Mr. Speaker reported, That the House had this day attended Her Majesty in the House of Peers, where Her Majesty was pleased to make a most gracious Speech from the Throne, to both Houses of Parliament, of which Mr. Speaker said he had, for greater accuracy, obtained a Copy; which he read to the House, as followeth;

My Lords and Gentlemen,

It is with the deepest concern that upon your again assembling I have to call your attention to the death of provisions which prevails in Ireland and in parts of Scotland. In Ireland especially the loss of the usual food of the people has been the cause of severe sufferings, of disease, and of greatly increased mortality among the poorer classes. Outrages have become more frequent, chiefly directed against property; and the transit of provisions has been rendered unsafe in some parts of the country.

With a view to mitigate these evils very large numbers of men have been employed, and received wages, in pursuance of an Act passed in the last Session of Parliament. Some deviations from that Act, which have been authorized by the Lord Lieutenant in order to promote more useful employment, will, I trust, receive your sanction. Means have been taken to lessen the pressure of want in districts which are most remote from the ordinary sources of supply. Outrages have been repressed, as far as it was possible, by the Military and Police.

It is satisfactory to Me to observe, that in many of the most distressed districts the patience and resignation of the People have been most exemplary. The deficiency of the harvest in France and Germany, and other parts of Europe, has added to the difficulty of obtaining adequate supplies of provisions. It will be your duty to consider what further measures are required to alleviate the existing distress. I recommend to you to take into your serious consideration whether, by increasing, for a limited period, the facilities for importing Corn from Foreign Countries, and by the admission of Sugar more freely into Breweries and Distilleries, the supply of food may be beneficially augmented.

I have likewise to direct your earnest consideration to the present condition of Ireland. You will perceive, in the absence of political excitement, an opportunity for taking a dispassionate survey of the social evils which afflict that part of the United Kingdom. Various measures will be laid before you, which, if adopted by Parliament, may tend to raise the great mass of people in comfort, to promote agriculture, and to lessen the pressure of that com-

petition for land which has been the fruitful source of crime and misery.

The marriage of the Infanta Luisa Fernanda of Spain to the Duke of Montpensier has given rise to a Correspondence between My Government and those of France and Spain. The extinction of the Free State of Cracow has appeared to Me to be so manifest a violation of the Treaty of Vienna, that I have commanded that a Protest against that Act should be delivered to the Courts of Vienna, Petersburgh and Berlin, which were parties to it. Copies of these several Papers will be laid before you.

I entertain a confident hope that the hostilities in the River Plate, which have so long interrupted Commerce, may soon be terminated, and My efforts, in conjunction with those of the King of the French, will be earnestly directed to that end.

My relations generally with Foreign Powers inspire Me with the fullest confidence in the maintenance of Peace.

Gentlemen of the House of Commons,

I have directed the Estimates to be prepared, with a view to provide for the efficiency of the Public Service, with a due regard for economy.

My Lords and Gentlemen,

I have ordered every requisite preparation to be made for putting into operation the Act of the last Session of Parliament for the establishment of Local Courts for the Recovery of Small Debts. It is My hope that the enforcement of Civil Rights in all parts of the Country to which the Act relates may, by this measure, be materially facilitated.

I recommend to your attention measures which will be laid before you for improving the Health of Towns, an object the importance of which you will not fail to appreciate.

Deeply sensible of the blessings which, after a season of calamity, have been so often vouchsafed to this nation by a superintending Providence, I consider these important matters to your care, in a full conviction that your discussions will be guided by an impartial spirit, and in the hope that the present sufferings of My people may be lightened, and that their future condition may be improved, by your deliberative wisdom.

A Motion was made, and the Question being proposed, That an humble Address be presented to Her for Addrest. Majesty, humbly to thank Her Majesty for Her most gracious Speech from the Throne:

Humbly to inform Her Majesty, that we fully participate in the deep concern which Her Majesty expresses in having to call our attention to the death of provisions which prevails in Ireland and parts of Scotland.

To state to Her Majesty, that we lament to learn that in Ireland especially, the loss of the usual food of the people has been the cause of severe sufferings, of disease, and of greatly increased mortality among the poorer classes. We deeply regret that outrages, chiefly against property, have become more frequent, and that, in some parts of the country, the transit of provisions has been rendered unsafe:

To thank Her Majesty for informing us that, with a view to mitigate these evils, very large numbers of men have been employed, and have received wages, in pursuance of an Act passed in the last Session of Parliament; and to assure Her Majesty that we will take into our consideration the propriety of giving our sanction to the deviations from that Act, which have been authorized by the Lord Lieutenant of Ireland, in order to promote more useful employment:

To thank Her Majesty for informing us, that means may be taken to lessen the pressure of want in districts which are most remote from the ordinary sources of supply, and that outrages have been
Majesty, that the enforcement of Civil Rights in all parts of the country to which the Act relates, may, in conformity with the hope expressed by Her Majesty, be materially facilitated:

To assure Her Majesty that we participate in the hope expressed by Her Majesty's gracious recommendation, we will not fail to consider what further measures may be required to alleviate the existing distress, and to take into our serious consideration whether by increasing, for a limited period, the facilities for importing Corn from Foreign Countries, and by the admission of Sugar more freely into Breweries and Distilleries, the supply of Food may be beneficially augmented:

To assure Her Majesty that we earnestly consider shall be directed to the permanent condition of Ireland, and that we will avail ourselves of the opportunity afforded, by the absence of political excitement, to take a dispassionate survey of the social evils which afflict that part of the United Kingdom:

Humbly to thank Her Majesty for the assurance that various measures will be laid before us which are intended to raise the great mass of the people in comfort, to promote agriculture, and to lessen the pressure of that competition for the occupation of land which has been the fruitful source of crime and misery:

Humbly to thank Her Majesty, for informing us that the Marriage of the Infanta Luisa Fernanda of Spain with the Duke of Montpensier, has given rise to a Correspondence between the Government of Her Majesty and those of France and Spain:

That we rejoice to be informed, that Her Majesty's relations generally with Foreign Powers, inspire Her Majesty with the fullest confidence in the maintenance of Peace:

Humbly to thank Her Majesty, for having directed the Estimates to be prepared, with a view to provide for the efficiency of the Public Service, with a due regard for economy:

To thank Her Majesty, for informing us that Her Majesty has been gracious pleased to order every Exchequer, Viscount Morpeth, Mr. Labouchere, the said Resolution: And a Committee was appointed by Mr. Charles Howard, Mr. Ricardo, Lord John Russell, Viscount Palmerston, Sir George Grey, Sir John Hobhouse, The Chancellor of the Exchequer, Viscount Morpeth, Mr. Labouchere, Mr. Macdonald, Mr. Attorney-General, Mr. Solicitor-General, The Lord Advocate, Sir William Somerset, Mr. Charles Hope, Mr. Tufnell, Mr. Parker, and Mr. Green, or any Five of them:

Most Gracious Sovereign,

We Your Majesty's most dutiful and loyal Subjects, the Commons of the United Kingdom of Great Britain and Ireland, in Parliament assembled, beg leave to express to Your Majesty our humble thanks for Your Majesty's most gracious Speech from the Throne.

We fully participate in the deep concern which Your Majesty expresses in having to call our attention to the death of provisions which prevails in Ireland and parts of Scotland.

We beg to state to Your Majesty, that we lament to learn that, in Ireland especially, the loss of the usual food of the people has been the cause of severe sufferings, of disease, and of greatly increased mortality among the poorer classes: We deeply regret that outrages, chiefly against property, have become more frequent, and that, in some parts of the country, the transit of provisions has been rendered unsafe.

We thank Your Majesty for informing us that, with a view to mitigate these evils, very large numbers of men have been employed, and have received wages, in pursuance of an Act passed in the last Session of Parliament; and we assure Your Majesty that we will take into our consideration the propriety of giving our sanction to the deviations from that Act, which have been authorized by the Lord Lieutenant of Ireland, in order to promote more useful employment.

We beg to express our thanks to Your Majesty for informing us, that means have been taken to lessen the pressure of want in districts which are most remote from the ordinary sources of supply, and that outrages have been repressed, as far as it was possible, by the Military and Police.

We humbly assure Your Majesty, that we participate in the satisfaction with which Your Majesty observes the exemplary patience and resignation of the people in many of the most distressed districts.

We learn with regret that the difficulty of obtaining adequate supplies of provisions has been augmented by the deficiency of the harvest in France and Germany, and in some other parts of Europe; and, in compliance with Your Majesty's recommendation, we will not fail to consider what further measures may be required to alleviate the existing distress, and to take into our serious consideration whether by increasing, for a limited period, the facilities for importing Corn from foreign countries, and by the admission of Sugar more freely into Breweries and Distilleries, the supply of food may be beneficially augmented.

We assure Your Majesty that our earnest consideration shall be directed to the permanent condition of Ireland, and that we will avail ourselves of the opportunity afforded, by the absence of political excitement, to take a dispassionate survey of the social evils which afflict that part of the United Kingdom.

We thank Your Majesty for the assurance that various measures will be laid before us which are intended to raise the great mass of the people in comfort, to promote agriculture, and to lessen the pressure of that competition for the occupation of land, which has been the fruitful source of crime and misery.

We humbly thank Your Majesty for informing us that the Marriage of the Infanta Luisa Fernanda of Spain with the Duke of Montpensier, has given rise to a Correspondence between the Government of Your Majesty and those of France and Spain.

We beg to express our acknowledgments to Your Majesty, for informing us that the extinction of the free State of Cusco, has appeared to Your Majesty to be so manifest a violation of the Treaty of Vienna, that Your Majesty has commanded that a Protest against that act should be delivered to the Courts of Vienna, Petersburgh and Berlin, which were parties to it, and for having directed that Copies of these several Papers shall be laid before us.

We assure Your Majesty, that we have learned with great satisfaction, that Your Majesty entertains confident hopes that the hostilities on the River Plate, which have so long interrupted commerce, may soon be terminated, and gratefully to acknowledge Your Majesty's assurance, that Your efforts, in conjunction with those of the King of the French, will be earnestly directed to that end.

We rejoice to be informed that Your Majesty's relations generally with Foreign Powers inspire Your Majesty with the fullest confidence in the maintenance of Peace.

We humbly thank Your Majesty for having directed the Estimates to be prepared, with a view to provide for the efficiency of the Public Service, with a due regard for economy.

We thank Your Majesty for informing us that Your Majesty has been graciously pleased to order every requisite preparation to be made for putting into operation the Act of the last Session of Parliament, for the establishment of Local Courts for the Recovery of Small Debts, and we assure Your Majesty, that we participate in the hope expressed by Your Majesty, that the enforcement of civil rights in all parts of the country to which the Act relates, may, by this measure, be materially facilitated.

We assure Your Majesty that, in conformity with Your Majesty's gracious recommendation, we will direct our attention to the measures which will be
be laid before us for improving the Health of Towns, an object the importance of which we do not fail to appreciate.

We fully participate in the deep sense Your Majesty entertains of the blessings which, after a season of calumny, have so often been vouchsafed to this nation by a superintending Providence; and we humbly thank Your Majesty for confiding to us those important matters, and for the gracious expression of Your Majesty's full conviction that our discussions will be guided by an impartial spirit; and for Your Majesty's hope, that, by our deliberations, the present sufferings of Your people may be lightened, and their future condition be improved.

2. In the same parish, a corner of a copse, being about 30 feet by 50 feet, the property of the said Robert Weems, Esquire, which is shown on the Plan to be beyond the limits of deviation, is marked within such limits on the enlarged Plan, and the same is not numbered thereon, nor described in the Book of Reference, nor has any application in writing been made to the said Robert Weems in respect thereof.

Mr. Speaker laid upon the Table,—Report from Mr. Mey, one of the Examiners of Petitions for Private Bills; That in the case of the Petition for the Glasgow, Paisley, Kilmarnoch and Ayr Railway, and of the Ayshire and Bridge of Weir Railway Company, for leave to bring in a Bill, the Standing Orders have not been complied with in the following instances: viz.,

1. The Book of Reference deposited in the Private Bill Office does not contain the name of Dame Eliza Mary Shaw Stewart, of Newerk, as proprietor of a field numbered 110, in the parish of Port Glasgow, on the Plan deposited in the Private Bill Office, which is erroneously represented in the said Book of Reference as belonging to Matthew Brown, viz., that field Eliza Mary Shaw Stewart is entered therein as superior of the said property.

2. That in the same parish the said Dame Eliza Mary Shaw Stewart is entered therein as superior of certain gardens and an old house numbered 89, in the said Book of Reference, which is incorrectly represented in the said Book of Reference as the property of the Gouroch Rope-work Company, a certain building belonging to the said Company is not shown upon the said Plan, although the same is within the limits of deviation.

3. One side of a portion of a public street in the parish of Port Glasgow, situated between Nos. 69 and 121, on the said Plan, and numbered thereon 113, is not marked upon the said Plan, although the same is within the limits of deviation.

4. In the parish of Port Glasgow, upon a certain inclusion numbered 96 on the said Plan, and entered in the Book of Reference as the property of the Gouroch Rope-work Company, a certain building belonging to the said Company is not shown upon the said Plan.

Ordered, That the Report be referred to the Select Committee on Standing Orders.

Mr. Speaker laid upon the Table,—Report from Mr. Smith, one of the Examiners of Petitions for Private Bills; That in the case of the Petition for the Glasgow, Dumfries and Carlisle Railway, and Glasgow, Paisley, Kilmarnoch and Ayr Railway (No. 3.) Bill, the Standing Orders have not been complied with in the following instances: viz.,

1. The said line of the Clydesdale Junction Railway is also erroneously described on the Plans as passing through Nos. 79 and 80, in the parish of Hamilton; on the Plan of the proposed Branch to the Wishaw and Coltness Railway, near Milton, the line of the said Clydesdale Junction Railway is erroneously described as passing through Nos. 68, 79, and 77, in the parish of Hamilton, and as crossed by the proposed Branch at the last-mentioned number.

2. That the said line is crossed by the said proposed Branch in No. 76, in the parish of Hamilton, but no such crossing is shown on the Plan, nor have the owners of the Clydesdale Junction Railway been applied to in respect of their property in such number; the said line of the Clydesdale Junction Railway passes through or into No. 78, in the parish of Hamilton, but the Plans do not describe the said line as passing through or into the said number, nor are the names of the owners of the said Railway contained in the Book of Reference with respect to the said number, nor have they been applied to in respect to their property therein.

At the point where the proposed Branch to the intended Clydesdale Junction Railway at Hamilton is stated on the Section to effect a junction with the said Railway on a level, there appears to be an error of between two and three feet in the relative levels of the Branch and the said Clydesdale Junction Railway, the level of the rails of the Clydesdale Junction Railway being at that point between two and three feet above the level of the rails of the proposed Branch.

On sheet No. 4, of the Plans, the enlarged Plan of No. 32, &c., in the parish of Dalserf, differs from the general Plan in the following particulars: viz.,

1. The point of crossing the parish-road, No. 43, on the enlarged Plan, is distant 150 feet, or thereabouts, from the point of crossing as shown on the general Plan.

2. The general Plan shows the line as passing through field No. 42, whilst the enlarged Plan describes the line as crossing the road before reaching that field, and consequently passing clear of that field.

3. The enlarged Plan describes the line as passing through field No. 35, whilst the general Plan describes the line as passing clear of that field.

4. The point of crossing the parish-road, No. 39, as shown on the enlarged Plan, is distant a chain, or thereabouts, from the point of crossing as shown on the general Plan.

5. On sheet No. 5, of the Plans, a road partly within the limits of deviation lying between Nos. 66 and 74, in the parish of Hamilton, is not numbered on the Plan, but it appeared that the road is a continuation of a road numbered 69, and that the division which has been drawn on the Plan between these portions of the road does not in fact exist.

6. On sheet No. 9, of the Plans, at or near 73 furlongs on the proposed Strathaven Branch, No. 126, in the parish of Dalserf, on the general Plan, represents a different property from that represented by the same number on the enlarged Plan, and the Book of Reference contains only one number 126 in the parish of Dalserf.

7. On sheet No. 10, a garden and orchard at or near 2 miles 31 furlongs adjoining No. 126, and partly within the limits of deviation, have not been numbered on the Plan, nor described in the Book of Reference.

8. A field lying north of No. 90, in the parish of Dalserf, is not numbered on the Plan, nor described in the Book of Reference therefor.

The line of Railway is incorrectly drawn in the additional Plan on the enlarged scale of property No. 102.
No. 162, Sc., in the parish of Lesmahagow, being drawn about a chain west of its true position.

The Plan of the Branch to Stonehouse is inconsistent with the notices, and with the Petition and Bill, inasmuch as the notices and Bill describe the said Branch as terminating at or near to the south-west end of the village of Stonehouse, whilst the Plan shows the said Branch as terminating at a point distant between 3 and 4 furlongs from the extreme south-west end, which point is only about 1 furlong distant from the extreme north-east end of the said village.

On the Branch from Balloch to Moss Castle, the point at which the line crosses the public road No. 43, in the parish of Crawford John, as shown on the Plan, differs from the same point as shown on the Section to the extent of 3 chains, or thereabouts.

On the same Branch the line is shown on the Plan to join the Lesmahagow and Motherwell Branch at or near 1 mile, 1 furlong, 6 chains, 20 links, whilst on the Section it is shown to be crossed at 2 furlongs, 7 chains, 80 links.

On the Branch to Leith Brockley, a public road No. 267, in the parish of Lesmahagow, as shown on the Plan, is to be crossed at 2 furlongs, 3 chains, 80 links, whilst on the Section it is shown to be crossed at 1 mile, 6 chains.

On the Branch to Stonehouse a turnpike-road No. 171, in the parish of Dalserf, is shown on the Plan to be crossed at 1 mile, 2 chains, 50 links, whilst on the Section it is shown to be crossed at 2 furlongs, 8 chains, 30 links.

On the Branch, a road, No. 194, in the parish of Dalserf, is shown on the Plan to be crossed at 1 mile, 6 furlongs, 5 chains, 70 links, whilst on the Section it is shown to be crossed at 1 mile, 6 furlongs, 8 chains, 30 links.

Ordered, That the Report be referred to the Select Committee on Standing Orders.

A Petition of the Glasgow, Dumfries and Carlisle Railway Company, and the Glasgow, Paisley, Kilmarnock and Ayr Railway Company, for leave to bring in a Bill to enable the Glasgow, Dumfries, and Carlisle Railway Company to make several Branch Railways in the counties of Dumfries and Cumberland, and for other purposes, was presented, and read; and referred to the Select Committee on Standing Orders.

Ordered, That the Report be referred to the Select Committee on Standing Orders.

A Petition of the Glasgow, Paisley, Kilmarnock and Ayr Railway Company to make several Branch Railways in the counties of Dumfries and Cumberland, and for other purposes, was presented, and read; and referred to the Select Committee on Standing Orders.

Mr. Speaker laid upon the Table.—Report from Glasgow, Mr. May, one of the Examiners of Petitions for Private Bills; That in the case of the Petition for the Glasgow, Paisley, Kilmarnock and Ayr Railway (No. 3) Bill, the Standing Orders had not been complied with, as the height of the arch of the bridge by which it is proposed to carry the Railway over the public carriage-road, called Great Clyde-street, marked No. 3, in the parish of Glasgow, is not marked in figures at the crossing thereof upon the Sections deposited with the Sheriff Clerks of the counties of Lanark and Renfrew, at Glasgow, Hamilton, Lanark, Airdrie, Paisley and Greenock.

Ordered, That the Report be referred to the Select Committee on Standing Orders.

Mr. Speaker laid upon the Table,—Report from Mr. Smith, one of the Examiners of Petitions for Private Bills; That in the case of the Petition for the Regent's Canal Company (Paddington and Limehouse Railway and Branch) Bill, the Standing Orders have not been complied with in the following instances:—Application was not made to Mr. Charles Harris, one of the Owners, nor to the Reverend William Graham, one of the Leaseholders of the line on the 15th day of December last, the first-named party having been applied to on the 16th, and the last-named party on the 15th, at half past nine o'clock p.m.; but it was proved that the parties who made the application had left London, for the purpose, in sufficient time under ordinary circumstances to have made the applications before eight o'clock on the 15th, and that the delay arose from the roads having been rendered impassable by snow.

Ordered, That the Report be referred to the Select Committee on Standing Orders.

Mr. Speaker laid upon the Table,—Report from Mr. M'G, one of the Examiners of Petitions for Private Bills; That in the case of the petition for the Wilts, Somerset and Weymouth Railway (No. 2.) Bill, the Standing Orders have not been complied with in the following instances: viz.,

1. The Bristol and Exeter Railway Company are and were on and previous to the 30th day of November last, owners of a piece of land in the parish of Bleadon, numbered 2, on the Plans deposited in the Private Bill Office, and entered in the Book of Reference as a drove and waste; but their names are not contained in the said Book of Reference in respect thereof, and no application in writing has been made to them in respect of the same.

2. A pasture, numbered 6, on the said deposited Plans in the said parish of Bleadon, is entered in the said Book of Reference as belonging to the Dean and Chapter of Winchester, as owners thereof, and to George Ye, as lessee and occupier, whereas the Reverend David Williams is, and was on and previous to the said 30th day of November last, the lessee or grantee thereof, and Charles Young is, and was on and previous to the said 30th day of November, the occupier; nor are the names of the said David Williams and Charles Young inserted in the said Book of Reference in respect of the said property, numbered 6; and no application in writing has been made to the said David Williams, or to the said Charles Young, in respect thereof.

3. No application in writing, as required by the Standing Orders, has been made to John Sellick, the occupier; nor are the names of the said George Hatcher, is the owner, and Edmund Hatcher is the occupier of another field numbered 39, in the same parish, and adjoining the said No. 40, whereas William Bullion, as the occupier of No. 40, in the parish of Stower Provost, and the parish of Sodber, is not the said William Bullion, as the occupier thereof, whereas the said George Hatcher and William Ernest Hetling are, and were on and previous to the 30th November last, jointly entitled thereto as lessees or grantees under the said Dean and Chapter of Winchester; but no application in writing, as required by the Standing Orders, has been made to the said William Ernest Hetling in respect thereof.

4. The parish boundary between the parish of Stower Provost, and the parish of South, is not correctly marked on the said Plans, in conformity with the model Plan annexed to and forming part of the Standing Orders, and is intended to be crossed and the level altered, nor is the height marked, or any cross Section given.

5. The parish of Stowe, a corner of which is within the limits of the said field No. 6, in the parish of Bleadon, but in the parish of Sodber, is not entered in the said Book of Reference as the lessee thereof, whereas the said George Attlin is described in the said Book of Reference as the lessee thereof, whereas the said George Hetling and William Ernest Hetling are, and were on and previous to the 30th day of November last, jointly entitled thereto as lessees or grantees under the said Dean and Chapter of Winchester; but no application in writing, as required by the Standing Orders, has been made to the said William Ernest Hetling in respect thereof.

8. The Plan does not accurately describe the lands into or through which the proposed Railway will pass, as no fence is shown between the properties numbered 118 and 119, in the parish of Compton Bishop, although a fence does now, and did on and previous to the 30th day of November last, divide such lands.

9. The field No. 182, in the said deposited Plan, in the parish of Compton Bishop, is wrongly shown on the Plan, inasmuch as the property numbered 182, is in fact two fields which are divided by a fence which does and did on and previous to the 30th day of November last exist, but which is not shown on the said Plan.

10. With respect to a public carriage-road at 1 mile, 84 chains, on the Plan of the Glastonbury Branch, described in the Book of Reference, as a public road, it is not shown on the Section that it is intended to be crossed and the level altered, nor is the height marked, or any cross Section given.

In the Book of Reference deposited John Hussey is described as the owner, and William Boulter as the occupier, of the property numbered 4, in the parish of Manholl, a corner of which is within the limits of deviation, and which number is therein described as pasture and foot-path, whereas in fact John Hatcher, is the owner, and Edmund Hatcher is the occupier of the said property, and no application has been made to them in respect thereof.

12. A road No. 131, on the said Plans in the out-parish of Saint Cuthbert-on-Wells, and another road No. 29, in the parish of Pilton, are described on the Section as being intended to be diverted, but in neither case is such intended diversion shown upon the Plan.

13. The parish of Stowe, in the county of Dorset, and another parish in the county of Dorset, are and were on and previous to the 30th November last, owners of a piece of land in the parish of Compton Bishop, although a fence does now, and did on and previous to the 30th day of November last exist, but which is not shown on the said Plan.

14. In the Books of Reference deposited in the case of the said undertaking with the Clerk of the Peace for the county of Dorset, and at the Private Bill Office, John Montgomery is described as the occupier of the said field No. 6, in the reference to the said field of Sothor, whereas in fact the said field is in the said parish of Stower Provost, and is in the occupation of Richard Montgomery, and no application has been made to him in respect thereof.

15. The Books of Reference deposited with the Clerk of the Peace for the county of Dorset, and in the Private Bill Office, described Edwin Hiscock as the occupier of the said field No. 40, in the parish of Stower Provost, whereas William Burton, is the occupier of the said property; and the said Books of Reference do not describe the said field, and there is no application in writing, as required by the Standing Orders, in the form prescribed by the Standing Orders in respect thereof.
respect of the properties of which they were severally the occupiers on and before the 30th November last.

16. The Books of Reference deposited with the clerks of the peace for the counties of Somerset and Dorset, and in the Private Bill Office, describe William Brasher as the owner of a certain arable field, in the parish of Charlton Musgrove, numbered 27 on the Plan, and of which a portion is within the limits of deviation as defined thereon, whereas William Russell is the owner thereof; and the said Books of Reference describe William Brasher as the occupier of the said field instead of William George, who is, and was on and before the 30th November last, the occupier of the same, and the said William George has not received application in writing, in the form prescribed by the Standing Orders, in respect of his interest as the occupier of the said field.

17. The Books of Reference deposited as aforesaid describe the owners of an occupation-road numbered 48, in the parish of Wincanton, in the county of Somerset, as Thomas Autrey Gapper, William Brasher and James Crew, but do not also describe John Davis and Sarah Davis to be owners of the same, whereas the said John Davis and Sarah Davis are jointly owners of the same, as well as the persons above mentioned, who are entered in the Book of Reference; and the said John Davis and Sarah Davis have not received any application in writing, in the form prescribed by the Standing Orders, in respect of their interest in the said road as part owners thereof.

2. Four several buildings are laid down upon the Plans deposited with the Clerk of the Peace for the county of Devon, and in the Private Bill Office, in a certain inclosure in the parish of Crediton, in the county of Devon, numbered 12 in the said Plans, and adjoining a certain road in the said parish, numbered 6 on the said Plan, whereas there were not any such buildings.

On certain land in the said parish of Crediton, numbered 74 on the said Plans, a house is omitted to be laid down, which, if properly delineated, would divide the said land, numbered 74, into two inclosures, as the same were and now remain divided; and one of these inclosures is not numbered on the said Plans.

Between certain lands in the said parish of Crediton, severally numbered 105 and 107 on the said Plans, a fence is omitted to be laid down, which divides the said lands so numbered 105 and 107 respectively as aforesaid into two inclosures, as the same were and now remain divided.

down on the said Plan, as the same is therein laid down as bounded by and terminating at a steam running through the land, and steam numbered 50 and 51, on the said Plan, whereas the said road should be laid down upon the said Plans as extending up to the limits of deviation marked on the north side of the said stream; and the several fences on each side of the said last-mentioned road so continued as aforesaid, are wholly omitted to be laid down on the said Plan, and the inclosures are not numbered thereon.

On certain land in the said parish of Cullompton, numbered 50 on the said Plan, a fence is omitted to be laid down on the north-west corner thereof, which, if properly delineated, would divide the said land numbered 50 from another small inclosure at the corner thereof, and which inclosure is not numbered on the said Plans.

If the inclosures numbered 9, 10, 11, 12, 13, 14 and 15, in the said parish of North Tawton, were properly and correctly laid down on the said Plans, and the line of Railway correctly described thereon, then the line of Railway would be shown to be on a curve of about half a mile radius, and not on a curve of above a mile, as shown on the said Plans; and the radius of the said curve, being less than a mile in length, is not noted on such Plan in furlongs and chains.

Parish of Sampford Courtney.

19. On certain land in the parish of Sampford Courtney, numbered 7 on the said Plans, a fence is omitted to be laid down, which, if properly delineated, would divide the said land, numbered 7, into two inclosures, as the same were and now remain divided, one of which inclosures is not numbered thereon.

inaccurate and unsatisfactory, as not to deserve the name of an account at all; that in 1838 the judges made rules requiring Mr. Manning to pass his accounts before a judge, and pay the balance found due into the savings bank; that Mr. Manning resisted against these rules as threatening to take from him a source of legitimate income on the faith of which he immigrated to the colony, and intimated that he would be permitted to retain and make use of the money himself, he would use no exertion to obtain it; that on the audit of Mr. Manning's proceedings held under the above-mentioned rules in September 1838 the judges DISCERNED that this officer had been in the habit of receiving money of intestate persons, without keeping any regular or intelligible account of it, and that at this audit Mr. Manning reported himself to be in the possession of £1,092 17s. 4d., whereas the court, after argument and exceptions allowed, ordered him to pay over £3,082 19s. 2d., thus increasing the amount of his liability by nearly £1,000; that notwithstanding these circumstances, sufficient, it would seem, to raise a violent suspicion, Mr. Manning was allowed to remain in possession of his office, and thus not only to appropriate to his own use the personal property of intestate persons, but also their real estate, to a much larger amount, from the facility of obtaining powers of attorney, which his highly confidential situation under Government afforded; that it appears from the facts above narrated, that Mr. Manning was a person disqualified by his previous career for situations of trust, but that nevertheless in his case the most flagrant violation of duty was allowed to pass unchallenged, and that it is only just that those who sent this officer to the colony, under such circumstances, should make good to the widows and orphans of intestate persons, whom he has in too many instances reduced to poverty, the wrongs which his high official situation has enabled him to commit; and praying that the House will take the premises into favourable consideration, and take such steps for relieving the sufferers by Mr. Manning's default as to the House shall seem meet.

Ordered, That the said Petition do lie upon the Table.

Irish Poor.

Ordered, That the said Petition do lie upon the Table.

Application was made to the Re- referred Committee, on the 15th day of December last, after the hour of eight p.m., but it was proved that such application was made at half past ten in the morning of that day, and that the Promoters being informed by their local agents, that he was then residing at Bath (where he had resided when an application for the same property was served on him by the same parties last year), dispatched a messenger to Bath, on the 14th of December.

That such messenger returned forthwith with information, that the said C. B. Pearson had left that place, and that forthwith another messenger was dispatched to his then ascertained residence, by the first train; but as such residence was situated twelve miles from any Railway station, the messenger was unable to make such application before half past ten o'clock.

Upon the first sheet of the Sections deposited in the Private Bill Office and in the office of the Clerk of the Peace for the county of Dorset, there is a vertical scale of 80 feet to the inch, and all the sheets of such Sections are drawn to the said vertical scale; but upon sheet No. 2, there is another vertical scale of 50 feet to an inch, and on sheet No. 4, another vertical scale of 60 feet to an inch; and all the figured heights upon the said two sheets are wrongly stated, as measured by the vertical scales drawn upon such sheets respectively; and all the gradients upon such two sheets, if calculated from the heights above the datum line, as measured by such vertical scales, instead of from the heights, as figured upon the Section, are also wrongly stated in figures.

Upon the portions of the Sections which were deposited with certain Parish Clerks (such Sections being drawn throughout to the vertical scale of 80 feet to an inch), there are erroneous scales to the vertical heights; viz.

On the portion of the Plan of the said Railway deposited with the Parish Clerk of the parish of Chilmerk, there is no scale.

On the Sections of the said Railway deposited in the office of the Clerk of the Peace for the county of Dorset, and in the Private Bill Office, the extreme depth of the Railway under the surfaces of the ground, is not marked for a certain proposed cutting, exceeding 6 feet, between 31 miles, 7 furlongs, and 32 miles, 4 furlongs.

Between 1 mile, 4 furlongs, and 2 miles, the gradient is incorrectly stated as being 1 in 881, whereas it should be 1 in 760, in continuation of a gradient shown upon the previous part of such Section, as being 1 in 760.
A certain diversion of the River Medway (not being a navigable river), at or about 1 mile, 5 furlongs distant, is shown upon the Sections of the said Railway as being intended; but no such diversion is shown upon the Plans deposited in the Private Bill Office and with the Parish Clerk of the Parish of Chilmark.

Caledonian Railway Branches from the Clydesdale Junction Railway to the Douglas and Lesmahagow Mineral Fields, and to Strathaven.

The following properties, lying partly within the limits of deviation, are not numbered on the Plan, nor described in the Book of Reference:

On the branch to West Town, parish of Bintyre: A small piece of land between Nos. 8, and a road excluded from the limits of deviation, at the corner of field No. 6.

Parish of Dalserf: A field between road No. 14, and field No. 10.

The additional Plan of the following property does not correspond with the general Plan.

A plantation numbered 154, in the parish of Lesmahagow on the general Plan, is not numbered on the enlarged Plan, No. 154, on the enlarged Plan being placed on a road.

The height of the Railway over the surface of the public road (No. 292 on the Plan of the line to West Town, in the parish of Lesmahagow), which appears by the Plan to be crossed by the Railway, is not marked in figures at such crossing on the Section.

On the cross Section No. 4 upon the branch to Strathaven, the rate of inclination of the surface of the road as proposed to be altered, is not marked in figures therein.

The Book of Reference does not contain the name of Janet Miller, as owner of the part of Nos. 6, 7, 8, 9, 11, 11th and 12th, in the parish of Dalserf, as inserted.

Mr. Speaker laid upon the Table,—Report from Mr. May, one of the Examiners of Petitions for Private Bills; That in the case of the Rathmines Improvement Bill, the Standing Orders had not been complied with, in the following instances ; viz. A field, numbered 8, in the parish of Chedworth, is divided by the parish boundary, and the portion of the said field which is in the parish of Colerne, is numbered 28 on the Plan deposited in the Private Bill Office.

A proposed diversion of the public carriage-road numbered 104, with reference to the parish of Andover, in the county of Southampton, and occurring at the distance marked 26 miles and 2 furlongs, or thereabouts, is shown on the said Plan deposited with the Clerk of the Peace for the county of Southampton, but the same is omitted on the Plan of the said intended Railway deposited with the Parish Clerk of the parish of Andover.

The vertical height at the point of junction of the East Branch from the main line, as shown on the Section deposited in the Private Bill Office, is figured 305 feet, but measures by the scale 316 feet.

And on the North Eastern Branch the vertical height at the point of junction with the main line is figured 312 feet, and measures by the scale 319 feet.

And at the junction of the West Branch from the x 3 min
main line, the vertical height is marked on the main line 1 foot, and the vertical height at the same point on the Section of the Branch, is marked 144 feet.

The distances on the Section of the Branch intended to connect the Railway with the Great Western are erroneously marked on the Plan deposited in the Private Bill Office, the first furlong from the junction with the main line being marked as 8 furlongs, and the second furlong thereon being marked as 1 furlong; and the distances are not marked in furlongs on the said Plan of the said last-mentioned Branch.

The distances on the Section of the Branch intended to connect the Railway with the Great Western Railway are erroneously marked on the Plan deposited in the Private Bill Office, the first furlong from the junction with the main line being marked as 8 furlongs, and the second furlong thereon being marked as 1 furlong; and the distances are not marked in furlongs on the said Plan of the said last-mentioned Branch.

The gradient commencing at or near 3 miles 4 furlongs, and ending between 3 miles 5 furlongs and 3 miles 6 furlongs, marked respectively on the said Section, is stated on the said Section to be 1 in 617, whereas the same, as calculated from the figured heights thereon, should have been stated to be 1 in 165.

The gradient commencing between 10 miles 2 furlongs and 10 miles 3 furlongs, and ending between 11 miles 4 furlongs and 12 miles 5 furlongs, as marked respectively on the said Section, is stated on the last-mentioned Section to be 1 in 688, whereas the same, as calculated from the figured heights thereon, should have been stated to be 1 in 637.

The gradient commencing between 12 miles 2 furlongs and 12 miles 3 furlongs, and ending between 13 miles 2 furlongs and 13 miles 3 furlongs, as marked respectively on the said Section, is stated on the said Section to be 1 in 755, whereas the same, as calculated from the figured heights thereon, should have been stated to be 1 in 736.

The gradient commencing at or near 14 miles 5 furlongs, and ending between 15 miles 5 furlongs and 15 miles 6 furlongs, as marked respectively on the said Section, is stated on the same Section to be 1 in 786, whereas the same, as calculated from the figured heights thereon, should have been stated to be 1 in 686.

The gradient commencing at or near 14 miles 5 furlongs, and ending between 15 miles 5 furlongs and 15 miles 6 furlongs, as marked respectively on the said Section, is stated on the said Section to be 1 in 865, whereas the same, as calculated from the figured heights thereon, should have been stated to be 1 in 547.

The gradient commencing between 16 miles 4 furlongs and 16 miles 5 furlongs, and ending at or near 16 miles, respectively marked on the said Section, is stated on the said last-mentioned Section to be 1 in 735, whereas the same, as calculated from the figured heights thereon, should have been stated to be 1 in 742.

The cross Section No. 32, which is intended to show the nature of the intended alteration of two roads numbered respectively 11 and 13, in the parish of Preston, does not not correctly describe the nature of such alteration, as the point at which the Railway is intended to cross the same, is incorrectly marked upon the said cross Section.

On the cross Section numbered 14, in reference to the road numbered 4, in the parish of Kempton the rate of inclination of the said road, when altered, is delineated, but the same is not stated in figures.

The published maps deposited with the Clerks of the Peace for the counties of Southampton, Wilts and Gloucester do not show thereon correctly the general course and direction of the said intended Railway, between the 83d and 86th miles, marked on the Plan of the said Railway deposited therewith, as the line of the said Railway is marked on the said map 1 mile, or thereabouts, north of its true course or direction as shown on the Plan of the said Railway deposited therewith, and in consequence of such erroneous delineation of the said line upon the published map, the proposed branch to join the proposed London, Oxford and Cheltenham Railway is also erroneously delineated, both at its junction with the main line, and at its point of junction with the said proposed London, Oxford and Cheltenham Railway, near Cheltenham.

At or about the 73d mile 31 chains, and thence to Southampton, there is a continuous error on the Section, by which the surface of the ground with reference to the datum horizontal line of the said Section is shown as being 6 feet 6 inches lower than the true surface of the ground.

Mr. Speaker laid upon the Table,—Report from Kilmarnock Mr. Smith, one of the Examiners of Petitions for Private Bills; That in the case of the Kilmarnock—Ayr Direct Railway Petition, the Standing Orders had not been complied with, in the following instances; viz,
The notice does not state the intention of making a Branch of about 2 furlongs in length, in order to effect a junction between the main line and the proposed Glasgow and Belfast Union Railway.

The roads numbered 119 and 121, and the properties numbered 120, 122 and 123, in the parish of Newton—upon—Ayr, in the parish of Newton—upon—Ayr, in the parish of Newton—upon—Ayr, are not numbered on the Plan, as represented on the Section of the Plan, as represented on the Section of the Plan,

principal Sheriff-Clerk of Ayrshire, at Kilmarnock, as arose in the case of the Glasgow, Kilmarnock and Ardrossan Railway (Amendment, Deviations and Branches) Petition, and on this point the Examiner begs to report the following facts to the House, in order that they may be referred to the Select Committee on Standing Orders for their decision thereon:

That Ayr is the head burgh of the county of Ayr.

That the Sheriff Courts for the dispatch of all civil and criminal business are held by a Sheriff Substitute, to be licensed for the purpose, shall be completed.

That a variety of public business is transacted at the said principal Sheriff Clerk's office at Ayr, either by custom or by Special Act of Parliament, the transaction of which does not of necessity involve the fact that the said office should be the only or the principal office of the said principal Sheriff Clerk, or even that there should be any office of the said principal Sheriff Clerk in the said town; thus the Register at Kilmarnock is kept at Ayr by the principal Sheriff Clerk of the said county, and has an office at Kilmarnock, the principal Sheriff Clerk residing at Ayr.

That in the month of September 1846, Her Majesty having been pleased to signify Her pleasure that the Sheriffs Courts for the despatch of all civil business should be removed from the Kilmarnock district to Kilmarnock, the number of places involved, and the number of persons attending at Kilmarnock, it becomes necessary that a new Register of Inhibitions be made in the office of the Register Substitutes of Ayrshire, at Kilmarnock, and a similar objection has also arisen, and the practice of depositing in both districts has been uniformly adopted.

That as regards the practice of deposits in the cases of counties similarly divided into districts, it was proved, that in the adjoining county of Lanark there are four districts or wards, three of them, viz., Lanark, Hamilton and Glasgow, being of considerable antiquity, and the fourth, viz., Airdrie having been very recently erected by a similar authority of an Act of Court, in the same form with that constituting the Kilmarnock district.

That in the county of Renfrew, out of six cases, deposits were made in all the four districts in four cases, in the two remaining cases in three districts, and that in the county of Ayr, deposits were made in all the four districts in four cases, and in the two remaining cases in three districts.

That in the county of Lanark, deposits were made in all the four districts in two cases, and in the two remaining cases in three districts.

That as regards the practice of depositing in the cases of counties similarly divided into districts, it was proved, that in the county of Fife is divided into the districts of Cupar and Dunfermline, and the county of Forfar into the districts of Forfar and Duross, a similar doubt has also arisen, and the practice of depositing in both districts has been uniformly adopted.

That in the county of Fife, deposits were made in both districts in four cases, deposits were made in the district in which the works were situate in three cases; and in the two remaining cases, viz., the county of Forfar, deposits were made in both districts, and in the two remaining cases, viz., the county of Fife, deposits were made in both districts.

That in the case of the Glasgow Junction Railway, 1844, a deposit at Glasgow only (not being the head burgh of the county of Lanark, the works being situate in that county) was sanctioned by the Select Committee; but that in respect of the peculiar circumstances of the ancient divisions of that county, the Promoters of Bills have not found themselves justified in adopting any definite rule, as flowing from that decision.

Ordered, That the Report be referred to the Select Committee on Standing Orders.

Mr. Speaker laid upon the Table, Report from Glasgow, Kilmarnock and Ardrossan Railway (Amendment, Deviations and Branches) Petition, that since the Report on the Glasgow, Kilmarnock and Ardrossan Railway (Amendment, Deviations and Branches) Petition was presented to the House, which stated that the Standing Orders had not been complied with, insomuch as no deposit of Plan, Section and Book of Reference had been made at the office of the Principal Sheriff Clerk of Ayrshire at Kilmarnock, a similar objection has arisen with respect to the Kilmarnock and Ayr Direct Railway; and that after hearing the arguments of the parties the Examiner considers the case to be of such a nature as will be most satisfactorily disposed of by a decision of the Select Committee on Standing Orders, as well in respect of the cases at present before the House.
House, as in reference to the establishment of a general and uniform practice amongst the Promoters of Bills in future, and the removal of the doubt which prevails as to the requirements of the Standing Orders in this respect. That the Examiner has therefore (as authorized by the Standing Order, No. 17) made a Special Report of the facts to the House, in the said case of the Kilmarnock and Ayr Direct Railway Petition. That the facts stated in such Special Report, so far as regards the establishment of the office at Kilmarnock, apply equally to the case of the Glasgow, Kilmarnock and Ayrsean Railway Petition; and that the Select Committee on Standing Orders having reported to the House, on the case of the last-mentioned Petition, that it is desirable that such Report should be again referred to the Standing Orders Committee, together with this Report.

Ordered, That the Report be referred to the Select Committee on Standing Orders.

Ordered, That so much of the Report which, upon the 5th day of February last, was made from the Select Committee on Standing Orders, as relates to the Petition for the Glasgow, Kilmarnock and Arbroath Railway (Amendment, Deviations and Branches) Bill, be referred back to the said Committee for reconsideration.

Mr. Speaker laid upon the Table.—Report from Mr. May, one of the Examiners of Petitions for Railway Private Bills; That in the case of the Petition for the North British Railway (No. 2) Bill, the Standing Orders have not been complied with, in the following instances; viz.

It is proposed by Clauses 24 and 25 of the said Bill, to authorize the North British Railway Company to enter into any contracts with the Margarey and Carlisle Railway Company and with the Lancaster...
coster and Carlisle Railway Company for a permanent interest or right to the use of their Station and the works connected therewith, and for the passage of their traffic over and along the Railways belonging to such Companies, upon such conditions as may be agreed upon between the said Companies, respecting the tolls to be charged, and the time and method of forwarding such traffic; such difference is to be referred to the Commissioners of Railways, but the notices do not specify any such intimation, nor explain that such interference with the said Companies will be authorized by the Bill; and no notices have been published in any newspaper of the counties of Lancaster and Dumfriesshire, being counties in which certain works of the said Lassocter and Carlisle Railway Company are situate.

And a small portion of the works of the Caledonian Railway Company which will be affected by the proposed Bill, are situated in the county of Renfrew, but no notice was published in any newspaper of the said county.

A road numbered 29 and 125, on the parish of Cavers, is shown on the Plan of the proposed Extension of the Hawick Branch deposited in the Private Bill Office, as being crossed by the said Railway, between 10 miles 7 furlongs and 10 miles 8 furlongs, whereas on the Section deposited therewith, the said road appears to be crossed between 11 miles and 11 miles 1 furlong.

At the change of gradient marked on the Section, as occurring at or near 11 miles 7 furlongs 3 chains and 80 links from the commencement of the said Extension, the height of the line representing the upper surface of the rails, is marked in figures as 702 feet above the datum line, being 6 feet at least more than the height thereof, as measured by the vertical scale upon the said Section.

At the change of gradient marked on the Section, as occurring at or near 28 miles 7 furlongs and 29 miles from the commencement of the said Extension, where the line is shown as crossing the statutory labour road, marked on the said Plan No. 130, in the parish of Canonbie, the height of the surface of the ground, as shown upon the Section, is 7 feet 8 inches below the actual height of the surface of the ground, which at the said point is 87 feet 7 inches above the datum line.

At the point on the Section between 12 miles 4 furlongs and 12 miles 5 furlongs from the commencement of the said Extension, where the line is shown as crossing the turnpike-road marked on the said Plan No. 9, in the parish of Ewes, the height of the surface of the ground, as shown upon the Section, is 6 feet 8 inches below the actual height of the surface of the ground, which at the said point is 801 feet 5 inches above the datum line.

At the point on the Section between 12 miles 5 furlongs and 12 miles 6 furlongs from the commencement of the said Extension, where the line is shown as crossing the turnpike-road marked on the said Plan No. 9, in the parish of Ewes, the height of the surface of the ground, as shown upon the Section, is 4 feet 7 inches below the actual height of the surface of the ground, which at the said point is 787 feet 7 inches above the datum line.

At the point on the Section between 13 miles 4 furlongs and 13 miles 5 furlongs from the commencement of the said Extension, where the line is shown as crossing the turnpike-road, marked on the said Plan, is 4 feet 6 inches below the actual height of the surface of the ground, which at the said point is 787 feet 7 inches above the datum line.

Note by Mr. Bateman.

The precise points referred to in allegations 5, 6 and 7, (the three preceding paragraphs) are difficult to determine, and therefore liable to error.

At the point on the Section between 28 miles 7 furlongs and 29 miles from the commencement of the said Extension, where the line is shown as crossing the statute-labour road, marked on the said Plan No. 130, in the parish of Canonbie, the height of the surface of the ground is shown upon the Section to be above the height of the ground at the said point, to the extent and under the circumstances explained by Mr. Bateman in his report, 207.

This refers to a public road, the surface of which is very uneven, the highest point at the crossing of the Railway, and which is covered with a green sward, is 173 feet, 6 inches above the datum line, and the lowest part, which is the accustomed track-way for carts and horses, is 171 feet, 1 inch above the datum line; if the latter point be taken, the surface of the ground as shown, upon the Section, is 3 feet 9 inches above the actual height of the surface; if the former point is taken, the surface of the ground is 1 foot 5 inches above the actual height of the surface at the point referred to.

At the point on the Section between 29 miles and 30 miles 1 furlong from the commencement of the said Extension, where the line is shown as crossing the River Liddel, marked on the said Plan No. 138, in the parish of Canonbie, and marked No. 1, in the parish of Kirkconnel-upon-Esk, the height of the surface of the ground, as shown upon the Section, is 3 feet 3 inches above the actual height of the surface of the ground, which at the said point is 87 feet 9 inches above the datum line.

Note by Mr. Bateman.

The bed of the river is very irregular, parts of it being 3 feet lower than the centre.

At the point on the Section between 33 miles

above the datum line; the surface of the water was
on the 21st of March (being the ordinary level
of the water when the river is not swollen) 32 feet

Midland Railway (Worcester, Hereford, Malvern and Ledbury) Bill, for leaving to bring in a Bill to enable the said Company to construct a Railway from Worcester to Hereford, with Branches therefrom, and for making arrangements with the Herefordshire and Gloucestershire Canal Company, and for other purposes, was presented, and read; and referred to the Select Committee on Standing Orders.

Mr. Speaker laid upon the Table,—Report from Mr. Mag, one of the Examiners of Petitions for Private Bills; That in the case of the Petition for the Midland Railway (Worcester, Hereford, Malvern and Ledbury) Bills, with a Branch to Ledbury, the Standing Orders have not been complied with, in the following instances; viz.

A piece of garden ground adjoining Nos. 4 and 6, in the parish of Wrelton, and shown upon the Plan deposited in the Private Bill Office, as separated from an arable field, No. 4, belonging to the same owners and occupiers, is not numbered thereon nor described in the Book of Reference.

On an inclosure numbered 12, in the parish of Northallerton, with a Bridge thereon, written in the Book of Reference as house, shed and garden, the house or cottage is not delineated.

In the Schedule to the application made to Abigail Smith, in respect of several properties in the parish of Mathon, No. 22, in that parish, on the said Plan, was, by a clerical error, incorrectly described as No. 32.

The name of Thomas Evans is not inserted in the Book of Reference, as owner of certain properties in the parish of Henlow, within the limits of deviation of the main line, and numbered on the said Plan 13, 14 and 15 respectively, in the said parish, although the said Thomas Evans was, on an inclosure, dated 20th of November last, and now is, the owner of the said properties; and the said Thomas Evans has not received any application in writing in respect thereof.

On the Section deposited in the Private Bill Office, the vertical height of the Ledbury branch, is stated to be 298, whereas the same should have been 293.

On the Malvern and Ashchurch line the gradient commencing at or near 13 miles 6 furlongs 3½ chains, and ending at or near 13 miles 6 furlongs 4½ chains, is marked on the said Section 1 in 314, whereas such gradient, if calculated from the vertical heights, as drawn and figured thereon, should have been marked 1 in 292, or thereabouts; and the gradient commencing at or near the said point, 13 miles 6 furlongs 4½ chains, and ending at or near 13 miles 6 furlongs 7 chains, is marked on the said Section in 264, whereas such gradient, if calculated from the vertical heights, as drawn and figured thereon, should have been marked 1 in 271, or thereabouts.

The point on the Section at which the road, numbered 41, in the parish of Bobbury, is crossed by the Railway, is not correctly shown, as the figures having reference to such road are not placed at the true point of crossing.

The point on the said Section at which the road numbered 41, in the parish of Bobbury, is crossed by the main line, is not correctly shown.

The crossing of the public carriage-road, numbered 46, in the parish of St. John, in Boroughbridge, by the main line, at or near the distance of 4 miles 3 furlongs 6½ chains, as shown on the Plan deposited in the Private Bill Office, is not shown or distinguished upon the Section, and the depth of the Railway under the same is not marked in figures at the crossing thereof.

On the branch to Ledbury, the road numbered 41 on the said Plan, in the parish of Bobbury, and crossed by the said last-mentioned branch line, at or near the distance of 7 chains and 2 furlongs, as shown on the said Plan, is not shown on the Section of such branch line, but the same is shown on the Section of the main line; and the main line and branch will be carried over the said road by the same bridge.

And on the Malvern and Ashchurch line, the crossing of the road numbered 66, on the said Plan, in the parish of Tewkesbury, and crossed by the said last-mentioned branch line at or near the distance of 13 miles 1 furlong and 8 chains, as shown on the said Plan, is not shown or distinguished on the said Section of such line, and the height of the Railway over the said road, and the height and span of the arch by which the Railway will be carried over the same, are not marked in figures at the crossing thereof.

At the point at which the said Railway is intended to cross the public carriage-road on the Malvern and Ashchurch line, No. 66, on the said Plan, in the parish of Tewkesbury, and crossed by the said last-mentioned branch line at or near the distance of 13 miles 1 furlong and 8 chains, as shown on the said Plan, is not shown or distinguished on the said Section of such line, and the height and span of the arch by which the Railway will be carried over the same, are not marked in figures at the crossing thereof.

The following cross Sections are not in accordance with the model Plan annexed to the Standing Orders, as the present surface of the roads is delineated, but the rate of inclination thereof is not marked.
marked in figures; viz., the cross Sections referred to by the numbers, 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, on the Section of the main line; the cross Sections, 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 12, 13, 15, 16, 17, 18 and 19, on the Section of the Malvern and Ashchurch line, and No. 38, on the Section of Branch, No. 1, leading to Shrewsbury, and Nos. 1 and 2 respectively, on the Section of the Branch to Ledbury.

The Malvern and Ashchurch line is shown to cross a certain public carriage-road not far from the distance of 13 miles 2 furlongs and 6 chains, shown on the said Section, and such road is stated, on the Section, to be lowered 4 feet, and passed over a level, yet the same is not numbered on the said Section, nor is any cross Section added to explain more clearly, the nature of such alteration.

The cross Section referred to by the No. 1, on the said Section of the Malvern and Ashchurch line, is inconsistent with the statement on the longitudinal Section, relative to the road to which the said cross Section refers, as such cross Section shows the said road to be lowered 8 feet, or thereabouts, and crossed on the level, whereas the longitudinal Section states that the said road is to be lowered 4 feet, and passed under the Railway.

The public carriage-road shown on the said Section of the said last-mentioned line, to be crossed by the said Railway, at or near the distance of 4 miles 8 chains thereon, is stated on the said Section as being intended to be lowered 8 feet, and passed under the Railway, and the cross Section referred to by the No. 4, accords with such description, but such statement and cross Section are erroneous, as it is intended to raise the said road 8 feet, and to carry the same over the Railway.

The several applications in writing made to the persons named in the following Table, do not correctly describe the Sections of the line deposited, and the greatest height of embankment and depth of cutting, as affecting the properties referred to in the said Notice, by the numbers set forth in such Tables, on account of the several inaccuracies also therein particularly mentioned; (that is to say) commencing at 8 miles, 8 furlongs and 490 links, and continuing thence to Hereford, by which the surface of the ground with reference to the datum line is shown to be 5 feet lower than the true surface of the ground; and in the Sections of the Ledbury Branches of the said Railway, there is a continuous error, by which the surface of the ground, with reference to the datum line, is shown to be 8 feet lower than the true surface of the ground.

A Petition of the here-undersigned, for leave to Gloucester and Hereford Railway Bill, and to transfer to such Company the Herefordshire and Gloucestershire Canal Navigation, and for other purposes connected therewith, was presented, and read; and a Bill was ordered to be brought in accordingly, by Mr. Phillips and Mr. Pulteney.

Mr. Speaker laid upon the Table.—Report from Coventry, Mr. Mayor, on the Petitions for Consent for Private Bills; That in the case of the Petition for the Oxford Junction Railway, the Coventry, Banbury, and Oxford Junction Railway Bill, the Standing Orders have not been complied with, as, by the said Bill, power is proposed to be given to let on lease the proposed Railway to the Great Western Railway Company, or any other Railway Company, with power to the Great Western Railway, or such other Railway Company, to accept and take such lease, whereas the Notice given in the London Gazette and local newspapers do not specify the said Great Western Railway Company, but state generally that it is intended to lease the undertaking to any other Railway Company, or persons with whose line the said Railway and Branches hereby contemplated, or any of them, may unite; and Notices have not been published in newspapers of the several counties through which the said Great Western Railway passes.

Ordered, That the Report be referred to the Select Committee on Standing Orders.

The Edinburgh and Bathgate Railway (Deviation Edinburgh and Bathgate Amendment Bill) was read a second time; and committed.

Ordered, That the Bill be referred to the Committee of Selection.

Petitions of the Mayor and Burgesses of the borough of Harwich, in the county of Essex ;—and, Merchants, Shipowners and others connected with or interested in the trade and communication between England and Northern and Central Europe; stating the urgent necessity for the preservation of the trade between and Northern and Central Europe renders it of the utmost importance that the communication between this country and the opposite coasts of the German Ocean should be expeditions, regular, safe and effectual; that, from its position, the port of Harwich is the natural point of communication between England and Northern and Central Europe, and, prior to the employment of Steam Vessels on the Thames, it was the packet station for the Dutch, Hamburg, Gottingen and Elsinor mails, the port used by the Royal Family in their passages between England and Germany, and the focus of the passenger traffic between all parts of the kingdom and Holland, Germany, and the whole of the north of Europe. It has also served from time immemorial as a harbour of refuge for vessels navigating the German Ocean, of which upwards of a thousand have frequently lain at anchor within its spacious and commodious haven; that from the report made to the Lords of the Treasury by the Commissioners of Harbours of Refuge, it appears that the harbour of Harwich is one of very great importance to the trade of the country; it is one of the finest, and may be rendered one of the most useful, havens in the kingdom; it has a sufficient depth of water and good holding ground over an extent capable of holding many hundred ships; it is remarkably well situated for the convenience of a North Sea squadron, and for the protection of the mouth of the Thames; it is the only safe harbour along the eastern coast of England, and is in the direct line of traffic between the Thames and the northern ports of the kingdom, as well as of the trade from the north of Europe; it has a dockyard, with building slips, belonging to the Crown, and the property there under the Ordnance Department is extensive; and that nothing is more manifest than the fact, that Harwich is the proper place for a station of a squadron on the said coast, as well as a harbour of refuge for merchant vessels; and the Commissioners expressed their decided opinion as to the necessity of taking immediate measures for the preservation and improvement of the harbour; that from evidence given before a Committee of the House by officers engaged on the survey of the North Sea, it is ascertained that the port of Harwich is accessible in all weathers and at all times of the tide; and that the mails despatched from the London General Post-office at the usual hour, would, by being transmitted by Railway to Harwich, and there embarked, arrive in Holland at about the same time as that at which they now leave the River Thames; while for passengers, the delay, inconvenience and danger of the intricate navigation of the Swin and the mouth of the Thames would be altogether avoided; that from the opening of the new tariff, the trade with Holland and Germany has of late been very much developed, and there is every prospect of its further increasing to a vast extent; so that the necessity for obtaining every facility to the communication with those countries has become more urgent; that a direct line of Railway between Harwich and Trieste is now for the most part open, and during the course of the present year is expected to be completed throughout; and that other Railways through Holland and Germany are in a state of forwardness, all leading towards Trieste, whereby another road to the Levant, India and China will be available, which in the event of a war would be of the utmost importance to the nation at large, as well as Her Majesty's interests.

Ordered, That the Petitions be printed, at the expense of the parties.

A Petition of Magistrates of the Atherstone Division of the North Warwickshire district of the county of Warwick, acting at Nuneaton, Railway Bill, the Committee specially appointed by the Commissioners of the Coventry and Hinckley Turnpike, passed through Nuneaton, at a General Meeting of the Trustees of the said Road, held at Coventry on the 24th day of December 1846, and of Inhabitants of the town and neighbourhood of Nuneaton aforesaid, was presented, and read; setting forth, That an Act of Parliament has been obtained, authorizing the making of a Railway from Stafford to Rugby, called the Trent Valley Railway, which is intended to pass over the said Coventry and

A. 1847.
and Hickley Turnpike-road upon a level, to be secured by means of gates across the said turnpike; that the said crossing is close to the end of the town of Nuneaton, separating part of the buildings and the station immediately adjoining the said turnpike-road; that Nuneaton itself has a population of some eight thousand, and the Hickley-road is one of the largest thoroughfares in the parish, being scarcely free from passengers to and from Nuneaton and the neighbourhood five minutes together during the day, as well as a large portion of the night; that the Trent Valley Railway, when completed, is expected to be one of very general traffic, and that a great number of trains will necessarily pass in the course of every day and night, and that the obstruction occasioned by the very frequent delays which must of necessity occur when a train is due, or passing or waiting at the station (which is immediately adjoining), will be of the most serious injury to the free passage of the turnpike-road by the public; and that Petitioners are also grievously alarmed at the danger to which the inhabitants of Nuneaton, and particularly females and children, will be exposed in passing and repassing over the said railway, in communications with the town, and their residences and properties on the opposite side; that the Petitioners were not aware that a crossing on the level was intended to be at an elevated station above the present surface of the Turnpike-road, which is one foot and six inches higher than the level stated on the Parliamentary Plan of the said railway; that the Petitioners are prepared to show that there is no necessity whatever for the said Railway crossing the said Turnpike-road upon a level; but that a safe and secure passage may be obtained by means of a passage under the said Railway, of the usual height and width required by the General Railway Acts; and praying that the House will, through the agency of the Board of Railway Commissioners, or otherwise, as may appear most proper in their discretion, interfere and prevent the obstructions and dangers which must of necessity be the consequence of a level crossing of the public highway in such a situation as the present.

Ordered, That the said Petition do lie upon the Table; and be printed, at the expense of the parties.
