there is great neglect by the underbankers and others, whose duty it is to look after the mines and the collieries; air-doors are broken where they ought to be perfect, open when they ought to be shut; in some cases sheets have been hung up instead of doors, and many other neglects occur from over confidence, caused by previous freedom from accident; the Petitioners submit that inspectors should be appointed to visit all the mines, and that some of these inspectors should be men practically acquainted with colliery work; that such inspectors should see that accurate maps are made of all the workings in the mines; that these inspectors should grant licenses to mines where they consider that due provision and care has been used to prevent accidents and insure good ventilation; and that, without such license, no mine should be permitted to work; the Petitioners submit that a public registry should be kept of the owners and tenants of all mines, and that before a mine is licensed, such owners and tenants should sign a declaration that they would do all in their power to enforce the laws for the good management of their mines, and the protection of the lives of the colliers; and that they would attend at all times, and give evidence and information when required by the inspectors or by magistrates; at present, in cases of complaint, it frequently happens that no one knows who is the proper and responsible person to apply to; the Petitioners ask the House to inquire into the truck system, and the manner in which the law made for the purpose of putting down that system is evaded; the Petitioners also ask the House to make a law that the colliers shall be paid for their work by weight and not by measure, and that coals may be weighed by beams and scales, as that mode of weighing is, in their opinion, less likely to be wrong, and would give more satisfaction; and praying the House to take the matters of their Petition into consideration, and to pass laws to carry into effect the wishes of the Petitioners, was presented, and read; and ordered to lie upon the Table.

And the names of the said Thomson Hankey, Esquire, George Cartwright, Edward Stenwyk, and the Reverend Richard Allott, Sarah F. Chalmer, are not contained in the alphabetical lists of subscribers deposited in the Vote Office.

2. A copy of the Subscription Contract duly executed to the extent of three-fourths of the amount of the subscription was not deposited in the Private Bill Office until the 9th of January, but the copy of the Subscription Contract which was deposited before or at the time of depositing the Petition for the Bill was, and is, deficient to the extent of £3,500,000; and the printed copies of the said Subscription Contract deposited in the Vote Office previous to the deposit of the Bill contained subscriptions to an amount less than three-fourths the estimated expense.

3. The Plans deposited with the Clerk of the Peace for the county of Devon do not accurately describe the whole of the lands in or through which the line of Railway will be made, as on the main line of Railway, between a road numbered 68, in the parish of Cardinham, in the county of Cornwall, at about 2 chains beyond the point marked 62 miles 1 furlong, and a fence separating the properties, Nos. 70 and 72, in the same parish, about a half a chain beyond the point marked 62 miles 5 furlongs, a portion of the lands over which the said Railway will pass, being about 1 furlong in extent, is wholly omitted from the said Plan; that is to say, the lands between the said road numbered 68, and the said fence between Nos. 70 and 72, are, in fact, of greater extent by 1 furlong than is shown upon the said Plan, measuring along the centre line of Railway shown on the said Plan; and the said omission in the said parish of Cardinham causes the line of Railway to appear between the said fences lastly referred to, as in length 4 furlongs 7 chains, or thereabouts, whereas it is 5 furlongs 7 chains in length, or thereabouts.

4. In consequence of such error and omission of a furlong on the Plan and Section, the miles and furlongs succeeding 62 miles 6 furlongs to the termination of the line of Railway are incorrectly marked on the said Plans and Sections deposited as aforesaid, and do not agree with the actual length from the termination at which the enumeration of such miles and furlongs commences, and the total length of the said line is incorrect, and the surface of that portion of the ground so omitted, and the level of the work as proposed to be made through the same, are not shown thereon.

5. An occupation-road called Pound-lanes, described on the Plan deposited in the Private Bill Office as contiguous to No. 174 and 175, in the parish of Lifton, in the county of Devon, is not numbered on the said Plan nor described in the Book of Reference.

6. The road numbered 17b on the deposited Plans in the parish of Saint Mary Magdalene, is described in the Book of Reference as a parish-road, and the surveyors of highways, John Nicholas and William Deale, are inserted therein as the owners or reputed owners of such road, whereas the same is a turnpike-road leading from Launceston turnpike-roads and under the management of the trustees of the turnpike-roads, and a parish road leading into the last-mentioned turnpike-road in the said parish, and called the Old Turnpike-road, is not numbered on the Plan, nor described in the Book of Reference, nor are the names of the Surveyors of Highways contained therein in respect thereof.

7. No. 10 in the parish of Mary Tavy is described in the Book of Reference, as "common stream and occupation-road," but upon the Plans deposited in the Private Bill Office certain portions of the said common of waste land are separately numbered 10a, 10b, 10c, 10d, 10e, and there are no corresponding numbers in the Book of Reference.

8. The Plan deposited with the Clerk of the Peace for the county of Devon does not accurately describe certain fields numbered respectively 20 and 23 on the plan of Saint Enoder, as by reason of a fence being laid down out of its proper position, the said field No. 20 is shown to be about 7 chains 30 links in length instead of 5 chains, and No. 23 is shown to be about 2 chains 30 links in length, instead of 4 miles 29 chains, as the same should be as measured along the line describing the centre line of Railway.

9. A portion of a certain parish road in the parish of Launceston is numbered 14 on the said Plan deposited in the Private Bill Office, is described in the Book of Reference as an occupation-road, whereas the same is a parish road; and the same is twice crossed by the said Railway, and its present level or rate of inclination is intended to be altered, but there are no cross Sections to explain the nature of such alterations.

10. With respect to an orchard numbered 21 on the said Plans deposited in the Private Bill Office in the parish of South Petherwyn, Thomas Hothin is inserted in the Book of Reference as the occupier thereof, whereas William Bath is and was on and previous to the 30th day of November last, the occupier thereof, but his name is not inserted in the Book of Reference, nor has any application in writing been made to him in respect thereto.

11. The name of John Surjeant, who is and was previous to the 10th day of November last, the occupier of a small piece of garden-ground 88 feet on the Plan deposited in the Private Bill Office in the said parish of South Petherwyn, and within the limits of occupation-road, is not inserted in the Book of Reference, nor has any application been made to him in respect thereof, and the said property is wrongly described in the Book of Reference, and the names of the real owner and occupier are not contained therein.

12. With respect to a house and gardens numbered on the said Plans deposited in the Private Bill Office No. 32a, in the said parish of South Petherwyn,
Peterwyne, the name of William Harvey, who is lessee of the said property for lives, is inserted in the Book of Reference as the owner thereof, and the name of Thomas Hoskyn, who is and was on and previous to the 30th day of November last the owner thereof, is not inserted therein, and no application in writing has been made to him in respect thereof.

13. No application was made on or before the 15th day of December last, to Thomas Lobb, who is and was on and previous to the 30th day of November last, the owner of a certain piece of pasture land in the parish of Saint Mary Magdalen, in the county of Devon, whereas his mother Mary Garland Payne has received no application in respect of the said pasture land.

14. Petitions of the Proprietors of real and personal estate, Owner and Occupiers of lands, houses and premises situated near or in the immediate vicinity of the proposed line of Railway, praying to not less than four shillings per week to each weaver, arising from the difference between the price of working the webs formerly obtained by them
in Paisley and those procured in Glasgow will be perpetuated; and this deduction from the price of their labour will be still more felt at the present time, when provisions are so high in price, while the weavers' wages do not exceed eight shillings weekly on an average; that the extent to which this loss will be felt may be understood when it is known that three hundred weavers are conveyed by the canal swift boats every week to Paisley; that the Petitioners have had the prospect of direct railway communication with Paisley by the Glasgow, Barrhead and Neilston Direct Railway, and the Branch of that Railway from Barrhead to Paisley, and it is with extreme regret that they learn that a Bill for the formation of that Branch by the Glasgow, Barrhead and Neilston Direct Railway, has been found not proved by a Committee of the House; that if the said Paisley, Barrhead and Hurlet Company Bill were to pass into a law, and the said Railways were constructed, they would be utterly useless to the public and the promoters, because the Railways to be made under the powers of the said Bill, vested in the said Glasgow, Paisley, Kilmarnock and Ayr Railway Company, would plainly fall within the operation of the said agreement, which applies not only to the traffic of Glasgow and Paisley, but of all intermediate places, such as Barrhead and Hurlet; that as a consequence of this, such provisions as are further intended for the purpose of conveying minerals, on which no minerals can be permitted to travel for the long period of seventeen years, during which the said agreement subsists; that independently of this consideration, the Petitioners are of opinion that no further powers ought to be entrusted by Parliament to a Company which has been guilty of such gross infractions of those powers which were originally confided to it, and has subjected the whole trade and manufacture of the said large, extensive and populous district to enormous expense and inconvenience; that the only parties promoting the said Bill, other than the said Glasgow, Paisley, Kilmarnock and Ayr Railway Company, are the owners and lessees of certain collieries situated at Houndshill and Hurlet, on the line of the said Railway between Barrhead and Paisley; that the interest of these coal proprietors and lessees harmonises with that of the owners and lessees of the said Railway Company, who find it to be their advantage to bring Ayrshire coal to Paisley by their circuitous route by Dalry, and by the cost of conveyance effectual means to prevent competition with the Hurlet inferior coal; that the Petitioners feel that the passing of this Bill would be seriously injurious to the Petitioners and the other Hand Loom Weavers of this district, as well as the public generally, and they humbly conceive that public interests ought not in this manner to be sacrificed to private considerations, and they indulge a hope that on the circumstances being made known to the House, the report of the majority of the said Committee will not be confirmed; and praying that when the said Bill comes to be considered on the Third Reading, the same may be rejected, and may not pass into a law.

Mr. Speaker laid upon the Table,—Report from Mr. Smith, one of the Examiners of Petitions for Private Bills; That in the case of the Petition for additional provision in the Midland Railway (Worcester, Hereford, Malvern and Cheltenham Lines) Bill, no Standing Orders were applicable.

CONTENTS OF REPORT.

1.—Compliance with the Resolution of the House of the 22d April.

2.—Section of the main Line.

3.—Section of the Malvern and Ashchurch Line.

4.—The Lothbury Branches.

5.—Malvern and Ashchurch Branch (No. 1.)

6.—Applications to Owners, Lessees and Occupiers.

1.—Compliance with the Resolution of the House of 22d April.

On the 22d April last the House agreed to the following Resolution of the Select Committee of Standing Orders, viz.; That in the case of the Midland Railway (Worcester, Hereford, Malvern and Cheltenham Lines) Petition to deposit amended Sections, and a Petition for a Bill, the parties be permitted to deposit Sections, amended so far only as regards the error in the datum line, reported by the Examiner of Petitions as commencing at 8 miles 5 furlongs and 490 links, and continuing thence to Hereford, and to make the corrections in the vertical heights necessarily consequent thereon, and that they prove before the Examiner that the Railway, as proposed to be constructed under the amended Sections, can be made in such a manner as not to affect in consequence of such amendments any of the lands to be taken for the proposed Railway, otherwise than as stated in the written applications to owners, except for a distance of about 800 yards commencing at or about 8 miles 5 furlongs, as marked on the Plan, and there only with the consent of the owners affected; and that they be permitted to deposit a Petition for a Bill, and that the said Petition be not deposited until 4 clear days after the deposit of the said amended Sections.

Vol. 102.
A certain road numbered 40 in the parish of Cradley, and shown upon the Plan as crossed by the said Railway at or about 10 miles 44 chains 29 links, is marked in writing upon the Section as being at a point at about 1½ chains from its true position thereon. The cross Section referred to by the number 15 on the said Section of the main line is defective and incorrect, and not prepared in accordance with the Standing Orders, as on the said cross Section the present surface of the road, to which the same refers, is drawn as descending on either side from the point of crossing of the Railway at an inclination of 1 in 50, whereas, the true present surface of the said road rises at an inclination of 1 in 37, or thereabouts, on the side towards Great Malvern, and the same should have been so shown.

3.—Section of the Malvern and Ashchurch Line.

At or about the point on the Malvern and Ashchurch Line, 1 mile and 7 furlongs, as measured upon the Section of the said line from the divergence of the said Malvern and Ashchurch Line from the said main line, a road is shown on the said Section, by calculation from the figured heights and rate of inclination, at the height of 354 feet 6 inches, or thereabouts, above the said datum line, whereas the true height of the said road above the said datum line is 345 feet 9 inches, or thereabouts.

At or about the point on the Malvern and Ashchurch Line, 7 miles 1 furlong and 380 links, as measured as aforesaid, a road is shown on the said Section at 205 feet above the said datum line, whereas the true height of the said road above the said datum line is 291 feet 9 inches, or thereabouts.

4.—The Ledbury Branches.

In the case of the Petition for the Bill (No. 1.), the Examiner reported, in regard to the two Ledbury Branches, a continuous error of 8 feet in the Sections, and other breaches of the Standing Orders, and no permission was granted by the House to amend the said Section, copies of the original Sections of the said Branches have been again deposited, with the amended Section of the main line; and in the copy of the Bill annexed to the Petition for the Bill (No. 2.), there are provisions for making the said Branches; it has been stated by the Promoters, that it is not intended to seek for any powers to construct the same, and that these portions of the undertaking are, in fact, abandoned; under these circumstances, although several allegations of error in the Sections of the said Branches, and of other breaches of the Standing Orders in relation thereto, were contained in certain memorials complaining of non-compliance, the Examiner has not deemed it necessary to inquire into and report upon them, but he has thought it sufficient to direct attention to the fact, that the Bill, if passed in its present form, would authorize the construction of Branch Railways of which the Sections are erroneous, and which are practically withdrawn from the consideration of Parliament.

5.—Malvern and Ashchurch Branch (No. 1.)

No amendment of the Section of the Malvern and Ashchurch Branch (No. 1.) was authorized by the Resolution of the House of the 22d April, and on the Section of the same Branch there are the following errors: viz. At the point of junction of the said Branch, the height above the datum line is figured according to the corrected figuring on the Section of the main line as 308 feet 6 inches, whereas at the same point on the Section of the Malvern and Ashchurch Branch, the said vertical height remains the same as upon the original Section, viz. 363 feet 6 inches; between a point in the Malvern and Ashchurch Branch (No. 1.), at 3 furlongs 3 chains, and a point at 5 furlongs 4 chains and 20 links, or thereabouts, the surface of the ground is shown on the said Section as being from 2 feet to 5 feet lower than the surface of the ground, in fact, is, with reference to the datum line of the said Section; particularly at 4 furlongs and 5 chains, or thereabouts, the said surface is shown as being 4 feet lower, and at 5 furlongs 4 chains and 20 links, or thereabouts, as 5 feet lower than the surface of the ground, in fact, is, at the said points, with reference to the said datum line, and at 10 miles 5 furlongs and 5 chains, or thereabouts, on the said Section, the greatest depth of cutting is marked and shown as being 55 feet, whereas, according to the true surface of the ground at that point, the greatest depth of cutting should have been marked and shown as 50 feet, or thereabouts.

And as the Section of the main line has been amended, by raising the surface of the ground 5 feet, with reference to the datum line, and as so much of the proposed Railway in the Parish of Great Malvern is proposed to be constructed by a separate Bill, it is proposed to extend the Bill No. 1. for the projected Railway into the Parish of Cradley, and shown upon the Plan as crossed by the said Railway at or about 10 miles 44 chains 29 links, and extending a distance of 10 miles 3 chains 600 perches 40 links, from the said point to the point of junction of the said main line and said Branch, is defective and incorrect, and not prepared in accordance with the Standing Orders, as on the said cross Section the present surface of the road, to which the same refers, is drawn as descending on either side from the point of crossing of the Railway at an inclination of 1 in 37, or thereabouts, whereas the true present surface of the said road rises at an inclination of 1 in 37, or thereabouts, on the side towards Great Malvern, and the same should have been so shown.

The several applications, in writing, made as required by the Standing Orders, to the persons named in the following Table, do not correctly describe the deposited Section of the line, and the greatest height of embankment and depth of cutting as affecting the properties referred to in the said applications by the numbers set forth in such Table, and are further defective on account of the several inaccuracies also therein particularly mentioned.

Mr. Greene reported from the Committee as Poor Relief pointed to draw up Reasons, to be offered to the Lords at a Conference, for disagreeing to one of the Amendments made by their Lordships to the Bill, intituled, An Act to make further Provision for the Relief of the Destitute Poor in Ireland; That the Commons agree to the Amendments made by the Lords as far as Clause (B.)

The Commons propose to amend Clause (B.), by inserting after "have," in l. 10, and inserting "have" in l. 11., the words "purpose of charging the expense of Relief to any "electoral division," by leaving out "have" in l. 10., and inserting "have" in l. 11., and inserting "have."
The Commons propose to amend the Amendment in Pr. 16. 1. penult., by leaving out from "of" in Fo. 3. l. 18. to "qualified" in l. 20., by inserting after "Justices," in l. 20., the words "or such Union," and by leaving out from "highest" in Fo. 4. l. 1. to "Justices" in l. 2., and inserting "rate books of any electoral division in such Union," and by leaving out from "highest" in Fo. 4. l. 1. to "Justices" in l. 2., and inserting "rated." The Commons disagree to Clause (F.) for the following Reason: Because the Commons consider it inexpedient to depart from the rule laid down in the Amendment to the previous Clause, that the highest rated qualified Justice should be entitled to act as an ex-officio Guardian in preference to one rated at a less amount.

The Commons agree to the rest of the Amendments to the Bill.

The said Reason, being read a second time, was agreed to.

Ordered, That a Conference be desired with the Lords upon the subject-matter of the Amendments made by their Lordships to the said Bill: And that Mr. Greene do go to the Lords, and desire the said Conference.

Mr. Greene reported from the Committee appointed to draw up Reasons, to be offered to the Lords at a Conference, for disagreeing to certain of the Amendments made by their Lordships to the Bill, intituled, An Act to facilitate the Improvement of Landed Property in Ireland; That they had drawn up Reasons accordingly, which they had directed him to report to the House; and the same were read, as follow:

The Commons agree to the Amendment made by the Lords in Pr. 5. l. 13., for the following Reason:

Because the Commons consider it inexpedient to depart from the present Bill to authorize the Advance, for the purpose of erecting Mills or Buildings, of any portion of the Sum which has been appropriated to the object of increasing the productive powers of the Land in Ireland.

The Commons agree to the Amendments as far as Pr. 32. l. 10.

The Commons disagree to the Amendment in Pr. 32. l. 19., for the following Reason:

Because the period of Three years fixed by the Commons for the completion of the Works and the Advance of the Money meets the urgency of the present case more adequately than the longer period proposed to be allowed in the Amendment made by the Lords.

The Commons agree to Clause (A.)

The Commons disagree to the Amendment in Pr. 40. 1. 4., for the following Reason:

Because the Commons consider the period fixed by them for the repayment of the Money advanced amply sufficient for that purpose.

The Commons agree to the Amendments as far as l. 9. of Clause (A.), added, by way of Rider, to the Bill.

The Commons propose to amend the Amendment in l. 9. of the said Clause (A.), by leaving out the word "in."

The Commons agree to the other Amendment to the said Clause (A.)

The Commons disagree to the Amendment in Pr. 68. l. 1. 10., for the following Reason:

Because the same is consequent on the Amendment in Pr. 5. l. 13., to which they have disagreed.

The Commons disagree to the Amendment to the Schedule (A.), for the following Reason:

Because the same is provided for in the next column of the Schedule.

The Commons propose to amend the Amendment in Pr. 68. 1. 10., by leaving out from "of" in Fo. 3. l. 18. to "qualified" in l. 20., by inserting after "Justices," in l. 20., the words "or such Union," and by leaving out from "highest" in Fo. 4. l. 1. to "Justices" in l. 2., and inserting "paced."

Sir William Clay reported from the Committee on Group No.37 of Railway Bills; That in the case of the York and North Midland Railway (Harrogate Branch, Boroughbridge and Knaresborough Extension) Bill, the Committee had agreed to the Preamble, and to several Clauses of the said Bill; that they have deemed it necessary for the public convenience to impose certain restrictions on the York and North Midland Railway Company, in respect of so much of the line as passes through the town of Knaresborough, and as to the Station proposed to be erected thereon; and with the view of preventing two lines of Railway and two Stations in the said town, they deem it expedient that clauses should be introduced enabling the said Company to enter into such contracts and agreements with reference to the construction, maintenance and repair of the said line of Railway, and Station already authorized to be made in and through the said town of Knaresborough by the East and West Yorkshire Railway Company, and by the Leeds and Thirsk Railway Company; in these provisions the counsel appearing before the Committee on behalf of the said East and West Yorkshire Railway Company, and of the Leeds and Thirsk Railway Company, have acquiesced; but the provisions above mentioned being beyond the scope of the Bill as introduced into the House, and of the Notices given in respect of the same, the Committee have thought it right to apply to the House for an Instruction that they have power to introduce the said Clauses, which Clauses are appended to this Report.  
(Restraining the construction of the line through the town of Knaresborough.) And whereas by the Leeds and Thirsk Railway (Knaresborough) Act, 1846, the Leeds and Thirsk Railway Company are authorized to extend their Knaresborough Branch across the River Nidd, into and through the town of Knaresborough, as delineated on the Plan of the said Act returned to the House; and whereas by the East and West Yorkshire Junction Railway Act, 1846, the Company thereby incorporated are authorized to construct their Railway into or through the said town of Knaresborough, and by the said Act the said Company and the Leeds and Thirsk Railway Company are empowered to enter into such contracts and agreements with reference to the construction, maintenance and repair of the bridge over the said River Nidd, and also with reference to the construction, maintenance, use and occupation of a joint or separate station or stations in or near the said town as the said Companies may respectively deem advisable, and subject to such terms and conditions, to be agreed upon between them, as in the said Act mentioned; and whereas the Railway hereby authorized is also intended to terminate into or through the said town of Knaresborough: And whereas it is expedient, and would be for the convenience and advantage of the public, if there were only one line of Railway, and one station, common to the use of the several Railway Companies whose lines of Railway are contemplated or are proposed to pass through and within the said town; BE it therefore Enacted, That (except
except as hereinafter mentioned) it shall not be lawful for the said York and North Midland Railway Company to use or construct upon the portion of Railway defined upon the Plans hereinbefore mentioned, as lies between the northern boundary of the wood or field numbered 78, on the said Plans, in the parish of Knaresborough, and the north-western boundary of the field or land numbered on the Plans 179, in the same parish, anything in this Act to the contrary notwithstanding.

And the Resolutions of the Committee were read, as follow:

1. 2. That the Deposits made in respect of all Railway Bills, the proceedings on which shall have been suspended, shall be returned to the Depositors; but that before proceeding in a future Session, Deposits to the same amount shall be again duly paid in, according to the Standing Orders of the House of Commons.

4. That in all cases of application to Parliament by existing Railway Companies, either for powers to construct Branches or Extensions, or to contribute towards the Expense of constructing other Lines of Railways, a Subscription Contract for three-fourths of such additional Capital as may be required for these purposes, shall be given in, beyond the Capital authorized for the existing Lines, and Deposits shall be duly paid thereon.

5. That a Clause shall be inserted in every Railway Bill in the present and in every future Session of Parliament, prohibiting any Railway Company from paying, out of the Capital which they have been authorized to raise for the purposes of any existing Act, the Deposits required by the Standing Orders to be made for the purposes of any application to Parliament for a Bill for the construction of another Railway.

6. That in every Bill of the present Session containing powers of Purchase, Sale, Lease, or Amalgamation, a Clause shall be inserted prohibiting any Company from exercising such powers until they shall have proved, to the satisfaction of the Railway Commissioners, that they have paid up and expended, for the purposes authorized by their Acts, a sum equal to One-half of the Capital authorized to be raised thereby.

9. That no Railway Company shall in the present, or any future Session of Parliament, be authorized to advertise for the execution of its original line, to guarantee interest on any shares which it may issue for creating additional Capital, or to guarantee any rent or dividend to any other Railway Company, until such first-mentioned Company shall have completed and opened traffic on its original line.

10. That in Bills in the present, or any future Session of Parliament, for the Amalgamation of Railway Companies, the Amount of Capital created by such Amalgamation shall in no case exceed the Sum of the Capitals of the Companies so amalgamated.

11. That in Bills in the present, or any future Session of Parliament, empowering any Railway Company to purchase any other Railway, no addition shall be authorized to be made to the Capital of the purchasing Company, beyond the Amount of the Capital of the Railway purchased; and in case such Railway shall be purchased at a premium, no addition on account of such premium shall be allowed.
