon such opera-
tions; but such evidence was declined to be received;
that, in consequence of the intimation from the
chairman of the eighth of May, the Petitioners' coun-
sel and agents conceived that the Committee had not considered an objection which
had been taken to the South Eastern Line from the
Gravesend and Rochester Canal and Railway, which, accord-
ing to Parliamentary usage, was of itself fatal to the
further progress of the Bill, ez.», the omission of no
less a sum than three hundred and fifty thousand
pounds in the estimate of the cost of the Railway,
such sum of three hundred and fifty thousand pounds
being the expense of the purchase and adaptation of the
Gravesend and Rochester Canal and Railway, and
which was to form part of the capital of the Railway, which estimate formed the
basis of the money powers of the Bill, and of the
Parliamentary contract; that the Petitioners' coun-
sel, therefore, during the proceedings subsequent to
the eighth May, and before any formal resolution
was come to with regard to the preamble of either
Bill, called upon the Committee for a decision upon
such objection; and the Petitioners' counsel were
permitted to state the grounds of such objection,
the usage of Committees in regard thereto; that on Monday the eighteenth of May instant, the
Committee met for the purpose of coming to a
decision on the two lines, and after consider-
able deliberation, they declared their determination
to be against the North Kent Company's Bill, and, on the conse-
quence of the decision, the Line to Gravesend was
submitted to the South Eastern Company for that complete and comprehensive
Railway from London, through Chatham and Con-
ternbury, to Dover and Deal; with a communication
to Ramsgate, and with Branches to Maidstone and Sheerness, which, accord-
ing to the North Kent Company, and is now ready for
Parliamentary sanction, and to which, as the Peti-
tioners believe, no valid objection has been shown;
that, in consequence of the objection to the estimate on which
was based the Petitioners' case against the competing scheme, which had been
reduced to a mere line from London to Gravesend;
that the effect of this decision would be, if adopted
by the House, to substitute the small fragment of
accommodation which can be afforded to North Kent
by the reduced scheme of the South Eastern Com-
pany for that complete and comprehensive Railway from London to Gravesend, that the South Eastern schemes having
been all rejected, except the line from the Green-
wich Railway to Gravesend, the Petitioners submit
they were entitled to have their entire scheme, to
which there existed no engineering or technical ob-
jection, reconsidered with reference to and weighed
against the competing scheme, which had been
reduced to a mere line from London to Gravesend;
that the operation carried on at the Observatory
of trains, in case it should be found by experience
that the operation would be used (and probably with success) as
an argument why the making of the lines from
Gravesend eastwards should be entered upon by the
same Company, the consequence of which will be
the placing the whole county of Kent under the
immediate and perpetual monopoly of the South
Eastern Company; that by the adoption of the
North Kent line a wholesome competition would
be secured to the public; that the line from
London and Greenwich Railway to Gravesend, as
recommended by the Report of the Committee, is
proposed to cross on a level twelve public highways,
two of which are turnpike-roads, and one is the
high road from London to Dover; and that, as at
least two trains each way, or four trains in the
Round holiday days, are intended on the line,
the consequence would be a very frequent ob-
struction of these thoroughfares, unless the Ad-
miralty should stop the working of the Railway
under the power reserved to them, which must have
the effect of shutting up the Railway altogether;
that in the Bill, as amended by the Committee, the
capital proposed to be raised for the reduced line
to Gravesend, a length of about twenty miles only,
was fixed at one million pounds, and the borrowing
powers at three hundred and thirty-three thousand
pounds; whereas the capital for the whole line to
Chilham and to Sheerness, with the two loops to
Durford, making altogether the line the same length as
the line occupied by the Gravesend and Rochester Rail-
way, sixty-six miles, was fixed by the Bill as origi-

761.
nally brought in, in accordance with the estimate produced and proved before the Committee, at one million eight hundred thousand pounds only, and the borrowing powers at six hundred thousand pounds; that in fact no evidence has been given of the cost of the line to Gravesend, distinctly from the other portions of the line originally proposed; and that, in particular, no evidence has been given of the engineering expense of the line from Dartford to Gravesend, except that it forms some undefined portion of a sum of four hundred and sixty-two thousand one hundred and fifteen pounds, being the cost of part of the main line originally proposed; and no evidence has been given of the cost of the land between the same points, except that it forms some undefined portion of a sum of three hundred and four thousand two hundred and sixty-five pounds; that the Petitioners submit that it is contrary to the rules and usage of Parliament to increase the capital to be raised for the execution of such a work without any estimate or any evidence of the amount required; and that it may tend to invalidate the liability of the parties who have entered into the parliamentary contract; that the borrowing powers are by the same means increased in an undue proportion, having regard to the amount of the entire sum originally proposed to be borrowed; that the maximum charges for passengers fixed by the said Bill are higher than those proposed to be inserted in the Bill promoted by the Petitioners; that the Petitioners conceive they are entitled, for all the reasons aforesaid, to have their Bill further considered; and that the House will be pleased to take the premises into consideration, and will be pleased to order that the Petitioners' Bill for the North Kent Railway, intituled, "A Bill for making a Railway from London to Dover, with Branches therefrom," and also the South Eastern Bill, "for making a Railway from the Greenwich Railway to Chilham, near Canterbury, with Branches to Sheerness and Faversham Creek," may be re-committed; and that the same may be referred to a full Committee of five Members of the House; and that the evidence taken before the Committee who have already reported on the said Bills may be referred to such Committee; or that the House will be pleased to make such further or other order as to the House shall seem meet.

Ordered, That the said Petition do lie upon the Table; and be printed, at the expense of the Parties, if they think fit.
